**The Smart
Oil Solution**

Introduction

Who

- Australia's leading bulk cooking oil supplier.
- Focused on bringing efficiency and sustainability to the foodservice industry.

What

- Supply high quality cooking oils, delivered fresh within 14 days of refinement.
- Provide an end-to-end solution for oil management.
- Help businesses enhance productivity whilst saving time & money.

Why

- Reduce the manual labour and OH&S risks associated with handling oil, through Industry best practices.
- Eliminate tins, single-use plastics & used oil that would typically end up in landfill.

How

- From supply and delivery to collection and recycling oil, you have one direct point of contact.
- Help streamline the entire process of oil management.
- Offer convenience, consistency and reliable service with minimal disruption to your venue.

Clients

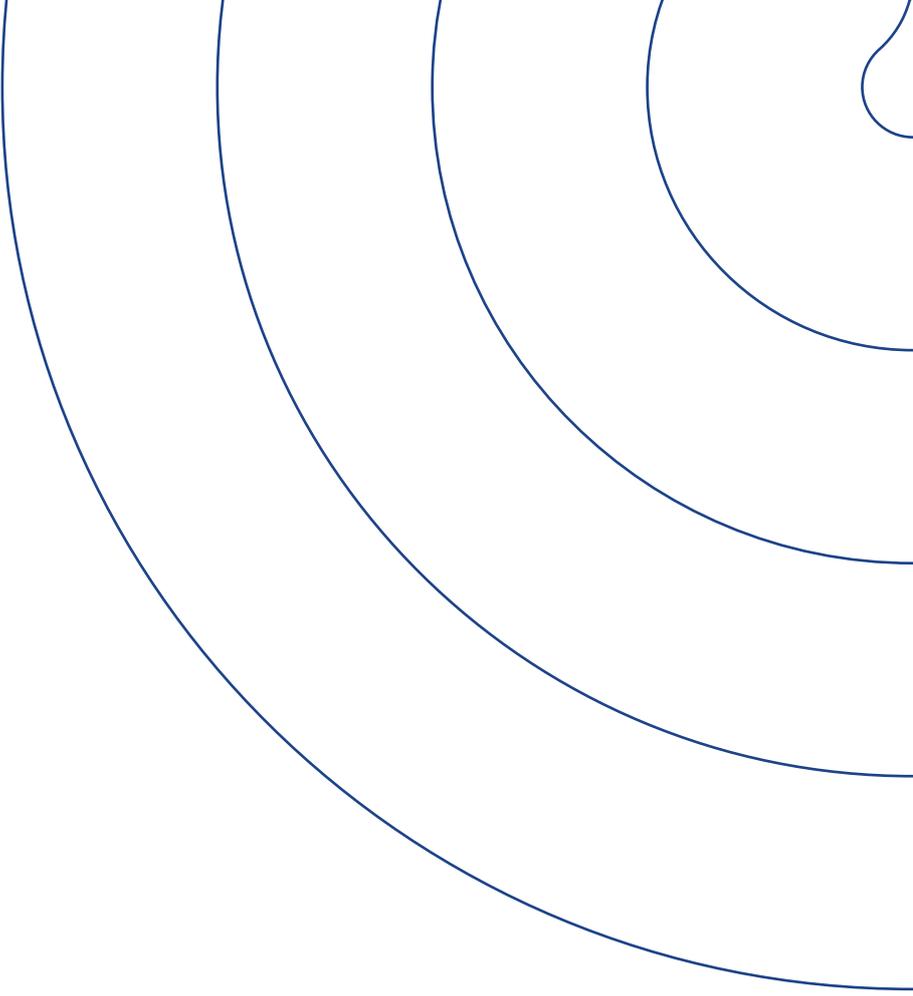

- We serve hospitality, foodservice, licensed & entertainment venues, institutions, bakeries and food manufacturers.

Trust

- 22+ years of foodservice experience.
- Growing national footprint.
- 11 depots across Australia.
- No sub-contracting.
- Consistent supply & service nationally.

About Us

Our Commitment

As an Australian-owned and operated business, we are value driven and offer high-quality products and services to our customers. Our complete oil management system takes care of the supply and delivery of fresh cooking oil and the removal and recycling of used cooking oil.

With a range of different cooking oils to choose from, we strive to meet the tailored needs of Australian foodservice businesses.

Company Overview

Established in Victoria in 2000, Cookers has continued to grow, operating out of 11 sites across Australia. With a national footprint servicing metropolitan and regional areas, we're the preferred cooking oil supplier for foodservice.

Our People

We strongly believe that our people are the cornerstone of our business. As a team built on a strong can-do attitude, we ensure to deliver smart and tailored cooking oil solutions for all our clients.

We'll be with you every step of the way!

Oils built for purpose

Cookers oils are crafted for superior quality and long-lasting improved taste. Working with local processors, we ensure that our bulk cooking oils are no more than 2 weeks old at the time of delivery.

From XLFYRY & ULTAFYRY (our proprietary oil blends) to Canola and Olive Oil, our specially crafted oils have wide-ranging textures, flavours and smoke points to suit different culinary applications like deep frying, shallow frying, baking or creating dips & sauces.

Tailored equipment for your business needs

We provide a range of industrial food grade equipment designed to enhance efficiency and convenience in busy service kitchens.

Made from food grade stainless steel and manufactured in Australia, our units are available in various sizes to suit your kitchen space constraints. Coupled with our complete oil management system, ease the burden that comes with traditional ways of oil supply & disposal.

Service and Supply

Pay only for your Fresh Cooking Oil

Free Loan Equipment - no added distribution costs to consider.

The Freshest Australian Cooking Oils

Bulk oils delivered fresh within 14 days of refinement.

Scheduled Delivery and Collections

Service occurs on a scheduled basis for your convenience.

National Service Provider with 22 Years of Experience

Growing national footprint with consistency across product and service.

Best Oil Management Practices

With our innovative solutions, we help reduce your overall costs, manage and extend the life of your oil.

Act Sustainably with a Sustainable Business

Reduce packaging, single-use plastics and residual oil left in packaged products from the supply chain.

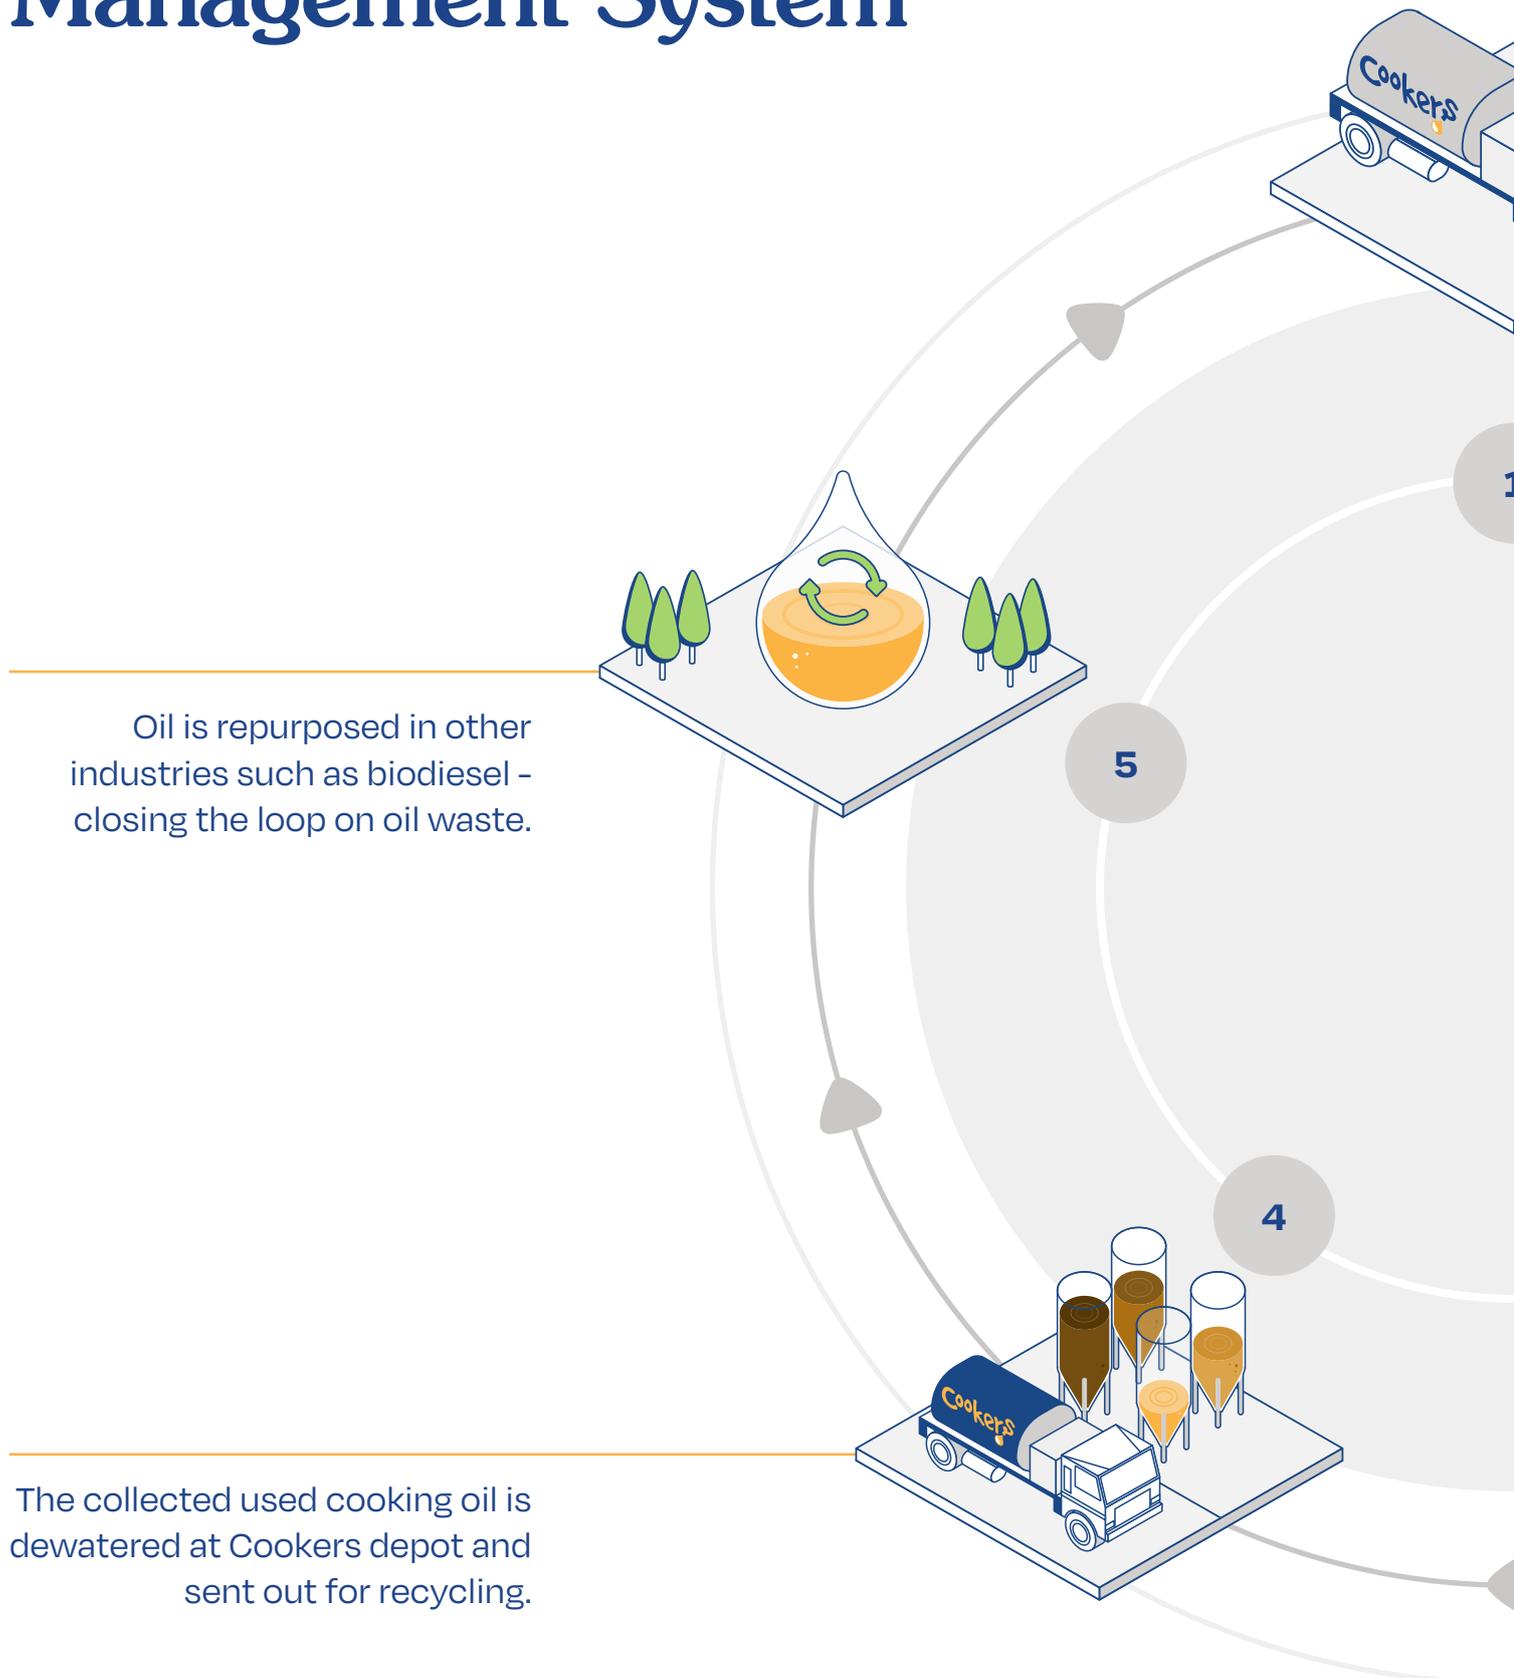

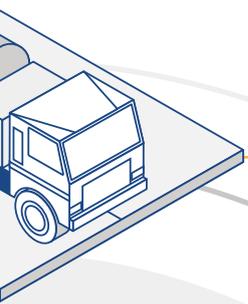

Quality Equipment providing OH&S Benefits

We provide food grade stainless steel equipment free of charge.

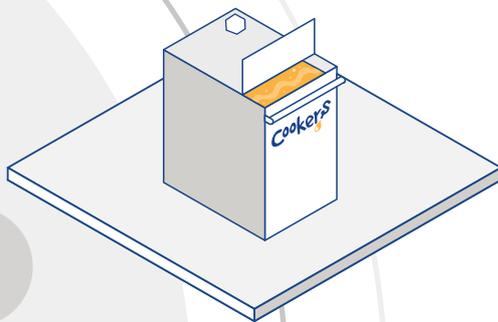

Cookers Complete Oil Management System

Fresh cooking oil is delivered to your venue by our dedicated fleet of silver trucks.

Bulk cooking oil is stored in our free loan, custom-built, stainless steel storage units.

A used oil collection service occurs on a scheduled basis by our dedicated fleet of blue trucks.

Certifications

Cookers are one of the first cooking oil suppliers in Australia to be ISCC Certified (International Sustainability & Carbon Certification) for Used Cooking Oil collection and processing. We ensure our greenhouse gas emissions are an acceptable value with rigorous and routine monitoring.

Among our many reputable certifications is SQF (Safe Quality Food), the highest global level of recognition for food safety & quality standards. All our sites are BSI HACCP & GMP certified.

As a business, achieving the highest standards of quality is vital to us—be it in our products, services

Sustainability

Sustainability is at the forefront of everything we do. From our products and services to our national operations, as a business we strive to work towards a more sustainable future.

Daily Business Operations

- Water Recycling - All Cookers sites harvest and reuse rainwater to clean trucks externally every day.
- Wind Turbine – A 15kw wind turbine located at our head office supplies 30% of the site's power needs.
- Paperless deliveries – We've incorporated digitised paperwork for scheduling oil deliveries along with sign-on glass technology.
- LED lighting – All our factories use LED lighting to reduce electricity usage and reduce our GHG emissions.
- Fleet Optimisation – We frequently run fleet optimisation practices to reduce our trucks' fuel consumption.

Cookers Complete Oil Management System

- Eliminates packaging, single-use plastics & residual oil waste created by packaged products.
- Collected Used Cooking Oil is refined and repurposed in other industries such as biodiesel.
- Through oil traceability & batch analysis, we track every drop of cooking oil supplied and used - to ensure that no oil gets disposed into drains, waterways and landfill.
- Helps reduce our supply chain environmental impact by measuring and analysing the overall oil consumption for GHG emissions.
