Privacy & Cybersecurity Resilience

Vikki Karatovic, Business Relationships Manager, Health, Gow-Gates Insurance Brokers

Privacy and cyber security involves a strong technology component and is often seen as IT problem, however the management of these risks is ultimately a board and management responsibility. Without proper security measures in place, a breach or data loss is not just likely, but inevitable. This presentation will focus on the steps your business can take to withstand an inevitable cyber-attack, returning to normal operations quickly and with minimal business

impact.
