

It all begins here.

CHERRY CREEK  
ESTATE

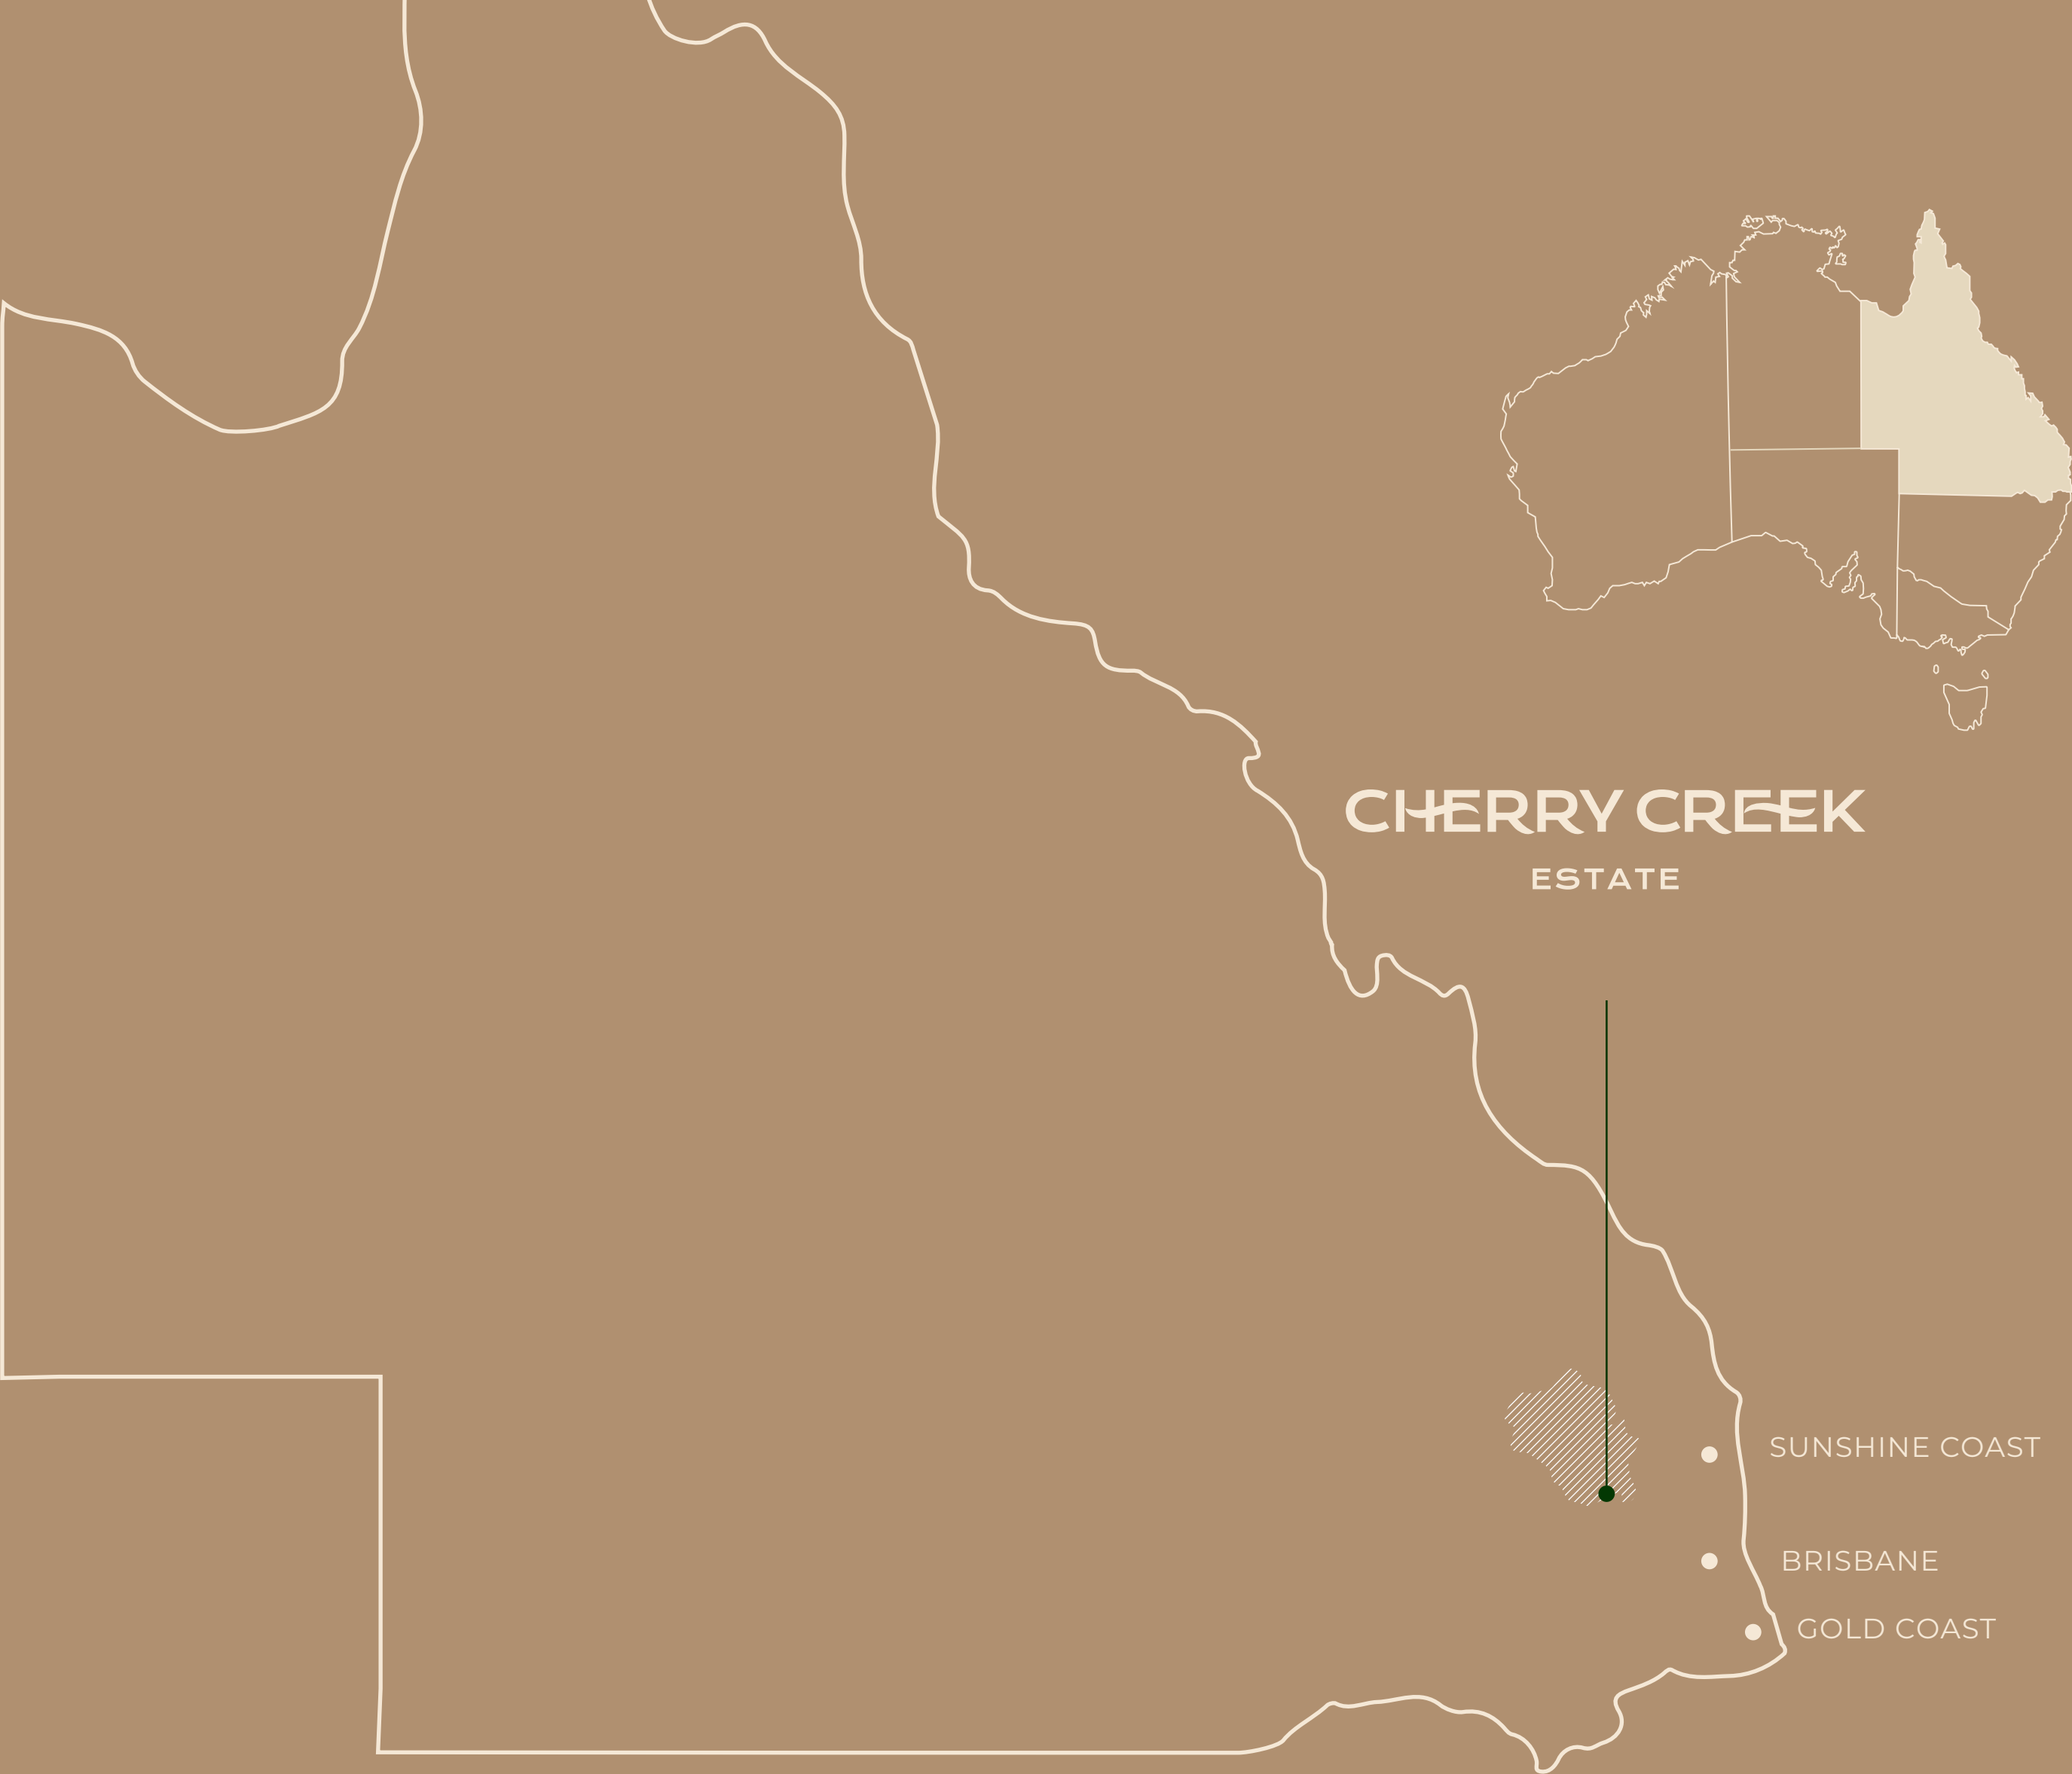

OUR STORY

Proudly grown  
in Cherry Creek,  
Queensland, Australia.

OUR RESPECT

We are grateful to live,  
grow and harvest on  
the sacred lands of the  
Wakka Wakka people,  
the original inhabitants of  
the South Burnett Region.

OUR STORY

# 100% Australian Avocado Oil

CHERRY CREEK  
ESTATE

OUR STORY

# New beginnings

Our story begins over a decade ago, with a group of mates who served our country. Seeking new purpose and adventure, we leveraged our combined resources and network of friends and family to create Cherry Creek Estate.

## OUR STORY

# Military men for many years, we dedicated our lives to the country we love.

We have 40+ years of combined military service between us, and although we no longer don our service uniform, we will always hold the core values ingrained in us as Australian soldiers. The spirit of mateship compels us to always help and support our teammates through adversity, and we're doing exactly that here at Cherry Creek Estate.

We're helping other veterans find new purpose and once again give back to the country they were proud to serve.

## VISION

# Creating the farm of the future, today.

The sun-drenched landscape of Southeast Queensland's Scenic Rim offers a unique opportunity to achieve carbon neutrality, and we're making the most of it. We're minimizing fossil fuel consumption by transitioning to electric tractors, trucks, and farm-hand mobility vehicles. Our electric fleet will be energized by several well-positioned renewable energy sources. Our process plant has world-leading technology including generating our own bio-fuel to power our processing plant. This revolutionary method will mean our oil is produced almost off grid. After 4 years of planning, we believe this to be the first generation of commercial process plant capable of delivering the farm of the future, one that generates more than it consumes truly proving sustainable farming practices are here.

Growing to become carbon neutral.

## VISION

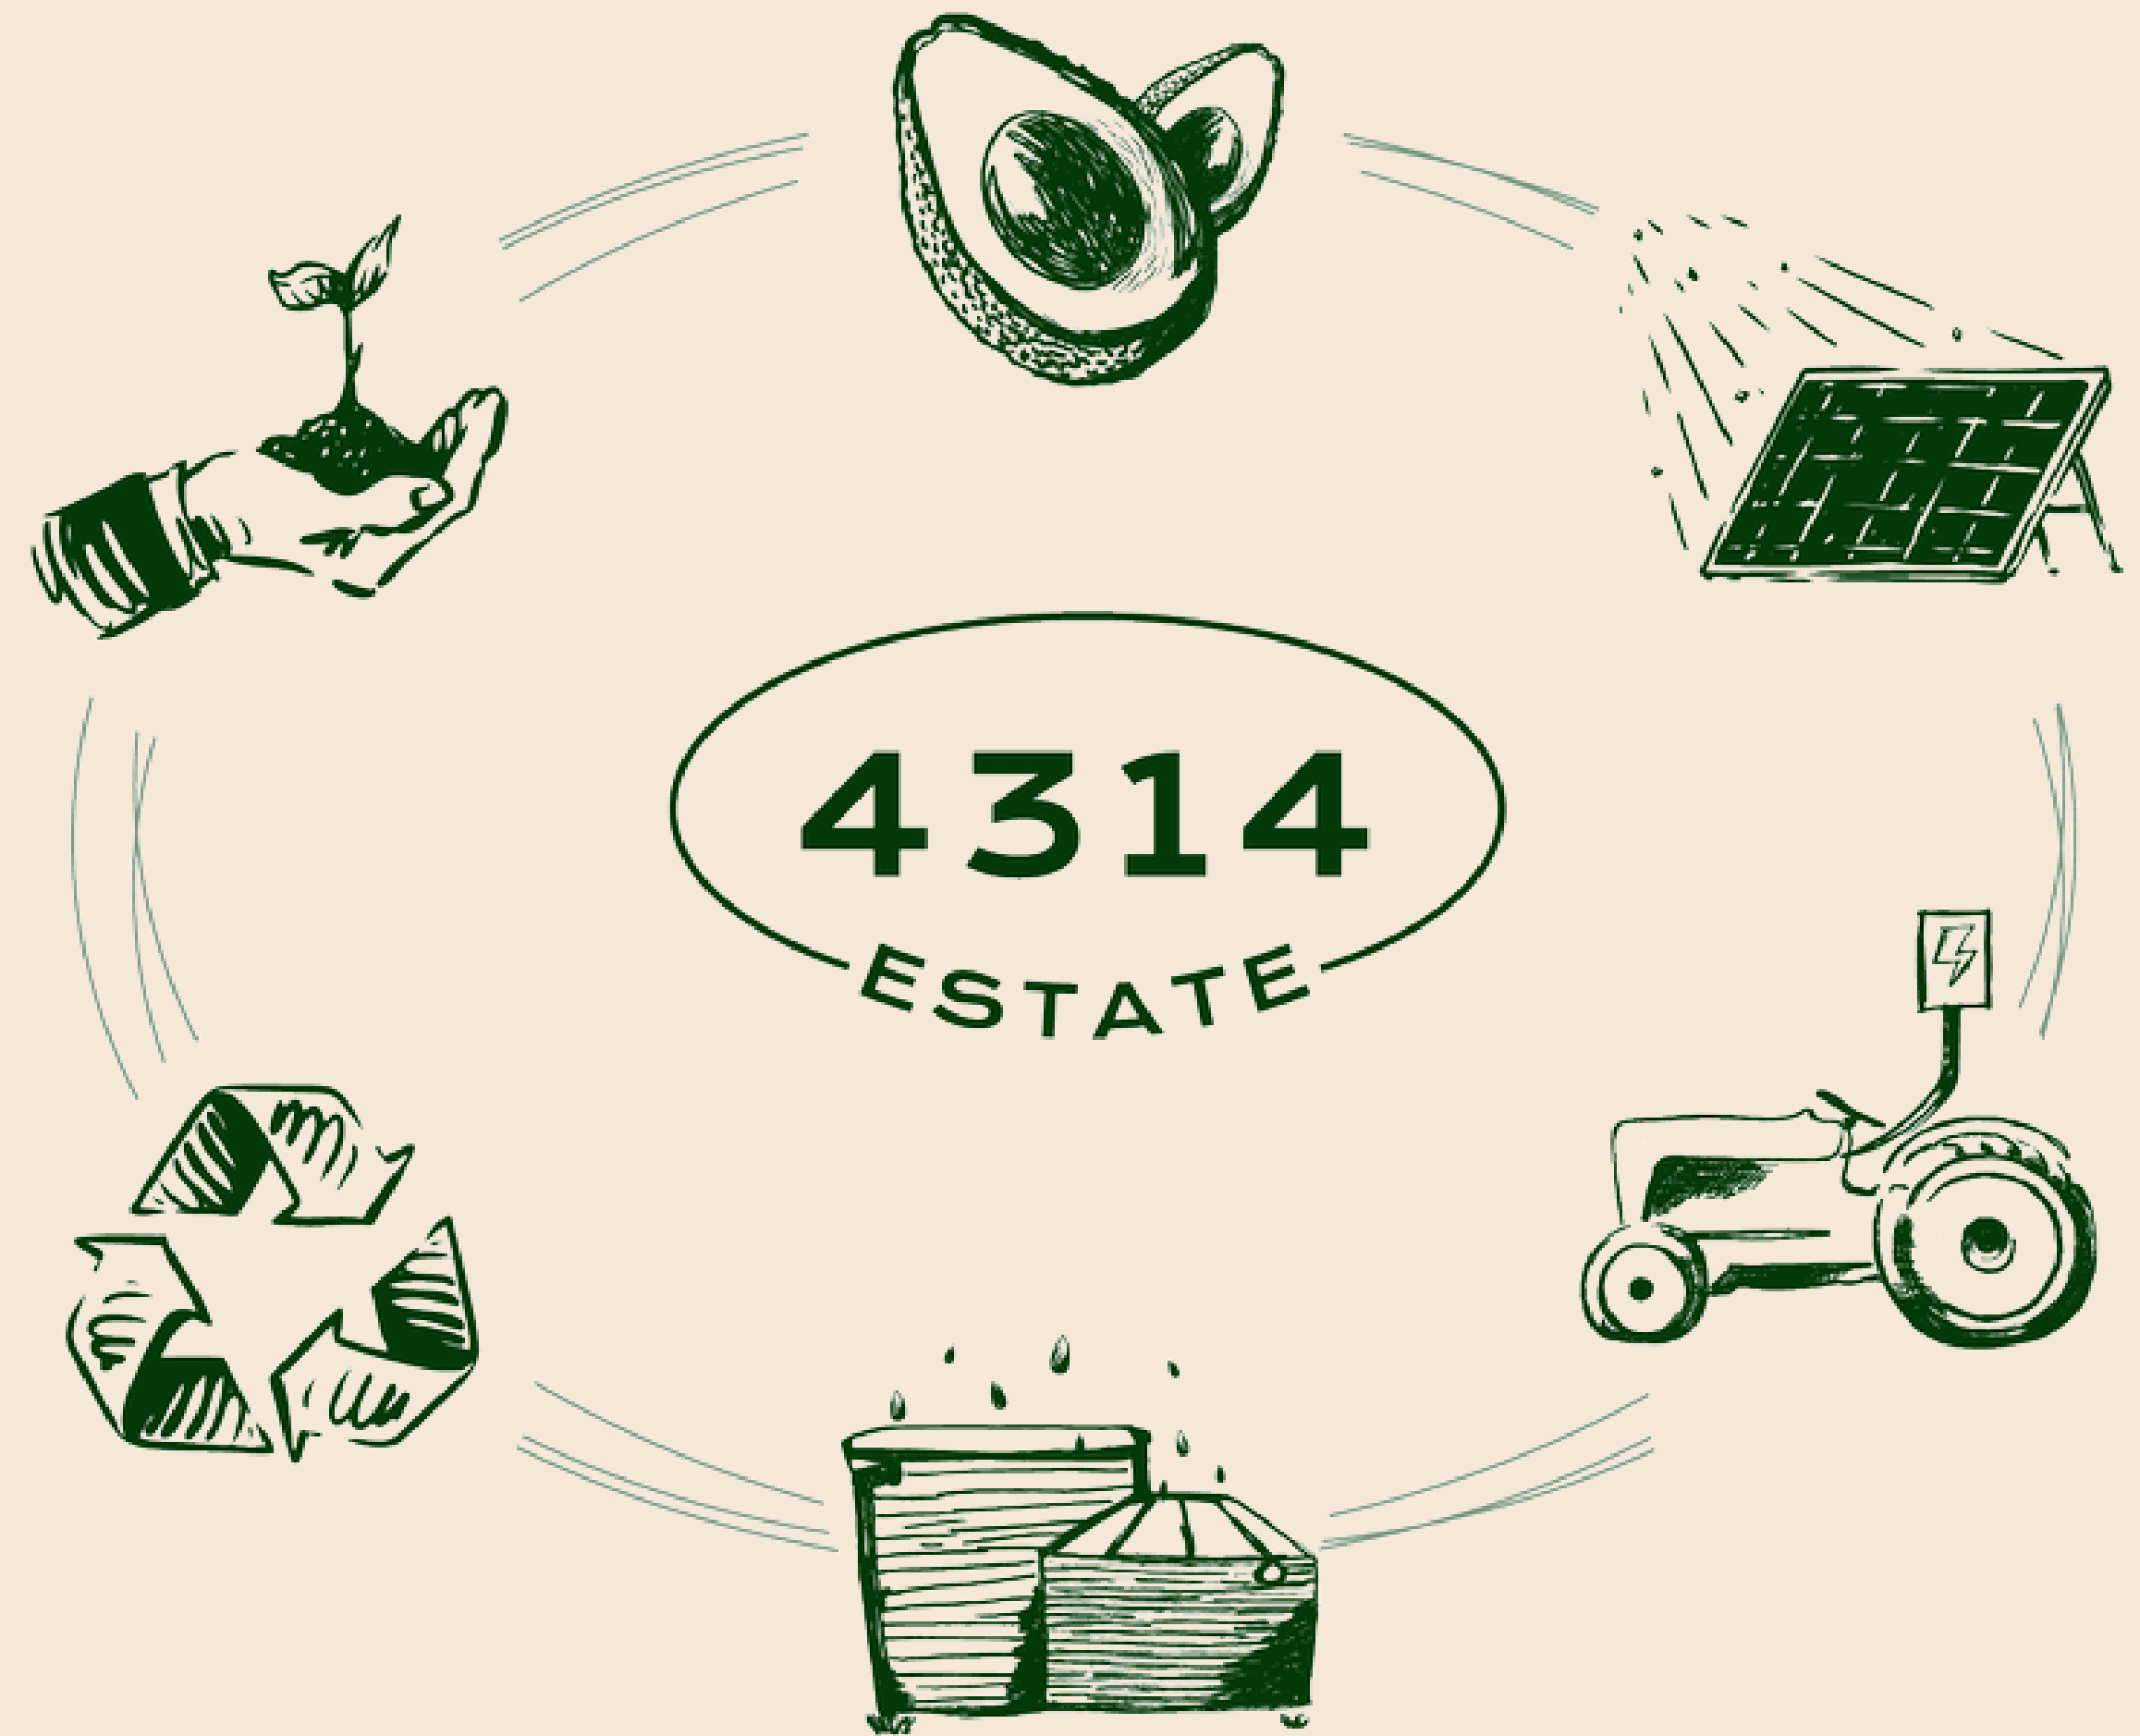

### Harnessing the sun.

The sun-drenched landscape of Southeast Queensland's Scenic Rim offers a unique opportunity to achieve carbon neutrality, and we're making the most of it. We're minimising fossil fuel consumption by transitioning to electric tractors, trucks and farm-hand mobility vehicles. Our electric fleet will be energised by the 100+ megawatt solar systems that we have begun building throughout our farms.

Growing to become carbon neutral.

### Zero waste begins now.

Moving towards zero waste is a step towards building our sustainable future. We believe every resource that comes from our farmland can return to the soil to enrich it. Branches pruned from our orchards are chipped and returned as mulch, and cow manure is part of our composting program. Our cold-pressed avocado oil production leaves behind protein rich pulp which we use to supplement cattle feed, and wastewater that can be utilised in our paddock refurbishment program.

## OUR PRODUCT

Cherry Creek Estate Avocado Oil is made from 100% pure Australian avocados.

Our avocados are cold pressed to produce an Extra Virgin Oil with a delicious, slight buttery taste, making it perfect for using in marinades and drizzling over salads.

The oils' high smoke point means it is better suited for cooking food at higher temperatures. We suggest using Cherry Creek Estate Avocado Oil for pan-frying, roasting, barbecuing and baking.

USPS

- 100% Australian avocados
- Supporting Australian Veterans
- Sustainably farmed
- Vegan
- Ethical
- Cold Pressed and Extra Virgin
- Delicious
- Nutritious
- High Smoke Point
