

CHESTERTON[®]

Global Solutions, Local Service.

IMPROVING RELIABILITY AND
EFFICIENCY WORLDWIDE

"We are a trusted partner meeting the unique needs of each customer and helping them make the world a cleaner place."

- *Andrew Chesterton,*
President & CEO

PROVIDING VALUE TO INDUSTRY SINCE 1884

Who We Are

Chesterton® is a world leader in helping process industry companies and manufacturers improve the reliability and efficiency of their process platforms. We are known across a wide range of industries for our award-winning pump and valve sealing solutions, applications expertise, equipment maintenance and wear-prevention products, and knowledgeable, hands-on local service.

For over 130 years, we have spearheaded industry advances as part of our commitment to help make our customers more profitable, more productive, and more environmentally responsive.

Our extensive experience and knowledge across the energy and process industries makes us the go-to company for solving the most difficult sealing and equipment reliability challenges.

Our Vision

To be at the top of our customers' minds for innovation and excellence.

WE KEEP CUSTOMERS FOR LIFE

Global Sales and Distribution

Chesterton has over 450 sales and service locations in 113 countries. Our 1,200 factory-trained local specialists and technicians are based around the globe and work closely with customers in the field to help solve specific sealing and equipment reliability challenges.

Our large, established sales and service network includes more than 250 authorized distributors. These distributors have extensive experience in the industries we serve and provide exceptional local service and applications consulting.

INNOVATION IS THE FOUNDATION OF OUR CONTINUED SUCCESS

Our strong record of ongoing innovation comes from a robust internal process that clearly identifies challenging areas where customers need inventive solutions. Some of our latest innovations include:

Chesterton Split Seal Technology

We introduced the first commercially viable split seal technology, which forever simplified mechanical seal installation. The 442C™ Cartridge Split Mechanical Seal expands on this ground-breaking design.

DualPac™
Technology

Packing Innovation to Extend Reliability

Our DualPac™ patented braiding technology combines two superior fibers into one packing. DualPac™ 2211 achieves drastically extended packing life in severe slurry applications.

ARC
INDUSTRIAL COATINGS

Advanced Coatings for the Most Extreme Conditions

Ground-breaking industrial coating formulations such as ARC HT-S are designed to protect valuable equipment and structures from corrosion and high-temperature exposures.

OPERATIONAL EXCELLENCE IN EVERYTHING WE DO

Our state-of-the-art manufacturing equipment along with our global continuous-improvement process enables us to drive productivity, efficiency, and quality throughout our global facilities.

By using lean tools and lean methodology, our world-class manufacturing facilities deliver the highest quality products with the fastest delivery to our customers.

We strive for excellence in everything we do. We want our manufacturing facilities to be the absolute best that they can possibly be to deliver high quality products, services, and processes. Our unrelenting focus on operational excellence will drive the future of Chesterton.

SEALING TECHNOLOGY AND SOLUTIONS

We are sealing specialists, backed by decades of collective experience across many industries. Customers choose Chesterton for innovative sealing solutions along with proven expertise to help achieve maximum equipment reliability and return on investment.

Mechanical Seals

Our innovative mechanical seals for pumps, agitators, mixers, and other rotating equipment simplify installation, improve reliability, and extend the performance of fluid handling. Companies around the world turn to Chesterton for extensive mechanical sealing expertise—in design, selection, installation, field service, and more.

Packing and Gaskets

Chesterton offers a full line of packing and gasketing technology for rotating and stationary equipment. Our advances in packing technology help customers stay compliant with increasingly challenging fugitive emissions requirements. We also offer valuable sealing solutions to help plants achieve significant energy reduction and water savings.

Polymer Seals

Chesterton seals for fluid power equipment including presses, cylinders, and valve/control units offer unique, proven designs and highly durable, innovative materials for exceptional performance. Our wide variety of aftermarket hydraulic cylinder seal kits feature upgraded seals and components that offer longer service life, greater reliability, and improved performance.

INDUSTRIAL COATINGS AND MAINTENANCE SPECIALTIES

Protective Coatings

ARC Industrial Coatings

ARC industrial coatings provide advanced protection for metal and concrete equipment and structures across a wide spectrum of challenging applications. ARC coatings provide superior performance against erosion, corrosion, abrasion, and chemical attack. Chesterton's low-VOC, 100% solids formulations deliver long-term protection for critical industrial processes and equipment efficiency.

Ceramic Polymer Coatings

Ceramic Polymer industrial coatings specialize in external protection for large metal and concrete industrial structures such as storage tanks, offshore and onshore structures, pipelines, and biogas facilities.

Industrial Lubricants and MRO Products

From high performance industrial lubricants to efficient cleaners, Chesterton offers a full range of products designed to improve maintenance reliability, reduce costs, and extend equipment life.

Our innovative products and comprehensive lubrication programs are focused on friction detection, corrosion prevention, and equipment life extension.

TRAINING THAT INCREASES PRODUCTIVITY

Global Training

Chesterton's state-of-the-art training centers provide hands-on, customized training programs that are tailored to meet individual plant needs. Plant managers, engineers, technicians, and local specialists attend and benefit from Chesterton's comprehensive training programs. Our programs are designed to maximize content absorption and retention by leveraging the power of *learning-by-doing* built into our highly interactive courses.

Our learning programs focus on rotary, stationary, and fluid power equipment reliability solutions, industrial lubrication and industrial coatings best practices.

We offer hands-on practical training in Chesterton's equipment laboratories (pump, valve, and hydraulic/pneumatic), in-field, in-plant seminars, lunch-and-learns, product installation certification, train the trainer programs, and online training for multi-site needs.

EXPERTISE TO HELP RUN YOUR PLANT MORE EFFICIENTLY

Knowledgeable Service

For over 130 years, Chesterton has provided practical, expert solutions to companies operating in some of the toughest industries around the world. Our experienced, factory-trained personnel and partners are located in over 100 countries and provide specific assistance for your equipment challenges.

Through a network of certified seal repair centers and authorized applicators we work with companies across all major industries to help them achieve higher levels of equipment reliability, efficiency, and compliance.

We increase the overall competitiveness of our customers by helping them solve real world equipment and process issues to reduce their costs and increase their profit margins.

WE ARE EVERYWHERE YOU NEED US TO BE

Chesterton manufacturing operations, service centers, sales, and distributor facilities are found around the world and around the corner—strategically located globally.

With over 1,200 trained local specialists and technicians, Chesterton delivers exceptional service and solutions to meet our customer's needs across energy and resources, and processing and manufacturing industries.

Chesterton's award-winning, low-emissions packing meets consent decree requirements for industrial emissions imposed by the US Environmental Protection Agency (EPA).

PROTECTING THE ENVIRONMENT IS PART OF OUR PHILOSOPHY

We Work with You and the Environment

Chesterton designs industrial products and services that provide the highest level of safety, environmental controls, and standards to help our clients meet their goals for an environmentally sustainable future.

Industry

Providing products and services that boost the reliable processing of materials and improve compliance with industry regulations.

Environment

Reducing the impact on the environment by working with customers to lower emissions and the use of precious natural resources.

Workplace

Lessening Chesterton's own impact on the environment in our facilities and with our suppliers around the world.

Community

Minimizing our environmental impact on our neighborhoods where we work.

FROM OUR EMPLOYEES TO OUR
COMMUNITY, WE STRIVE TO MAKE
THE WORLD A BETTER PLACE

People Are Our Strongest Asset

It's the people, genuine teamwork and camaraderie, and collective passion for client success that makes Chesterton a great place to work. We hire people who are smart, inquisitive, and driven to help our customers operate more reliably and efficiently.

Our Commitment to the Community

We recognize the importance of being socially responsible actively participating in the communities where we are located. Some ways we give back include: Over \$90,000 annual scholarships for the children of our employees; community scholarship assistance; and contributions to the local, regional, and national non-profits.

Chesterton's employee initiative "Love Where You Work" engages employees to work with the local community. The Engagement Workstream raised \$1,160, which was donated to the Life Link Foundation.
