

PALFINGER MARINE: Company Profile

PALFINGER is an international technology and mechanical engineering company and the world's leading producer and provider of innovative crane and lifting solutions. Together with its customers, partners and employees, the technology leader with over 90 years of experience is actively shaping the future of the industry.

PALFINGER, the world's number 1 in the field of loader cranes, offers a wide range of products and solutions specializing in tailored solutions for the construction and forestry industry, through recycling, transport and logistics, to offshore and cruise ships. Under the tagline “Lifting Value - Creating Momentum”, the technology company creates added value out of customers' challenges.

Products and Services for all Major Maritime Segments

With the establishment of Palfinger Marine GmbH in 1992, PALFINGER expanded its field of expertise. Today, the region MARINE is – along with the regions EMEA, NAM, CIS, LATAM and APAC – an integral part of the PALFINGER Group. It is renowned as the leading supplier of sophisticated and reliable deck equipment as well as lifesaving appliances. The product portfolio includes cranes, winches, lifting and handling equipment, access equipment, slipway systems, boats, davits, and fenders. PALFINGER provides these solutions for all major maritime segments, including Offshore | Oil and Gas, Merchant | Cargo, Passengers | Cruise, Governmental, Wind and Aquaculture.

Customers benefit from the global network of PALFINGER's fully-owned service hubs. The portfolio comprises inspection and maintenance, spare parts and repair, refurbishment and upgrades, hook replacement, service agreements, and industrial services. Moreover, PALFINGER experts share their profound knowledge during classroom and practical training sessions on-site as well as in-house at DNV-certified PALFINGER training centers. Specially trained and multi-brand-oriented engineers offer their expertise for more than 25 brands owned by the MARINE region.

Global Presence and Stable Growth

PALFINGER is headquartered in Salzburg, Austria. With over 12,500 employees* (MARINE: over 1,100), 30 production sites (MARINE: 5), and a worldwide network of dealerships and service centers at around 5,000 locations, PALFINGER is always close to the customer.

PALFINGER AG has been listed on the Vienna Stock Exchange since 1999. The Palfinger family is a stable and strong major shareholder. Around one-third of the shares are in free float. With the marine business's valuable contribution and stable growth, PALFINGER achieved an overall revenue of EUR 2.23 billion in 2022.
