

# CBS FOODTECH

## OUR COMPANY

CBS Foodtech has built its reputation as a supplier of innovative European machinery and food ingredients that are designed and created specifically for the food processing industry.

We supply high-quality machinery, products, and service that exceeds expectations. Our promise is backed by our customer relationships and expertise and maintaining a consistently high level of support throughout the supply chain.

Through our consultation method, we understand the core and in-depth needs of our customers' business, providing unparalleled solutions to food manufacturers of all sizes.

With over 45 years of industry experience, we are the preferred partner for food processing businesses of all sizes in Australia. We offer a wide range of solutions for the meat, poultry, convenience foods, ready meals, fish and cheese industries.

CBS Foodtech looks to remain a staple in the industry. We have revolutionized the machines that we distribute, strengthened relationship with suppliers and gained favourable contracts to offer the highest quality, affordable products for our customers.
