

FOOD & NUTRITION PORTFOLIO

Connell is a leading marketer and distributor of specialty chemicals and ingredients in Asia-Pacific. We bring outstanding insights and service to the Life and Industrial Science markets, while promoting a broad range of leading global manufacturers, our own formulated products, as well as extensive technical, marketing and supply chain expertise. Through 48 offices in 18 countries across Asia-Pacific and the United States, we combine an intimate market knowledge, and creative approach to provide our business partners with innovative solutions and unlimited opportunities for growth.

We offer the highest calibre technical experience and most extensive network in Asia. Our technical staff offer not only practical expertise, but also international business experience and strong knowledge of local markets and cultures. Acting as a single point of contact for sourcing and supplying products, we provide complete supply chain management from transportation, documentation, warehousing and sales and distribution through our multiple locations.

Our main market in Life Sciences is in Food and Nutrition, Personal and Home Care, Pharmaceuticals and Consumer Products. Our Industrial Solutions services specialty markets for Coatings, Construction, Adhesives and Sealants, Inks, Plastics, Rubber, Lubricants and Enzyme Solutions.

Our Food Applications Facility in Sydney enables us to expand our customer service offering and localised development work. A number of our ingredients are available for Gluten Free, Palm Free, Organic, Vegan and Vegetarian applications.
