ENTRUST ID CARD PRINTERS

Entrust, founded in 1969, is a privately held company with presence in over 150+ countries globally. With its headquarters and manufacturing facilities based in Minnesota USA, the Entrust brand is synonymous with quality and performance.

CSID are the exclusive Entrust distribution partners within Australia, Fiji and Papua New Guinea.

Entrust's ID card printers and encoders are made for membership cards, secure photo ID cards, smart card applications and access control systems.

Entrust represents the ultimate in identity platform solutions. By choosing an Entrust printer brand you can be sure of the highest quality and value for your organisations ID card requirements.

Visit www.entrust.com or the CSID website to learn more about the comprehensive Entrust ID card printer product range.

ENTRUST

TECHNICAL SUPPORT

Our service extends beyond the sale of a printer. We have expert technicians which can assist you from installation through to the entire life of a printer.

We provide excellent onsite, phone, email and remote online technical support.

Our value service agreements can be tailored to your organisations requirements to ensure your printer always runs smoothly.

CONSUMABLES

CSID supply only genuine colour and monochrome ribbons for all Entrust ID card printers.

Several types of ribbons are available for use with card personalisation systems.

Selecting specific ribbon types depends on your application as well as the specific printer and encoder you will be using. Each ribbon type yields unique benefits. We will guide you through the right solution for your requirements.

Every ID card printer requires proper care and maintenance. Our cleaning kits are equipped with all of the necessary requirements to keep your printer running at its optimum efficiency.

Entrust ribbon cores are biodegradable and engineered with EcoPure® additive.

PVC CARDS

CSID carry a comprehensive range of plastic cards, suitable for use with all of our plastic card print applications.

Our range includes:

- Magnetic Stripe Cards
- Adhesive Cards
- Blank White Cards
- PVC Coloured Cards

Mifare Classic, DESFire Mifare, Proximity Cards are also available.

For a higher level of security, our solutions include a patented, tamper-proof tactile impressions feature.

ID ACCESSORIES

CSID carry an extensive range of ID card accessories to compliment your photo ID cards.

Our range includes:

- Lanyards
- Badge Holders
- Retractable Reels
- Clip Straps
- Card Punches

Accessories are packaged in lots of 50 and are priced accordingly.

SOFTWARE & DIGITAL ID

From setting up a basic ID Card template design, or use in a card personalisation bureau, to database connectivity or for smart card read-and-encode applications, CSID will have a suitable, easy-to-use card management software for your individual requirements.

CSID have various Digital ID solutions to suit your organisations requirements:

Mobile ID Flash Pass: a Digital ID Badge which can be issued instantly along with a Physical ID badge to streamline the ID issuance process. This is ideal for visual verification of the end-user and where scanning a barcode or QR code is required.

Mobile ID Lab: a secure APP-based, custom solution which allows the issuer to create unlimited Mobile Digital ID's to their data-base of end-users. Data is securely stored in the cloud in Australia.
