Refreshingly minty with the subtle warmth of mastic

Perfect to freshen your breathe

It can also be consumed while fasting

ABOUT US

Founded by Dr. Sharif Sharifi in 2015, Australian Food and Pharmaceutical Industries manufactures innovative foods on the South Coast of NSW, Australia.

AFPI combines scientific knowledge with thousands of years of experience to pioneer a unique range of mastic products and health foods.

AFPI is globally recognised for Mast Chew, a natural plant-based and digestible chewing gum. Mast Chew is made from 100% natural ingredients which combines a minty fresh flavour with the unique warmth of mastic for a naturally familiar taste. Using an ancient Mastic gum as its base, Mast Chew offers antimicrobial benefits while containing no synthetics, latex, sugars, colours, artificial sweeteners or additives.
