

CAPABILITIES OVERVIEW

Measurement & Automation Solutions

Company Profile

Originally evolving from the industrial weighing sector, Diverseco has built on its expertise and grown to become the leading provider for integrated measurement and automation solutions to a broad range of industries across Australia, New Zealand and Singapore. Our capabilities span from project concept, design and implementation to training, service, and support across robotics automation, intralogistics, dimensioning and barcode scanning, packaging, product inspection, industrial measurement, and vehicle weighing solutions. We're an organisation of Can Do systems integrators and problem solvers with access to the world's leading brands to deliver turnkey and bespoke solutions to our customers.

OUR CULTURE & VALUES

Today, Diverseco is proud to be the 'employer of choice' for close to 150 people who thrive within a culture founded on values that inspire optimistic attitudes, constructive ideas, productive behaviours, and a desire to 'make someone's day.'

Since establishment in 1992, a set of clear and consistent values have been an integral part of the Diverseco's DNA. These values continue to play an important role in differentiating us from our competitors and are instrumental in our continued growth and success. Our Values are:

- { **Safety:** We commit to a zero-harm and positive wellbeing work culture.
- { **Can Do:** We go the extra mile to exceed expectations.
- { **Customer Focussed:** We are committed to customer success.
- { **Trust:** We understand, communicate and act with honesty, integrity and transparency.
- { **Loyal & Caring:** We put our customers, colleagues and company before ourselves.
- { **Excellence:** We have a relentless pursuit of excellence and innovation.

OUR MISSION & VISION

OUR HERITAGE BRANDS

Company Profile

THE DIVERSECO VALUE CHAIN

Our comprehensive value offering ensures that our customers receive the full range of our capabilities, resources, and expertise. These aspects of our value offering are what separate us from our competitors and continue to guarantee that we can deliver the right solution to our valued customers across Australia, New Zealand, and Singapore.

OUR NATIONAL FOOTPRINT

We have 7 branches across mainland Australia, with a footprint in New Zealand, Singapore, and with intent to expand into Malaysia.

INDUSTRIES WE OPERATE IN

Manufacturing

Agriculture

Government & Defence

Energy & Resources

Waste Management & Recycling

Pharmaceutical

Our Expertise & Services

OUR PEOPLE

At the core of our expertise and services are our people. Diverseco consists of a multidisciplinary team of people dedicated to the success of our customers:

- Business & Systems Analysts
- Product Designers
- Project Managers
- Electrical & Mechanical Engineers
- Mechatronics Engineers
- Technicians
- Fabrication & Assembly Teams
- Software Programmers
- Administrative Support Officers

CONCEPT DESIGN

For realising the solution you have in mind, we have a range of concept design resources and services that can begin the process of bringing your solution concept to life. Our dedicated team of engineers and technicians will be there with you along this critical stage of your solution journey.

- AutoCAD (2D) & Inventor (3D)
- K-Virtual & K-Roset
- SOLIDWORKS
- Emulate3d

PROJECT MANAGEMENT

To realise your business and project objectives, our dedicated team of project management professionals employ best practice methodologies that establish, support and promote quality needs analysis, efficient and effective communication and the delivery of projects within time, scope, and budget.

AFTER-SALES SUPPORT SERVICES

Our services extend beyond the installation of solutions. A core part of the value we offer to our customers is in our after-sales support services.

- Local in-person support across Australia.
- Remote support anywhere in Australia, New Zealand, and Singapore.
- Preventative and proactive service agreements.
- Customer training by our Engineers and Technicians for on-going project support for complex projects and autonomy.

Our Capabilities - Measurement Solutions

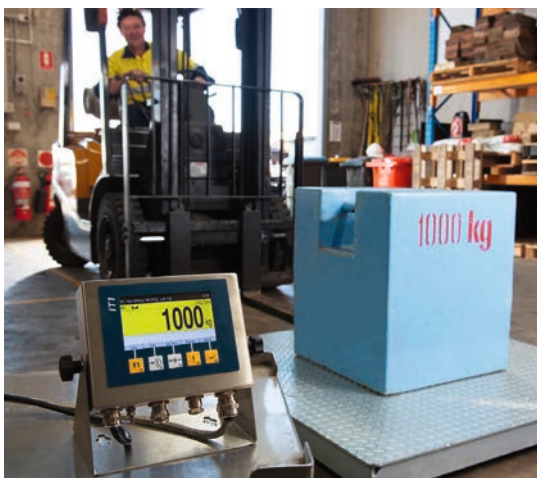

We have a long and rich history within the industrial measurement space, with humble beginnings dating back to 1992 when our heritage brand **Accuweigh** was created, servicing Australian industry through the supply, installation, and service of industrial weighing solutions. Now, having evolved our capabilities to a broad range of industries, the solutions we offer cover customer requirements from Chain of Responsibility and mass management solutions for transport and logistics operations to product contamination prevention and quality control solutions for food manufacturers. We are also, through our heritage brand "Ultrahawke", Australia's oldest and most trusted weighbridge manufacturer.

Weighbridges and axle weighing systems for Chain of Responsibility, mass management, and legal-for-trade operations.

Onboard vehicle weighing systems for Chain of Responsibility, overload monitoring, and legal-for-trade operations.

Industrial scales, batching and process weighing systems for a variety of weighing applications, customised specifically to your unique requirements. Includes legal-for-trade, and inventory, recipe, filling, payload, and quality control.

Metal detection, x-ray inspection, checkweighing, and serialisation systems for contamination detection, product recall prevention, quality and fill control, traceability and aggregation control for food, beverage, and pharmaceutical operations.

Our Capabilities - Automation Solutions

Through our extensive range of world-class brands we've partnered with, our ability to source the ideal automation solution for you is unparalleled. From industrial and collaborative robotics automation to packaging (weighing, dosing, filling, bagging, sealing, and palletising); to the supply of dimensioning systems and fully integrated conveying and sortation solutions - our abilities as systems integrators and automation solutions providers have allowed us to provide turnkey and bespoke solutions to many of Australia's largest companies. We're proudly the Australian exclusive systems integrators for Doosan Robotics, Kawasaki Robotics, Cubiscan, Essegi, and Technipes with a range of additional supplementary brands at our disposal.

Industrial robotics solutions for virtually any automation requirement. From welding automation systems to material handling for underground drilling operations.

Collaborative robotic (cobot) solutions for the automation of repetitive tasks whilst working in collaboration (alongside) human workers. From welding to virtually anything you can think of!

Dimensioning solutions - capturing and utilising accurate SKU master data for your WMS with **Cubiscan** to fully integrated **conveying, sortation, barcode scanning, and dimension-weigh-scan systems** for warehouses and DCs.

Packaging systems (both semi- and fully-automated) for the weighing, dosing, filling, bagging, sealing, and palletising (through our robotics automation integrations) of a wide range of product and package types.
