

Use intelligent Automatic Number Plate Recognition (ANPR) to empower your Rangers whilst automatically gathering Smart City data

**Enforce parking zones,
gather asset utilisation data
and flag vehicles-of-interest
with a single tool.**

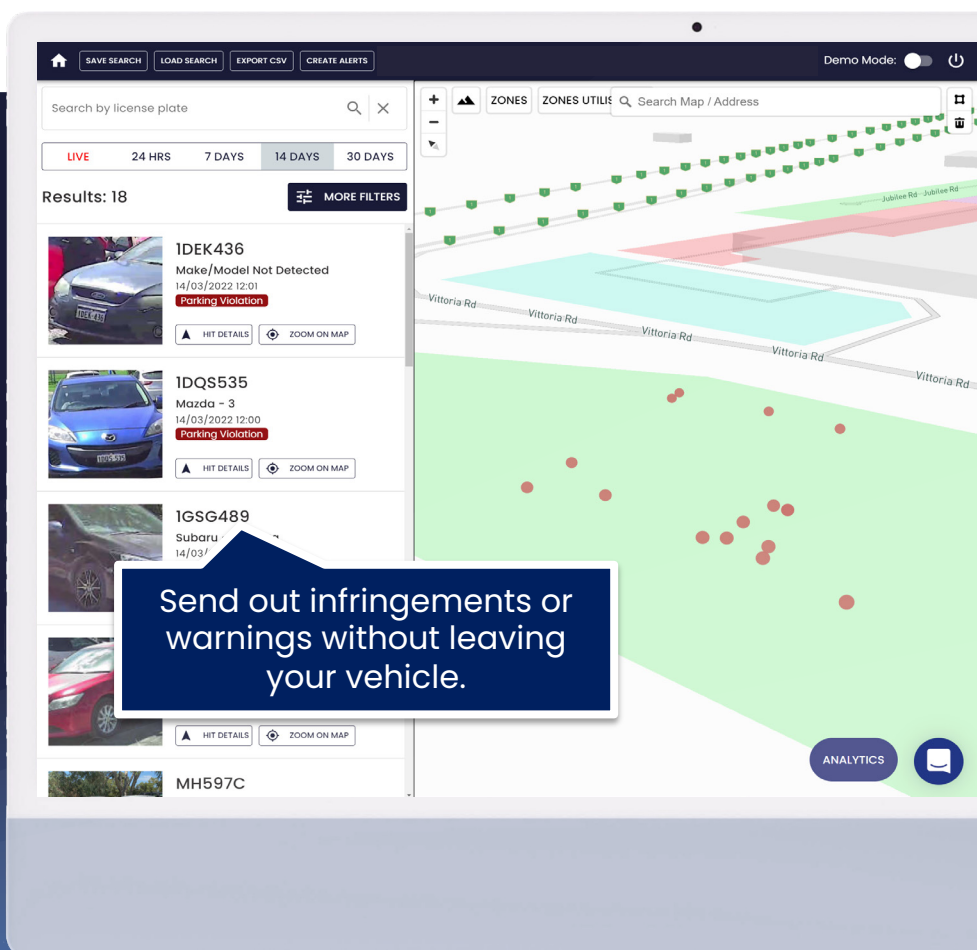

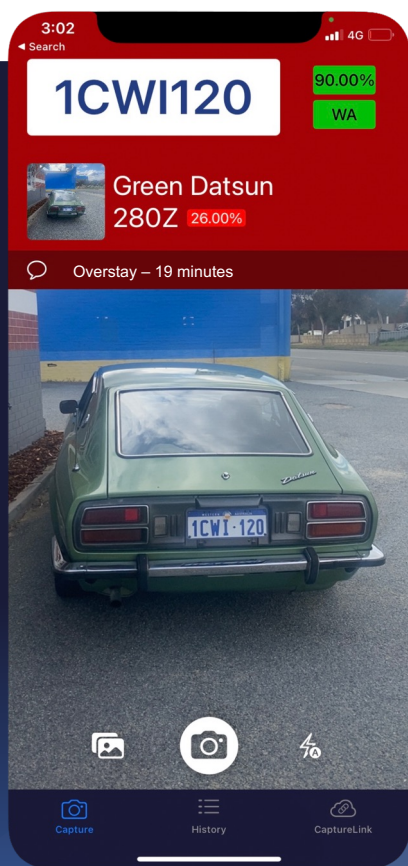

**Australian made.
Highly secure.
Cloud first.**

1. Your drive-by digital chalking solution.

Reduce time spent detecting overstay and free up your team to focus on what's important.

- Create and manage multiple parking locations with our intuitive map-based graphical interface.
- Automatically detect vehicle overstay when driving through parking zones without exiting your vehicle.
- Empower your Rangers with our handheld app to perform digital chalking and generate enforceable photo evidence.
- Receive automatic alerts across your entire team when a vehicle is detected in breach of parking rules.

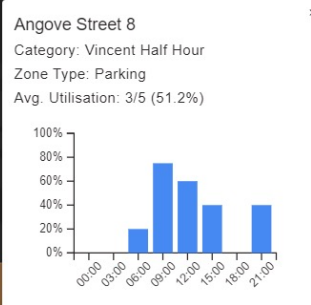

2. Automatic insights into your City's assets, attractions and events.

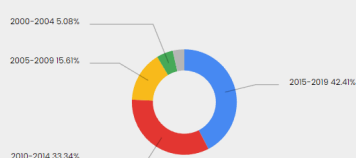

Your team's vehicles automatically gather data on their daily route so you can easily identify when and how your carparks, streets, reserves and other assets are being used.

- Let Aero Ranger do the counting for you, with asset utilisation surveys generated in the background as your Rangers drive around town and perform other duties.
- Automatically cross-reference zone capacity and current usage to see where assets are over or under utilised.
- Get demographic breakdowns on the number and type of vehicles that use your assets to make informed decisions on infrastructure upgrades or State/Commonwealth funding grants.

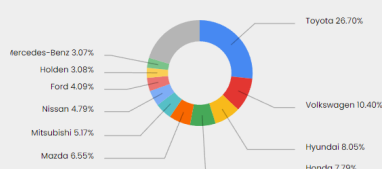

Gather data on your daily rounds.

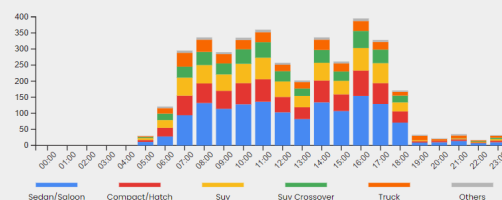

Vehicle Age

Vehicle Makes

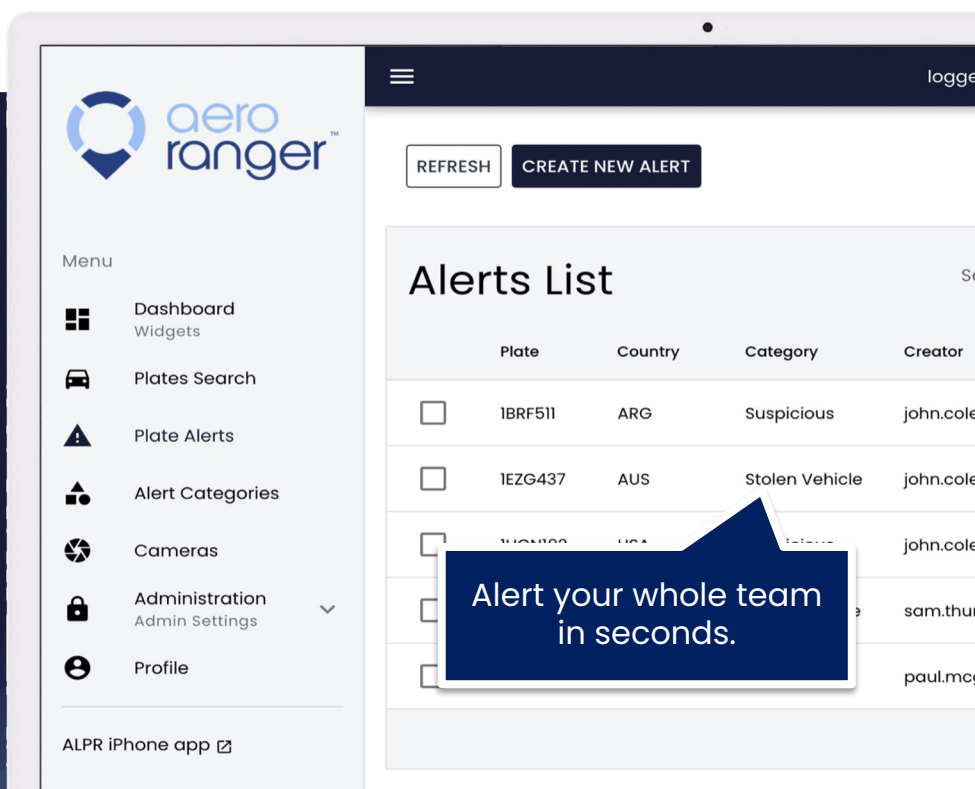

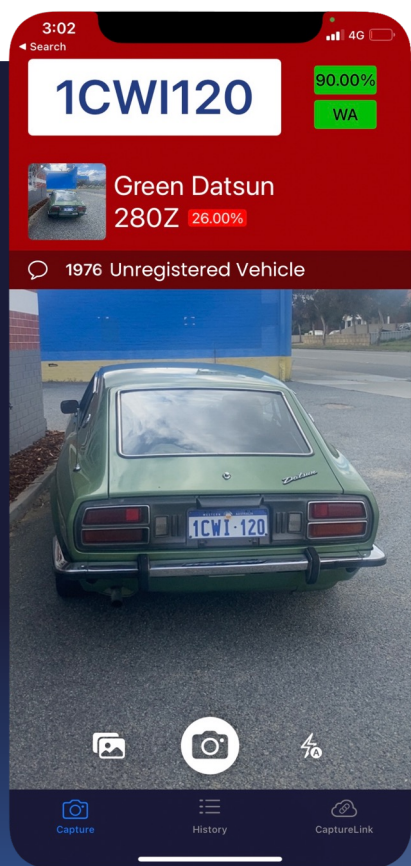

Average Body Types Per Hour

3. Flag vehicles of interest with instant notifications.

Identify repeat offenders, unauthorised camping & illegal dumping and instantly share sightings across your organisations.

- Create unlimited alerts to immediately notify your team in the field and in the office when a vehicle of interest is detected.
- Organise alerts with customisable categories to create your own workflow.
- Quickly create alerts via handheld app, cloud dashboard, API integration or bulk list upload.
- Automated alert management with alert auto-expiry and customisable notification groups.

Empower your team with the latest in parking management technology.

"A quick 5-minute phone call and we were up and running"

Andrew Wright
Registrar of Motor Vehicles,
State Growth Dept. of Tasmania

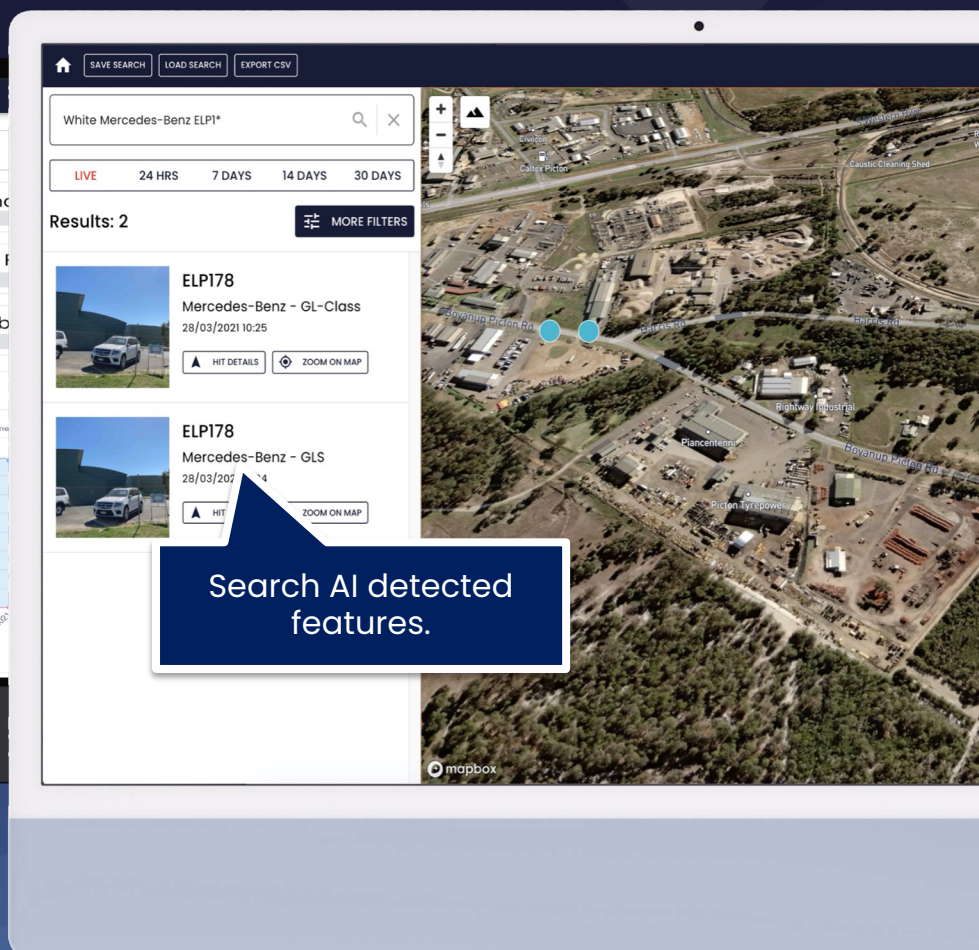

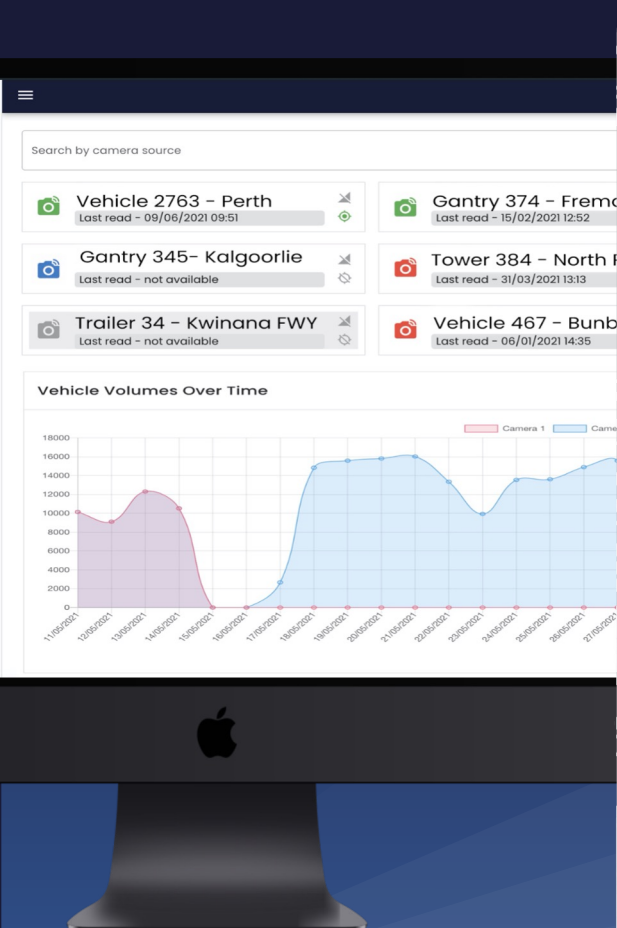

Aero Dashboard

All of your vehicle data in one place.

Features:

- Fully integrated with all Aero Ranger ANPR data sources including vehicle kits, mobile app.
- Integrate 3rd party ANPR sources from multiple device types and sources.
- View, search, and manage all of your ANPR data on a single GIS map dashboard.
- Super fast search and filter by time & date, jurisdiction, hit type, user, geofence and more.
- Create and manage Zones for parking enforcement and asset utilisation reporting.
- Receive alert notifications in real time when a vehicle of interest is detected in the field.
- Mobile responsive (iPhone & iPad) user interface supports modern browsers and devices.
- Easily export ANPR data to 3rd-party data analysis tools.
- Highly secure, scalable and robust cloud software platform deployed within Australia.
- Comprehensive audit logging facility.

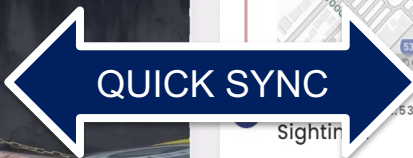

Turn any vehicle into an AI-powered ANPR system.

Features:

- Collects ANPR and vehicle classification data (i.e make/model/colour).
- Uploads vehicle data with high-res image and GPS location in real-time.
- Syncs vehicle, alert and zone data with Aero Ranger Cloud Dashboard.
- Automatically collects vehicle data for analytics and asset utilisation.
- Live monitoring via iPhone or iPad.
- Real-time alerts via app, email and SMS.

Included Hardware:

- Aero Ranger AI Module
- 2x AI Cameras
- Mounting plates for most roof racks and lightbars
- GPS Antenna.
- LTE/WiFi Router with 4G

Parking Time Expired

Location: Wood Street, Inglewood Western Australia 6052, Australia
Zone: Woolworths
Category: Category Example 3
Parking: No Parking!0 Mins

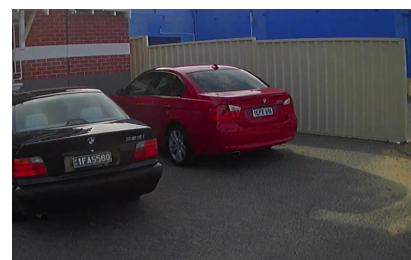

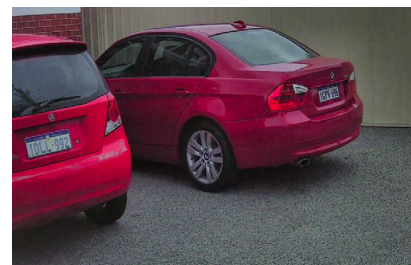

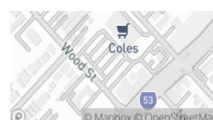

MARCH 3, 2022 03:10:35 PM
Recent Sighting

Overstayed: 7min

Sighting

Solar Powered 4G quick deployment capture system.

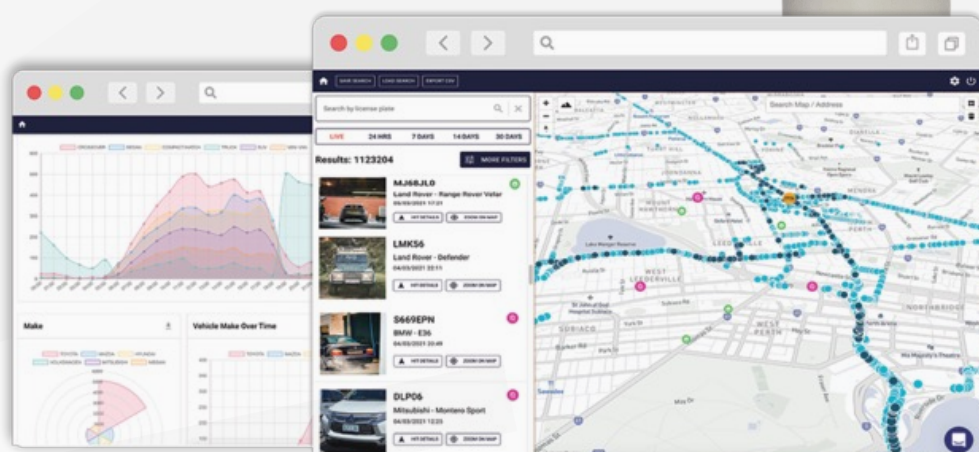

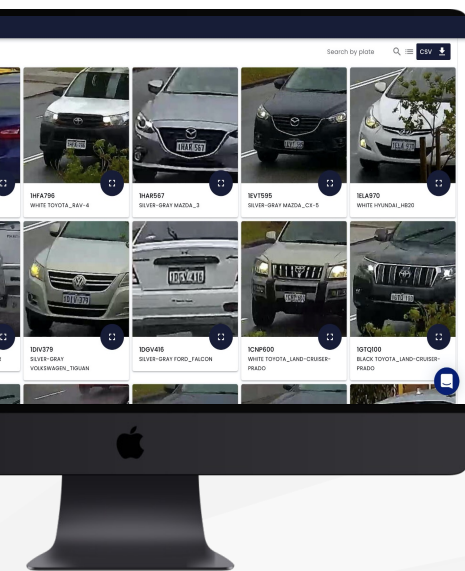

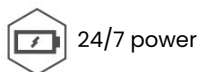

Features:

- NDAA Compliance
- Radar Trigger and Quick Start Capture
- 4G LTE
- Solar Power + 21.2Ah lithium-ion battery
- Low-power Consumption (hibernation mode)
- Designed for a low profile
- IR night illumination
- Integrated GPS

Uses:

- Find vehicles on a watchlist
- Discover illegal dumping perpetrators
- Car and traffic counts
- Parking overstay management
- Permit Management
- Infringement notices
- Emergency response
