

BIBO

the hottest | the coolest

healthy water made easy

health

Having a BIBO water bar helps prevent the headaches and tiredness caused by dehydration. Whether it's a glass of chilled water, a soothing cup of tea or a reviving coffee made with filtered and purified water – BIBO can do it all at the touch of a button.

convenience

Streamlined and stylish, the BIBO water bar takes up a small amount of bench space where your kettle used to be! Use it to prepare a quick and easy snack like soup and noodles, fill a pot for cooking or simply grab a hot or cold drink to enjoy in seconds.

environment

Go plastic free with your BIBO water bar and help rid the planet of environmentally unfriendly and expensive single use plastic bottles. Fill up your BIBO glass bottle and take it with you for eco-friendly, great tasting water on the go.

BIBO is the latest technology in hot and cold water

filters

BIBO's multi-stage carbon filtration system removes impurities such as chlorine, lead, and more.

purifies

Your water is 100% safe and bacteria free with BIBO's unique ultraviolet (UV) purification system.

chills

Stay refreshed and hydrated with an endless supply of chilled water at the perfect temperature.

boils

Enjoy the convenience of instant boiling water; no more wasted time waiting for the kettle to boil.

programs

Set temperatures, volumes and power saving modes to suit your individual tastes and requirements.

The BIBO water bar removes impurities from your drinking water utilising the latest in multi-stage carbon and UV filtration technology.

BIBO carries Watermark, C-Tick certification and meets all the Australian regulatory standards.

the hardest thing about BIBO is choosing a colour

instant filtered, purified, chilled and boiling water at the touch of a button

You deserve the absolute best when it comes to staying hydrated and healthy throughout the day. That's where BIBO comes in.

BIBO water transforms tap water into high quality filtered and purified water, ensuring clean, safe, great tasting water every time.

Instant hot water saves valuable time waiting for the kettle to boil plus it saves on energy and water use.

Constant perfectly chilled water means you can get rid of unhygienic water coolers, bubblers and plastic bottles.

Connects to your water mains so no refilling is required and comes with a removable drip tray so no waste required.

Features include touch screen operation, child safety lock, temperature and volume settings and power saving modes.

Big savings and significantly lower running costs over traditional undersink chilled & boiling water systems.
