PRIME SOJA

Dragon Enterprise Inc.

ABOUT US

Dragon King Foods is the largest soybean milk powder products manufacturing enterprises in China, with original fixed assets of more than 100 million, 100,000 acres of Non-GMO soybean planting base, world-class testing equipments and advanced laboratory center. Permitted by China Green Food Development Center, we can use trademark of “Green Food” and “Certified Organic COFCC”. We are also certified by BCS OKO-GARANTIE GMBH, USDA to use trademark of “Organic Food” in both Europe and the US. Using 31 processes to extract protein from soybean effectively, we ensure the safety and healthy from the seed to dining-table and share with the world. And our products do not contain any chemicals, additives, preservatives, or artificial colors.

ORGANIC CULTIVATION BASE

The Dragon King Foods planting base owns one of the three most rare soil areas in the world, which named "Frigid Black Soil". The other two are located in Ukraine and USA Mississippi River basin. The organic matter content in this kind of soil is about ten times of the others. And this "Frigid Black Soil" is the best and the most suitable fertile soil for farming land.

- 100 thousand acres of organic soybean production base in the **world only frigid black soil**.
- 100% Manual Sieving.
- Full set of test and inspection equipments.
- Non-GMO soybean. Organic cultivation.

FUNCTIONALITY

- Highly soluble protein
- Original flavor
- Replacement for dairy milk products

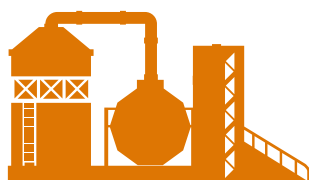

FEATURES & BENEFITS

- Made from whole soybeans (as opposed to highly processed soy isolates or concentrates)
- Smooth mouth feel
- Dairy, lactose and gluten-free
- Allows for Natural and Organic Claims
- Our spray-dried products are available in poly-lined multi-walled kraft bags and provide the benefit of shelf life of 12 months

Equipment

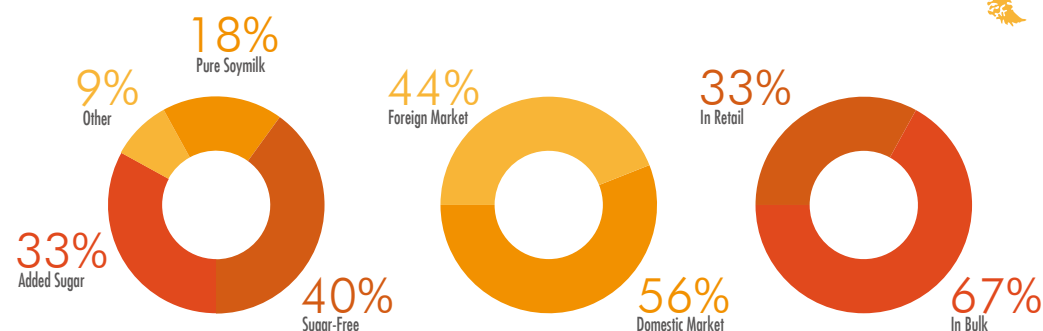

We have world-class equipments of famous brands like Niro in Denmark, ALFI in Sweden, and the biggest built-on-site process tower in China.

ALFI (Sweden)

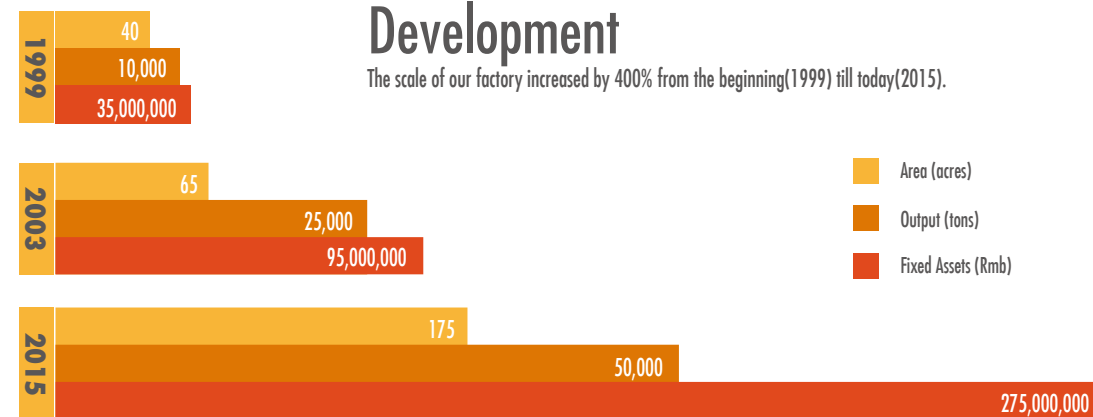

Niro (Denmark)

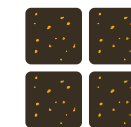

Development

The scale of our factory increased by 400% from the beginning(1999) till today(2015).

100,000 Acres Frigid Black Soil.

100,000 acres of organic soybean production base in the world only frigid black soil.

The Dragon King food planting base is one of the world's three Rare District named "Frigid black soil", the other two located in Ukraine and USA Mississippi River basin. Organic matter content in this kind of Soil is about ten times of the others. The "Frigid black soil" can be the highest and the most suitable fertility Soil for farming land.

3 Factories

As of 2015, we have 3 factories

Built in 1999

Built in 2003

Built in 2015

253 Employees

Existing staff 253 people

50,000 Tons

An annual output of 50,000 tons

Built in 1999

4 Characteristic

2023
Achieve Annual Turnover of 20 Billion
Establish the Sinology School of Dragon Inc.

2018
Achieve Annual Turnover of 10 Billion

2016
Start Listing Plan
Build Chinese Soybean Cultural Corridor

2015
Create a New Chain Store-Dou Er Wen

2014
Upgrade China Operation Center

2012
Achieve Chinese Famous Brand
Start Cooperation With Meng Niu Dairy

2011
Start Supplying to KFC (Parkson)

2010
State Inspection Exemption Product

2005
Provincial Enterprise of Agriculture

2002
Export to East Asia

1998
Dragon Enterprise Founded

166B.C.
Soy milk was invented

Roadmap

PRODUCTS

Dragon King is recognized all over China as the company to rely on for excellent tasting powdered soymilk products. Our products and services range from ingredient formulation and processing to private labeled soy beverages with nationwide distribution. Food manufacturers and retailers depend on our 15+ years of soymilk processing expertise to help them deliver new products to market in the shortest possible time period.

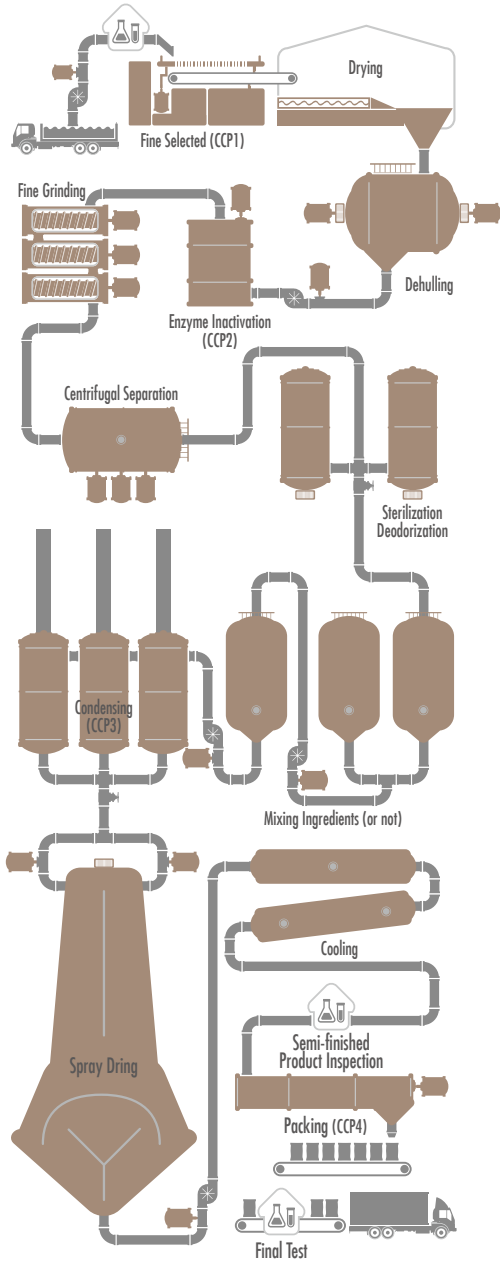

Our fully integrated processing facilities control the entire production in-house, from seed selection to processing and

packaging to your specific requirements. The results are soy products with the highest level of consistency, quality and exceptional taste.

Dragon King’s powdered soymilk products are produced from whole soybeans that are selected for their superior food quality characteristics and pleasing flavor. These premium soybeans are then processed using proprietary techniques designed to maintain the full nutritional health benefits natural to the soybean.

Enzyme and anti-nutritional factors are inactivated, while protein, lecithin and polyunsaturated fats of the soybean are retained. These soymilk ingredients are the perfect base for beverages, cultured soy products, frozen desserts and dairy-analog foods. All products are Non-GMO, Certified Organic and Halal.

PRODUCTION PROCESS

PRODUCT SERIES

Prime Soja Gold & Prime Soja Gold Sweet

Most easily used instant soya milk /Great for retail market

Code: C01Y & C02Y
Protein: 18%
Ingredient: Soybean, Maltose Syrup, Cane Sugar(only for C02Y)
Certificates: BCS Organic. Non-GMO. Halal. FSMC. USDA. QMSC.

Application:

RetailInstant BeverageNon-Dairy Creamer

Premium Soy Milk

Most easily used instant soya milk / Great for retail market / High Protein

Code: C20
Protein: 20%
Ingredient: Soybean, Maltose Syrup
Certificates: BCS Organic. Non-GMO. Halal. FSMC. USDA. QMSC.

Application:

Flavored PowderInstant BeveragePudding

Nutrition Soy Milk

Mostly used as a material in industry production line / Extremely High Protein / Nutrition Food / Little Sugar

Code: C40
Protein: 38%
Ingredient: 97% Soybean, only 3% Maltose syrup
Certificates: BCS Organic. Non-GMO. Halal. FSMC. USDA. QMSC.

Application:

Liquid Beverage ProductionNutrition FoodProtein Supplements

Prime Soja Black & Prime Soja Black Sweet

Most easily used instant soya milk /Great for retail market

Code: D01 & D02
Protein: 18%
Ingredient: Black Bean, Maltose Syrup, Cane Sugar(only for D02)
Certificates: BCS Organic. Non-GMO. Halal. FSMC. USDA. QMSC.

Application:

RetailInstant BeverageMan Power Supplements

High Protein Soy Milk

Good for both retail and industry use / Very High Protein.

Code: C30
Protein: 30%
Ingredient: Soybean, Maltose Syrup
Certificates: BCS Organic. Non-GMO. Halal. FSMC. USDA. QMSC.

Application:

Ice creamYogurtSauce

Pure Soja

Mostly used as a material in industry production line, to produce other products / Total Original High Protein / Nutrition Food / No Sugar

Code: C42
Protein: 40%
Ingredient: 100% Soybean
Certificates: BCS Organic. Non-GMO. Halal. FSMC. USDA. QMSC.

Application:

Liquid Beverage ProductionNutrition FoodProtein Supplements
