Don't Compromise, Optimise!

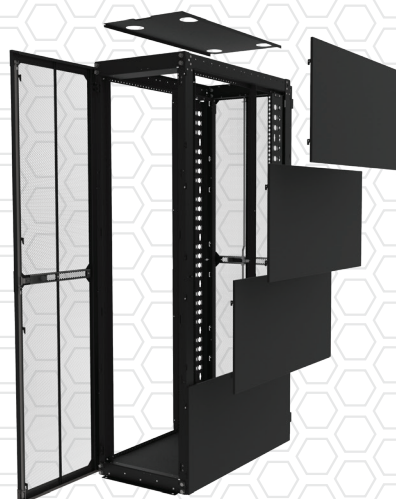

Find the perfect product for your *Bottom Line Needs*

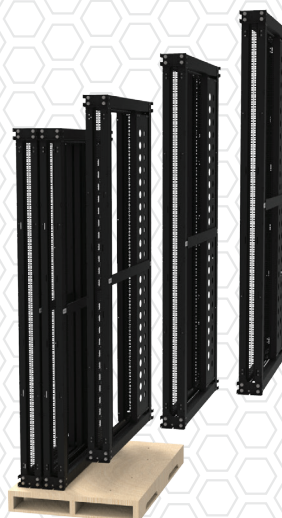

Saving \$3.5M/Year and decreasing 25% of deployment time by continually creating custom solutions for cloud providers

25 different rack models to choose from, whether you're a small network server room or a large data centre

10,000 different rack configurations to customize your rack the way you need it.

Saving \$65,000 per truck and eliminating waste by shipping multiple racks per pallet

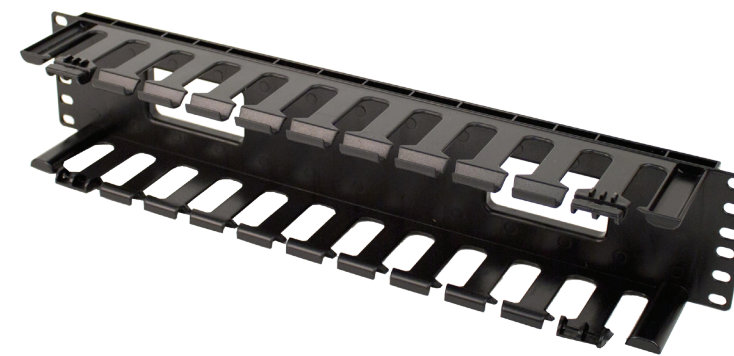

Additional Solutions

Cable Management

Don't leave your cables hanging! Our cable management products allow you to clean up your rack while improving airflow and ease of maintenance.

Our Cable Management Arm is fully adjustable, saves rack space, and is compatible with most types of equipment.

The Horizontal Cable Managers provide higher density cable management, featuring convenient cable pass-through holes that are perfect for organizing large amounts of cables.

PC Wall Mounts

Optimize your workspace with our PC Wall Mounts! Mount your PC, monitor, and keyboard to the wall with this durable and secure enclosure system. This solution is perfect for restaurants, hospitals, and retailers.

Sliding Keyboard Tray

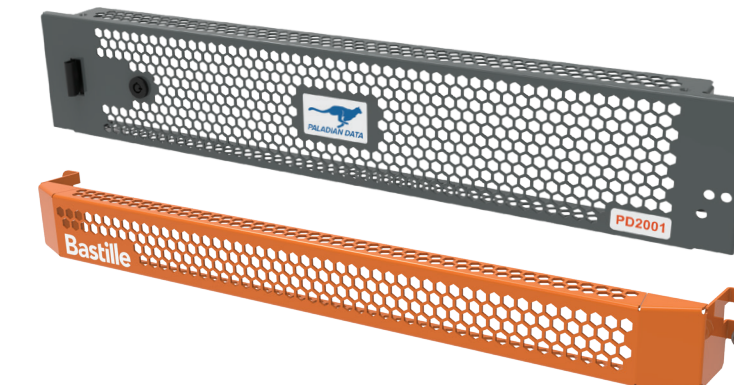

Our Sliding Keyboard Tray features an adjustable cable management arm, storage space, and allows you to easily manage your server. Also available in Sliding Keyboard with Monitor option.

Rackmount Boxes & Drawers

Organize your networking equipment and prevent unwanted access with our Lockable Rackmount Drawers. If you need storage space, our Rackmount Boxes provide a quick and easy way to access your equipment.

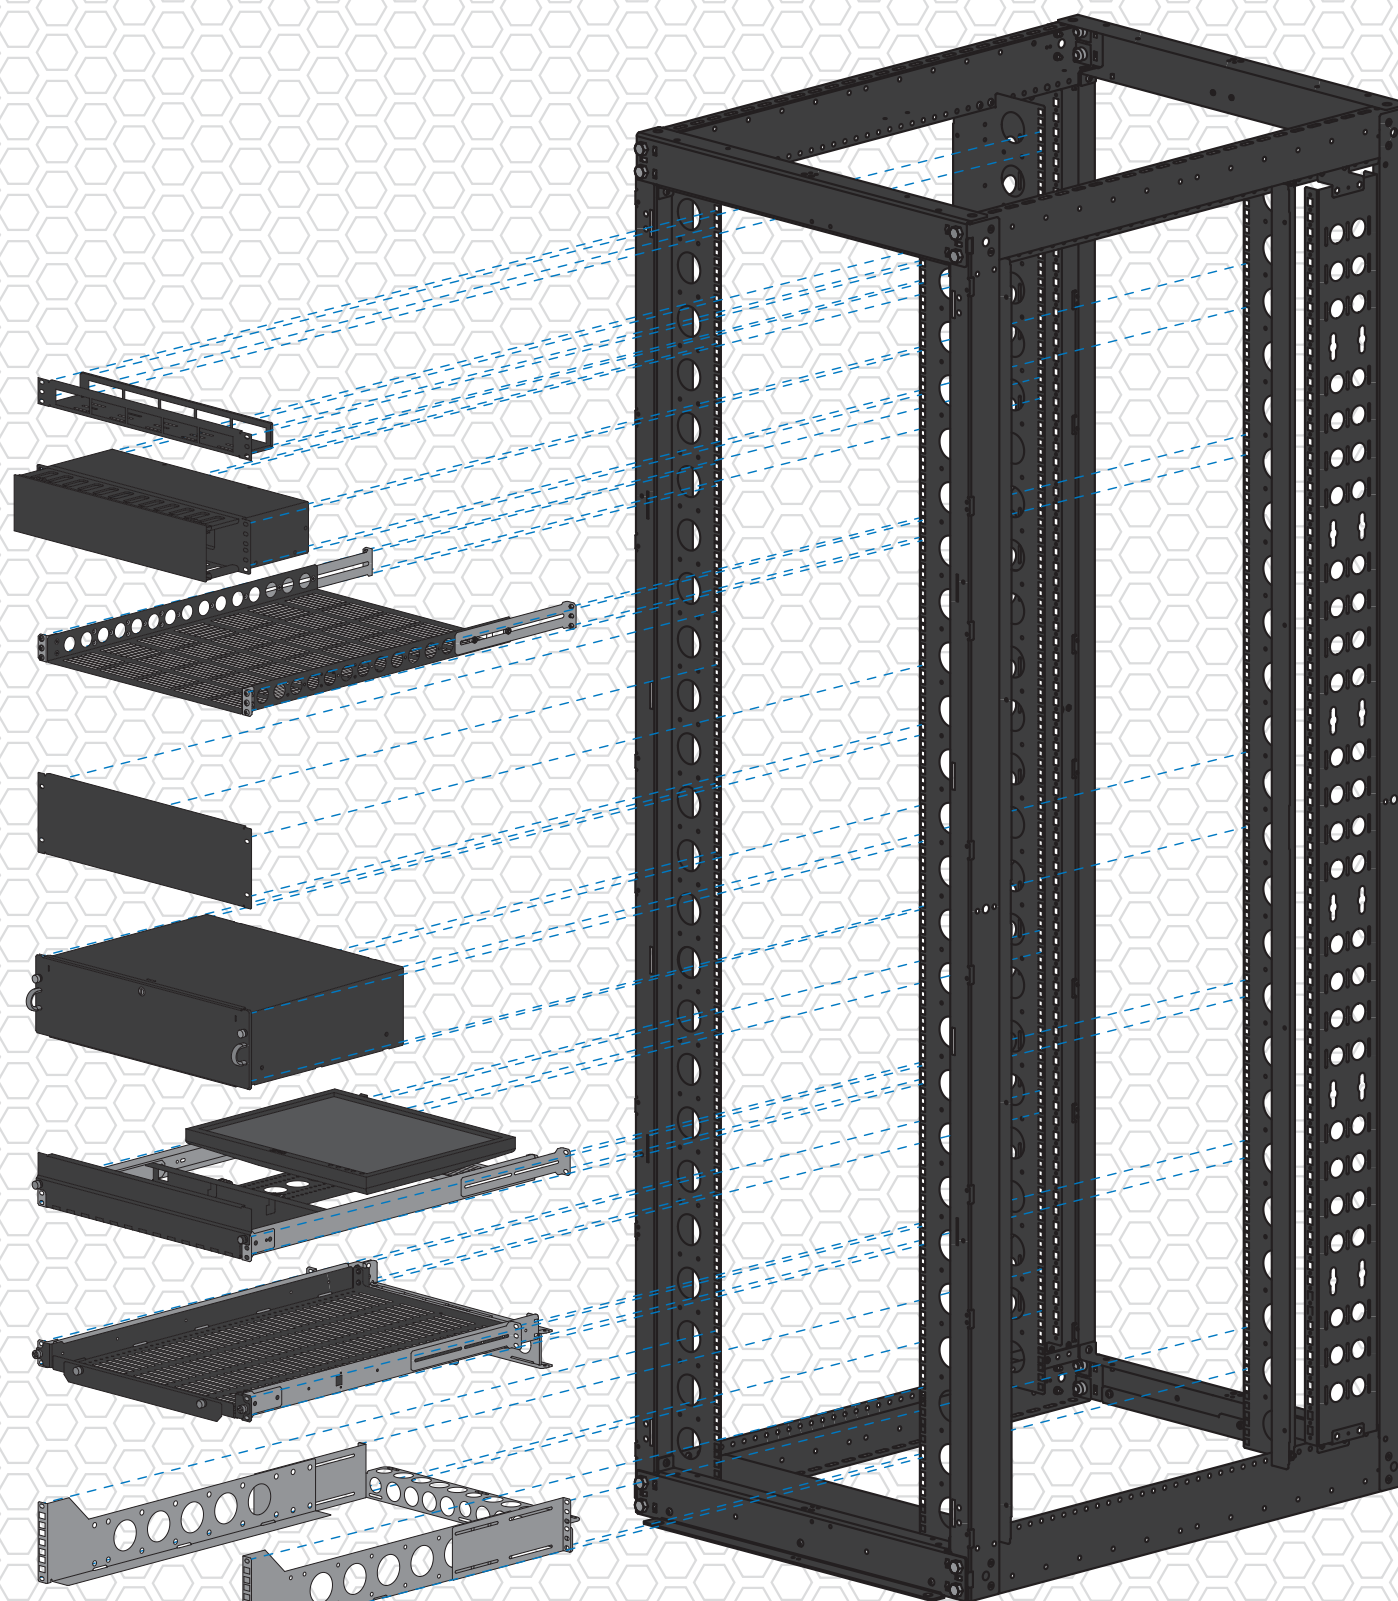

Custom Bezels

RackSolutions designs and manufactures custom bezels for various rack mounted servers and network devices. Our engineers will work closely with you to select the design and colors that showcase your brand!

Racks

Backbone of the Data Centre.
Don't trust just any rack for your expensive server equipment. RackSolutions designs and manufactures high quality racks from the smallest offices to the largest data centres at a reasonable cost.

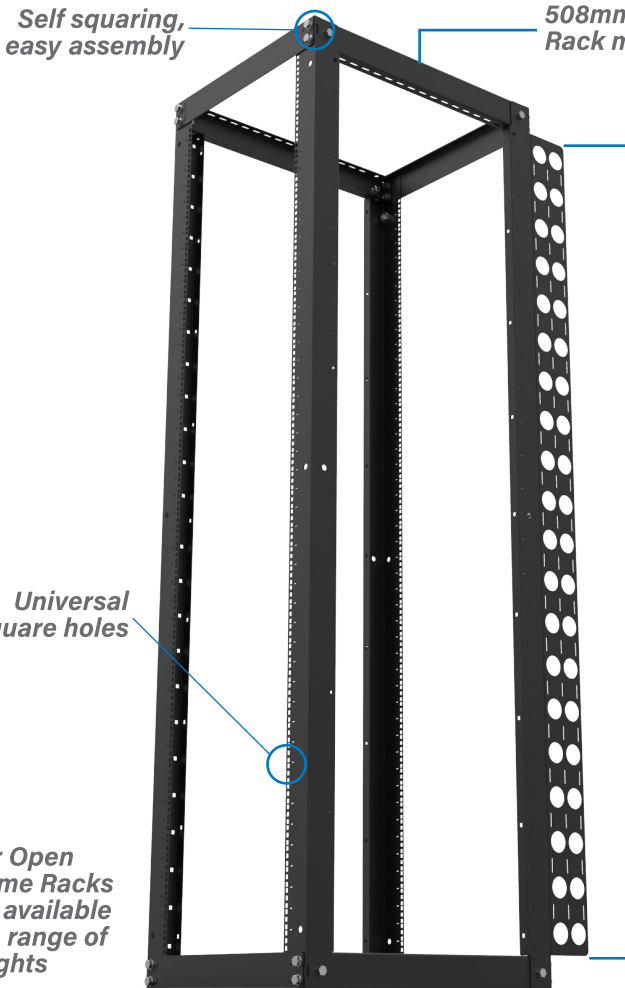

Open Frame Rack

RackSolutions' Open Frame Racks provide users with versatile, customisable solution engineered to meet a diverse set of rack mounting needs. Assembles in 10 minutes!

Universal square holes

Our Open Frame Racks are available in a range of heights

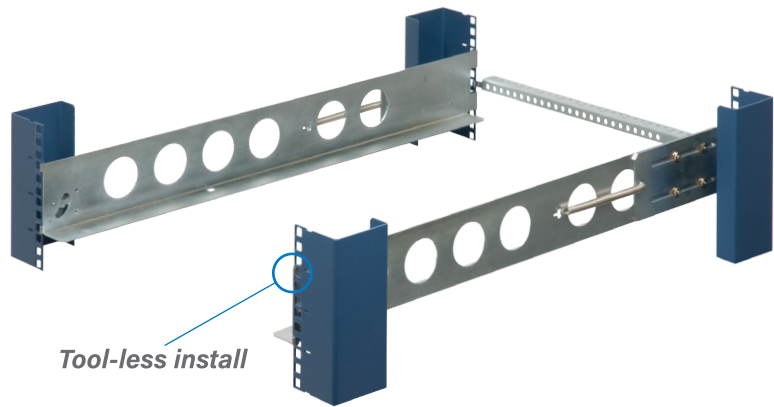

Rails

We know there is a lot riding on them.
How do you improve on a proven mechanical solution like a slide? We did. How did we do it? Take a look.

Tool-less Rack Rails

Tool-less rack rails can be installed into racks with square holes. Rackmount equipment weighing up to 200 lbs (90.7 kgs) can be installed using a tool-less rack rail.

Shelves

When a shelf is more than a shelf.
The infantry in the server room campaign, the shelf. If you think that they are just cut and bent pieces of metal, then you have not used ours.

Sliding Shelves

Our sliding shelves make it easy to rack mount any type of equipment.

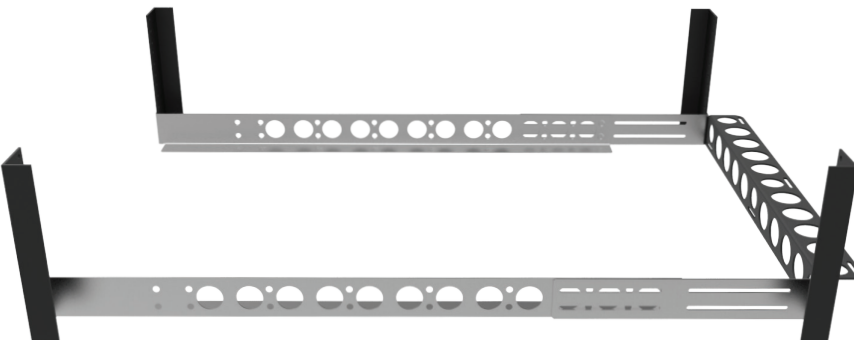

Rack 111

"When we completed a 20,000 sf data centre expansion we needed about 100 server racks to complete the project. RackSolutions had the best product, the best customer service and as it turns out, the best price too. They even flew out to our facility when the installation was complete to check on us and make sure we were completely satisfied, and we were." Hivelocity.net

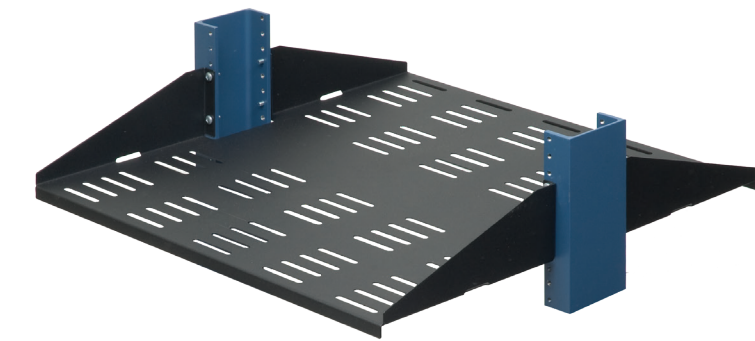

Universal Rail

Our Universal Rail's provides a flexible solution for installing servers from all OEM's. Works on 2 and 4 post racks. Available in 1RU, 2RU 3RU. Shallow and deep mount rail options.

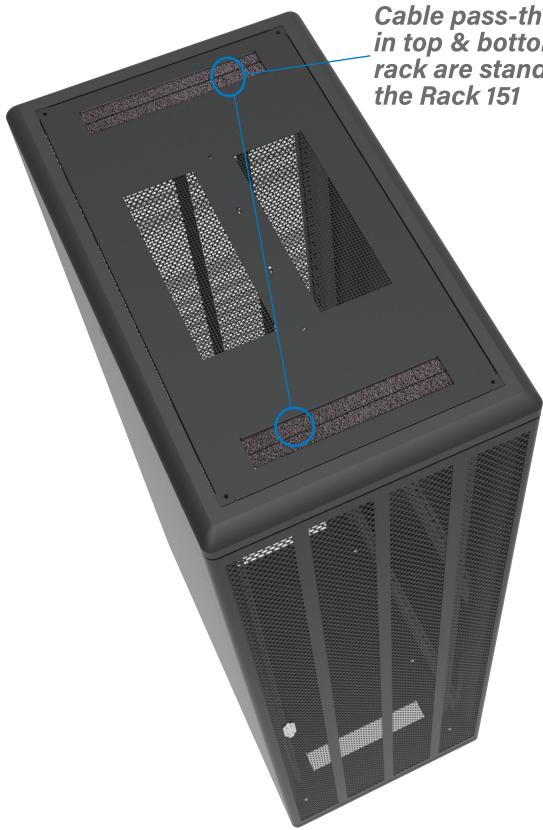

2 Post Shelves

We have a wide selection of 2 post shelves for different weights and sizes.

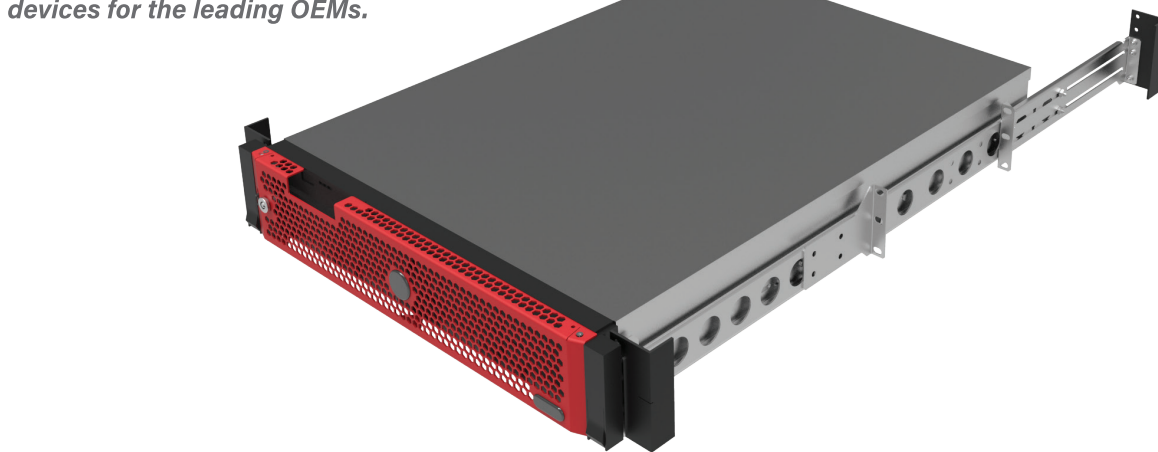

Enclosed Server Cabinets

Fully enclosed 18U to 42U server cabinets. The solution for any small server room.

OEM Rail

RackSolutions designs and manufactures rails for servers, switches and storage devices for the leading OEMs.

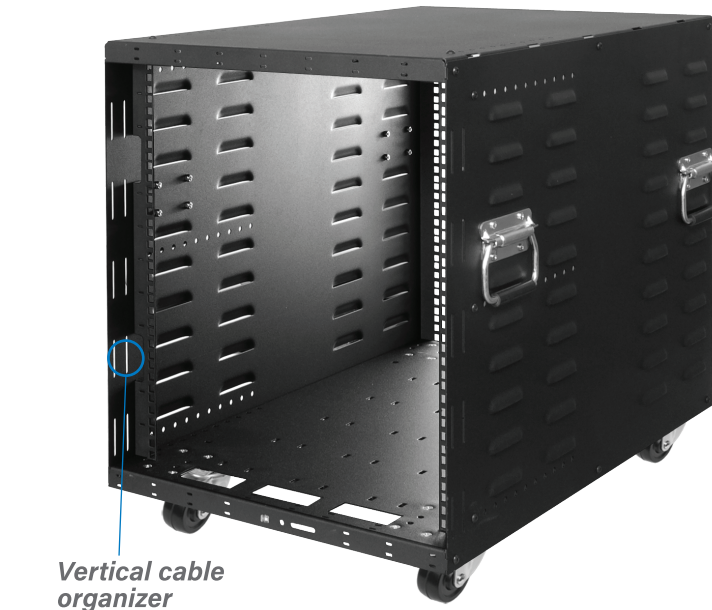

Heavy Duty Sliding Shelf

This supports 226 kilograms, even when extended. It is perfect for rack mounting heavy switches, servers and power supplies.

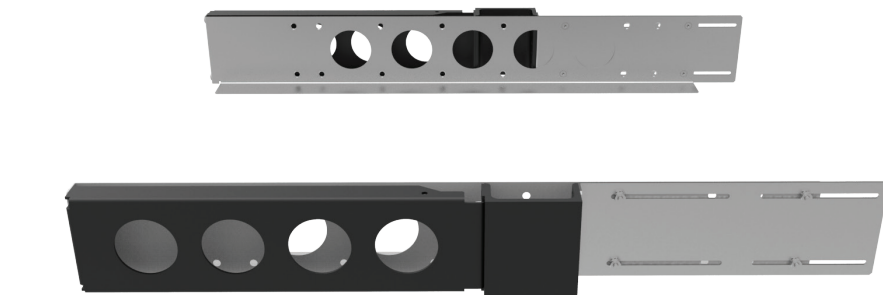

12U Portable Server Rack

Our portable rack is compatible with any standard 19" rack equipment including Dell, HP, IMB, and Apple servers. The self-squaring design features an adjustable mounting depth of 19"-29", 245 kg maximum capacity, and includes ball-bearing casters.

2 Post Rail Kits

No need to discard your 2 post server racks. Our 2 post rail kits are designed to mount most OEM servers.

4 Post Shelves

Our adjustable 4 post shelves are compatible with 483mm server racks from most manufacturers. The shelf mounting depth is adjustable from 279mm to 762mm.
