

The background image shows a classroom setting. A large HDi interactive whiteboard is mounted on the wall, displaying the HDi logo and four icons: HDX Note+, Apps, Guide, and AirServer. Two students are visible in the foreground, looking at the board. One student is holding a tablet. The entire image has a blue tint.

HDI vendo Screen

Available sizes: 32", 43", 49"

HDI vendo Kiosk

Available sizes: 49", 65"

WIRELESS SOLUTIONS

AirServer CONNECT 2

The AirServer Connect 2 is the most advanced screen mirroring receiver, allowing you to receive AirPlay, Google Cast and Miracast streams, like an AppleTV or Chromecast device.

AirServer APP

Our HDi edge 2.0 screens benefit from AirServer's world-class wireless presentation technology. This means no external application is required on the user's device.

ABOUT US

Operating since 1987, Technology Core have been at the leading-edge of design, manufacture, and distribution of Australian interactive presentation solutions. Our products and solutions have been adopted by thousands of organisations across the nation and we are a preferred supplier with a number of Australian Government contracts.

100% Australian owned and operated, we offer all services including installation, training, and support for all our products.

Training and Support

We have developed **training sessions** that show you **how to get the best from our products** using software and hardware you already use. This means whatever platform you use including Microsoft, Apple and Google, or even bespoke applications, you will learn **how to adopt HDi into your workflows**.

Training sessions are offered in person or via video conference to share the best practical tips and exciting new methods to get the most out of the technology.

#Learning
with HDi
