

THE MOST IMPORTANT APP YOUR BUSINESS WILL EVER HAVE

FLEXIBLE, ECONOMICAL, TAILORED FOR YOU

MANAGE YOUR BUSINESS

- Create custom forms/dockets & invoices using the backend website, e.g. timesheets, hourly hire dockets, incident reports, toolbox talks, etc.
- Use the bundy clock to track your work throughout the day
- Utilise scheduler on the backend to organise jobs & staff

FLEXIBILITY TO SUIT YOUR BUSINESS

- Share all the information between the field and the office
- Replicate your own forms/dockets and documents on the backend
- Get approvals on site or remotely
- Take or attach photos to your dockets/forms
- Covid safe

SCAN ME

SCHEDULE YOUR JOBS

Assign plant and staff to jobs
Easily move jobs around and edit them

Track resource utilisation
Use daily, weekly, monthly and hourly views

QR CODES

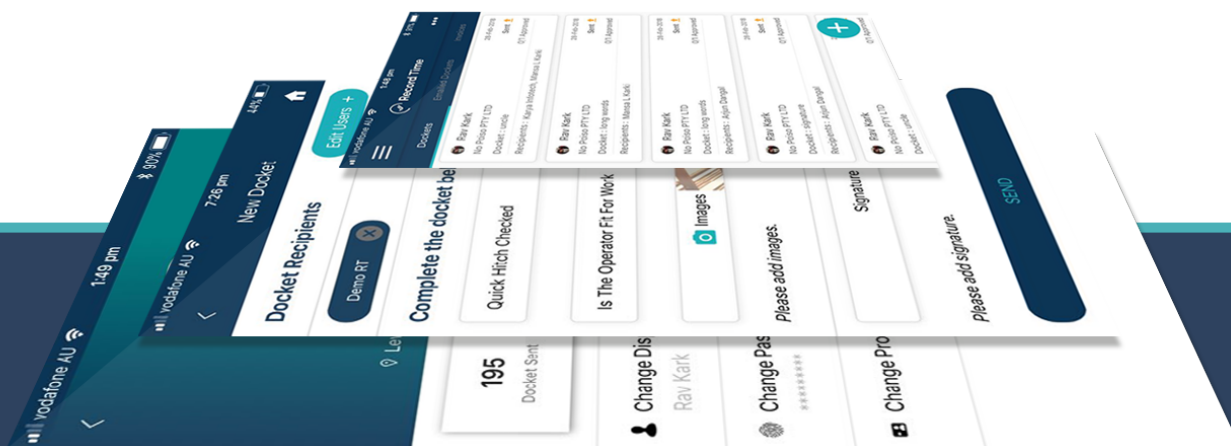

QR codes provide access to particular templates (forms). For example, pre-starts etc., print & attach the qr code to the plant and have staff complete the form before use

DRAFTING DOCKETS

Draft docket when you're on the go and come back to them when you need

Save drafts to save time - perfect for when you're on the same job, all the basic information is already there, then just add the extra details
