

PROCELL®

BY THE DURACELL® COMPANY

PROCELL LITHIUM RANGE

DESIGNED FOR PROFESSIONAL DEVICES

Procell.com

TURN PROFESSIONAL BATTERIES FROM A COST CENTER INTO A COST SAVER

Procell understands how critical it is for professional end-users to drive the profitability of their businesses. When it comes to batteries, this can be achieved through minimizing costly battery replacements.

PROCELL® HIGH POWER LITHIUM

- Procell® High Power Lithium batteries are designed to deliver reliable and safe power in professional devices with high rate discharge under intermittent or continuous drain, such as security equipment. Also available in 2 and 123 size.
- Increased longevity
- Up to 1 month end of life notification
High resistance to extreme temperatures from -4°F to 140°F found in industrial settings

PROCELL® LITHIUM COIN

- Procell® Lithium Coin batteries are designed to deliver reliable and safe power in professional devices. Also available in 2032, 2025 and 2016 sizes.
- Child-secure packaging designed to deter accidental ingestion.
- Child Safe cell - clear bitterant solution applied on the negative terminal in the form of a ring to discourage accidental swallowing.

SUPERIOR QUALITY AND RELIABILITY GUARANTEED

Procell batteries are manufactured using superior cell design ensuring our highest quality cell construction. Batteries are tested in order to guarantee the highest quality and reliable performance. Environmental testing is also conducted to insure dependable and consistent use.

FROM PROFESSIONALS TO PROFESSIONALS

Procell is supported by a global B2B-dedicated multifunctional team, including R&D, marketing and commercial teams.

MFR #	DESCRIPTION	PACK QUANTITY	CASE QUANTITY
PX123	123	12	72
PXCR2	CR2	12	72
PX2016	CR2016	5	40
PX2025	CR2025	5	40
PX2032	CR2032	5	40

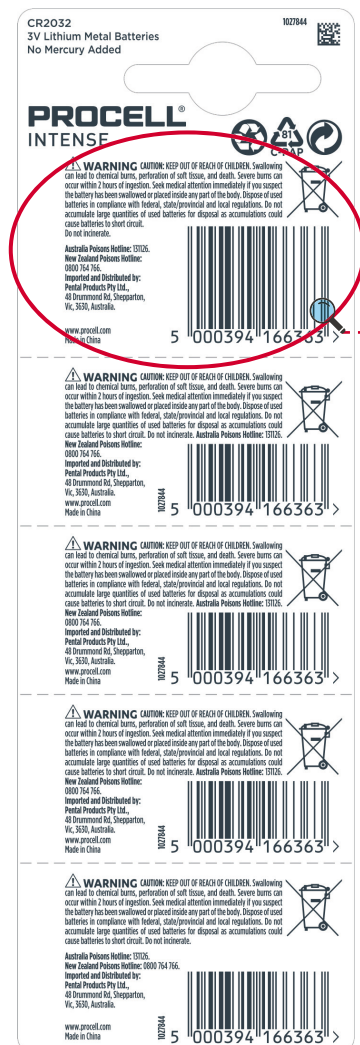

MANDATORY STANDARDS FOR BUTTON/COIN CELL PACKAGING IN AUSTRALIA

Warnings required on packaging of button/coin batteries:

- The packaging of a button/coin battery must be marked with a warning that is clearly visible, prominent and legible.**
- The warning must include the substance of all of the following:**
 - an alert word (such as DANGER, WARNING or CAUTION) with the letters of the alert word in upper case;
 - a combination of an internationally recognised safety alert symbol and an internationally recognised "keep out of reach of children" symbol;
 - a statement to the effect that the battery is hazardous and is to be kept away from children (whether the battery is new or used);
 - if the battery is a lithium button/coin battery --a statement to the effect that the battery can cause severe or fatal injuries in 2 hours or less if it is swallowed or placed inside any part of the body;
 - if the battery is a non-lithium button/coin battery --a statement to the effect that the battery can cause serious injuries if it is swallowed or placed inside any part of the body;
 - advice to the effect that medical attention should be sought immediately if it is suspected the battery has been swallowed or placed inside any part of the body.
- Without limiting where the warning is marked on the packaging, the warning may be marked on the packaging by:**
 - if there is sufficient space, making all the matters specified in subsection (2) on the front of the packaging; or
 - if there is insufficient space, marking the packaging as follows:
 - marking the front with the matters specified in paragraphs (2)(a) to (c);
 - marking the other matters specified in subsection (2) elsewhere on the packaging.

WARNING CAUTION: KEEP OUT OF REACH OF CHILDREN. Swallowing can lead to chemical burns, perforation of soft tissue, and death. Severe burns can occur within 2 hours of ingestion. Seek medical attention immediately if you suspect the battery has been swallowed or placed inside any part of the body. Dispose of used batteries in compliance with federal, state/provincial and local regulations. Do not accumulate large quantities of used batteries for disposal as accumulations could cause batteries to short circuit. Do not incinerate.
