WILD
FOODS

GET WILD.

ZIGGYSWILDFOODS.COM.AU

Ziggy's Wildfoods hand-sources as many of its star ingredients as possible from the wild.

We share the ever-changing and uniquely Australian edible stories from nature, as they are whispered to us throughout the year.

The plants, seaweeds, flowers, fungi, fruits and leaves with which we draw inspiration are often only available for a fraction of time in the year - if at all.

By respectfully wild foraging and fermenting what we can, we aim to thoughtfully and deliciously make the most of the abundance.

Nature is truly our pantry.
