the brand for plastic modular belt

# Innovation and Service in Belting

## Innovation

To stay at the forefront of our industry, we have at our disposal the widest selection of belting and associated products of any belting company in Australia.

We stock the highest quality belts from world leaders in their field, and stay ahead of the latest developments in the industry, to offer you innovative solutions to your belting problems.

## Service

We understand the importance of keeping your business running and know how costly and disruptive downtime can be. That's why we offer a service network that is often available around the clock at local level. Our experienced and skilled personnel are on call to service, repair and install our entire range of belting, within your own process environment.

Our range of services also includes the ability to ship most orders directly from the extensive stocks that we maintain. If required, we can even dispatch on the same day and by express service.

Our technical sales representatives have the proficiency to identify and recommend a belt for the most challenging conditions in practically all industries.

Food Grade belts  
comply with  
EC 1935/2004,  
EU 10/2011,  
FDA and USDA
