

RATNAMANI METALS & TUBES LIMITED is India's one of the largest manufacturers of Stainless Steel Seamless / Welded Tubes & Pipes, Nickel Alloy Seamless Tubes, Titanium Welded Tubes, Carbon Steel Welded Pipes, Stainless Steel / Carbon Steel Pipes with 3 Layer Coating facilities and Stainless Steel / Carbon Steel Pipes with Induction bends.

Started in 1985, Ratnamani in its multi-located State-of-the-Art manufacturing facilities at Indrad, Chhatral and Kutch in Gujarat, India. Our Quality system is accredited to ISO 9001:2015. We are also having ISO 14001:2015, ISO 45001:2015. Our Stainless Steel Division is having NADCAP, EN 9100D, PED, ADW0, NORSOK and Marine Approval whereas our Carbon Steel Division is having API 5L, API 5 CT API 2B Certifications.

The Stainless Steel Division has capabilities to produce Tubes and Pipes in various grades such as Ferritic, Super Ferritic, Martensitic, Austenitic, Super Austenitic, Duplex, Super Duplex, and Nickel Alloys in both Seamless and Welded construction.

The Carbon Steel Division comprises of a JCO Press, Helical / Spiral Mills, ERW Mill, L-SAW facilities, three roll plate Bending Machines, inside & outside Welding lines, Heat Treatment Furnaces.

Our Coating Division consists of necessary facilities for External three Layer Polyethylene / Polypropylene (3LPE/3LPP) coating.
