ABOUT VALMEC

Specialists in asset lifecycle solutions

Valmec Limited (ASX: VMX) is a leading energy, resources and infrastructure service group, providing construction, commissioning and maintenance services from conception to decommission, across the full asset lifecycle.

At Valmec, our vision is to be the most trusted specialist services group in the delivery of projects, operations and maintenance services.

Our guiding principle is clear – increase asset life and lower the total cost of ownership for clients by providing quality results that are delivered safely.

CORE VALUES

The Core Values are the fundamental beliefs and the ingrained principles of our company.

They guide our day to day behaviours and serve as our cultural cornerstones.

SAFETY >

We will not compromise

INTEGRITY >

We do what is right

COLLABORATION >

We work better together

ACCOUNTABILITY >

We deliver on our promises

RESPECT >

We value diversity, community & the environment

RECONCILIATION

As an Australian owned and managed Company, we are committed to fostering mutually beneficial Indigenous and traditional landowner partnerships, and sponsoring long-term employment opportunities within the communities in which we work.

We are pleased to have been endorsed by Reconciliation Australia for our Innovate RAP 2020 - 2022.

OUR COMMITMENT

To deliver the best value for our clients, coupled with a commitment to the environment, to health and safety, and operating to high ethical standards.

“

Our goal is to be the most trusted specialist services group in the delivery of projects, operations and maintenance services in energy, water, and resources sectors.

”

Federal Safety Accreditation
2020

We have a firm belief that if work is properly planned and executed, all incidents can be prevented. We strive to achieve Zero Harm to all our people involved in our work with a commitment to ensure no one is exposed to uncontrolled hazards and risks.

We are committed to continually improving our environmental performance through cost-effective solutions that minimise our environmental impact and prevent pollution. Valmec is certified to meet the requirements of ISO 14001: 2015.

We operate under and in accordance with a safety and quality management system, which complies with AS/NZS 4801 and OHSAS 18001 requirements. Valmec has third party ISO 9001: 2015 Quality Management System accreditation and implements site-specific management plans for each project.

Valmec has achieved **Federal Safety Accreditation** status, plus an industry-leading milestone of 3 million hours loss time injury free in 2020.

For Valmec, a safe project is a successful project.
