

CORE CAPABILITY

Creating Safety

ELEMERA

CREATING SAFETY

Delivering innovative safety solutions for hazardous working environments

Elemera is a group of highly specialised companies working with the same purpose: to deliver the safest possible conditions for people working in hazardous areas. Together we bring world-class solutions to minimise risk and improve productivity.

Knowledgeable, focused and experienced, our team of experts provide our clients with peace of mind.

With a strong culture, pioneering spirit and some of the industry's brightest minds, we bring you expertise that delivers projects on time and on budget while ensuring your workforce goes home safely every time.

Headquartered in Perth, Western Australia, with operational facilities in Karratha, and Darwin and a group of partner companies across South East Asia, we can support projects anywhere in the Asia Pacific Region.

OUR MISSION

To deliver specialist class-leading products and services that enhance productivity, maintain compliance, and create safety in hazardous areas.

OUR PURPOSE

To protect people, preserve assets, and improve productivity by ensuring our clients have the highest standard of safety for the environments in which their people work.

OUR SERVICES

The explosive atmosphere experts

Our group of companies deliver innovative products and specialised services designed to create safety. They eliminate ignition risks, maintain compliance, and increase productivity in ‘hazardous areas’ - where potentially explosive atmospheres may develop.

DEDICATED TO PROTECTING PEOPLE

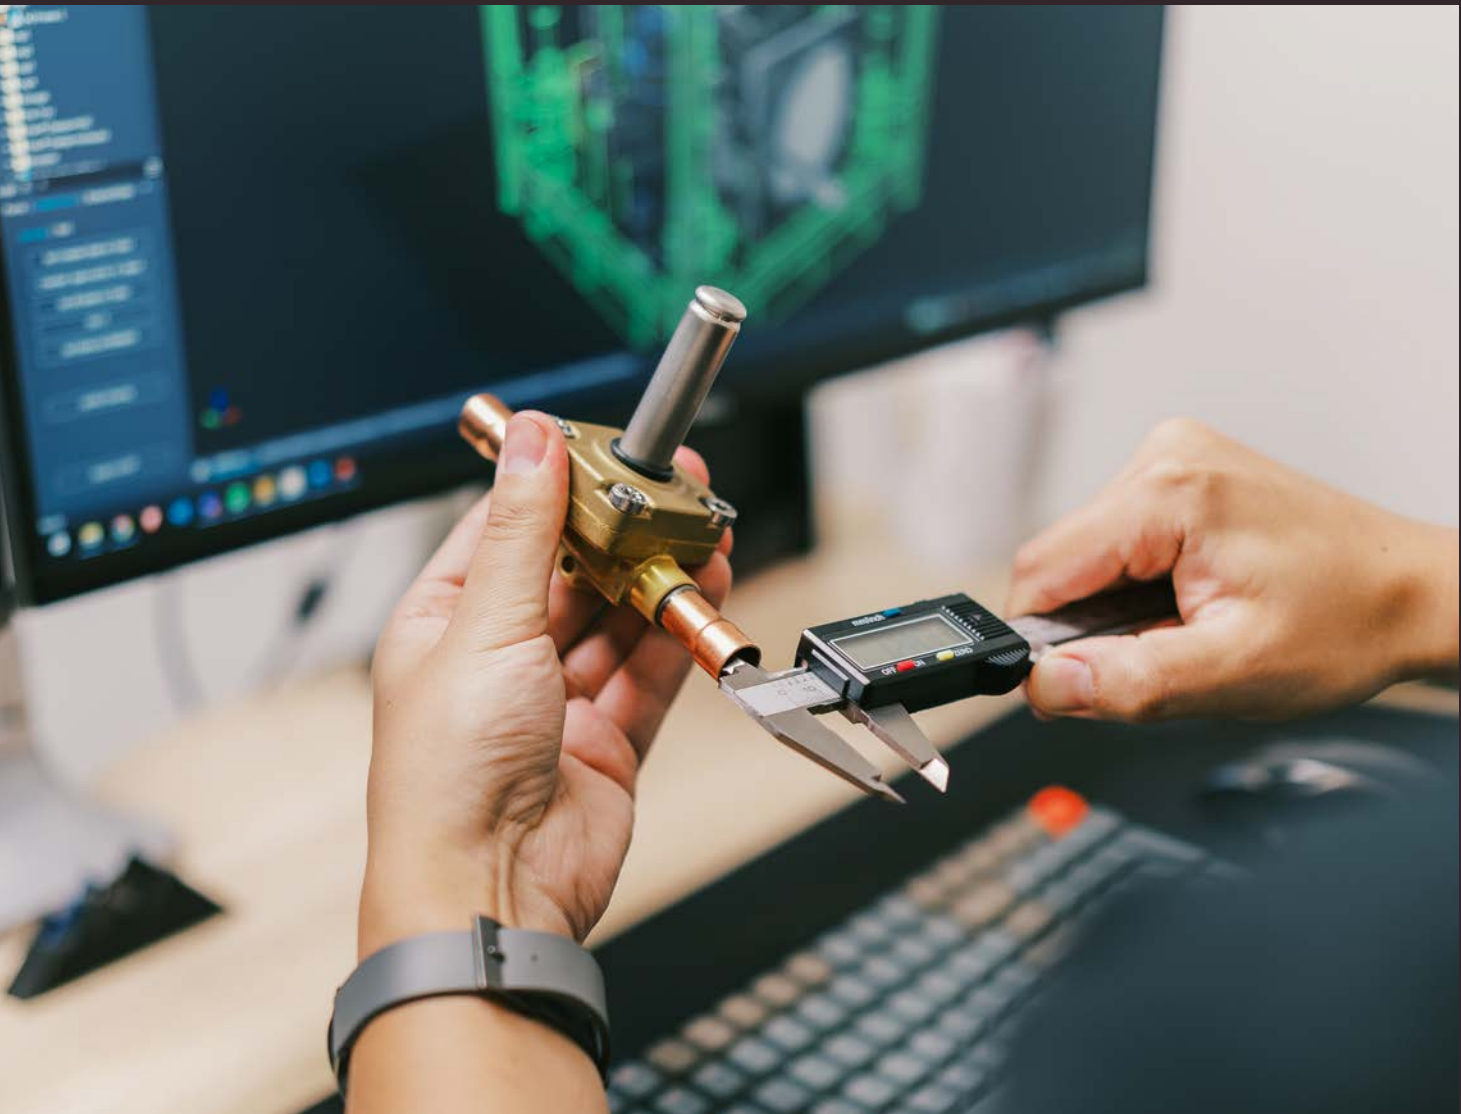

We deliver proven solutions that protect our clients most valuable assets - their people.

FOCUSED ON PRESERVING ASSETS

We preserve your assets, maintaining compliance, ensuring safety and optimising efficiency.

INNOVATIVE SOLUTIONS TO IMPROVE PRODUCTIVITY

Our products and services ensure your workforce can operate safely and productively in hazardous areas.

SAFEHOUSE

Leading provider of safety solutions engineered to make hazardous areas safe and productive.

INLEX

Specialist IECEx certified electrical services and bespoke electrical equipment solutions for hazardous areas.

Committed to achieving safe and productive working conditions

Safehouse exists solely to make hazardous areas safe and productive. We understand ignition risks in explosive atmospheres, and we've made it our mission to control them.

Our people are our greatest asset. Our dedicated project delivery and support team includes engineers, hazardous area electricians, instrumentation specialists, HSEQ officers, project managers and experienced offshore and industrial operatives.

Their commitment, diligence and experience are what bring it all together and create the safety you can count on for your next project.

With our customisable habitats and fleet of Ex certified rental equipment, we can control environments and eliminate risk to achieve safer working conditions.

SECTORS & SERVICES

OIL & GAS

As the leaders in hazardous area safety, we've been working on oil and gas projects in Australia and South East Asia for over a decade. We have the experience to understand the risks and the products and people to control them.

PETROCHEMICAL

Leveraging our extensive experience working in the oil & gas sector, we deliver tailored safety solutions to the petrochemical and downstream processing industries.

HYDROGEN

Utilising our innovative technology and transferring our skills from existing energy industries, we provide specialist safety services for the clean energy fuel of the future.

DEFENCE

Wherever hazardous areas exist we are here to help - using our cutting-edge rental equipment and highly specialised systems of work to ensure safety and productivity.

SERVICES

Working in hazardous areas can make simple tasks seem difficult. We offer solutions that make complex problems seem easy and ensure your projects are safe, productive, and cost-effective.

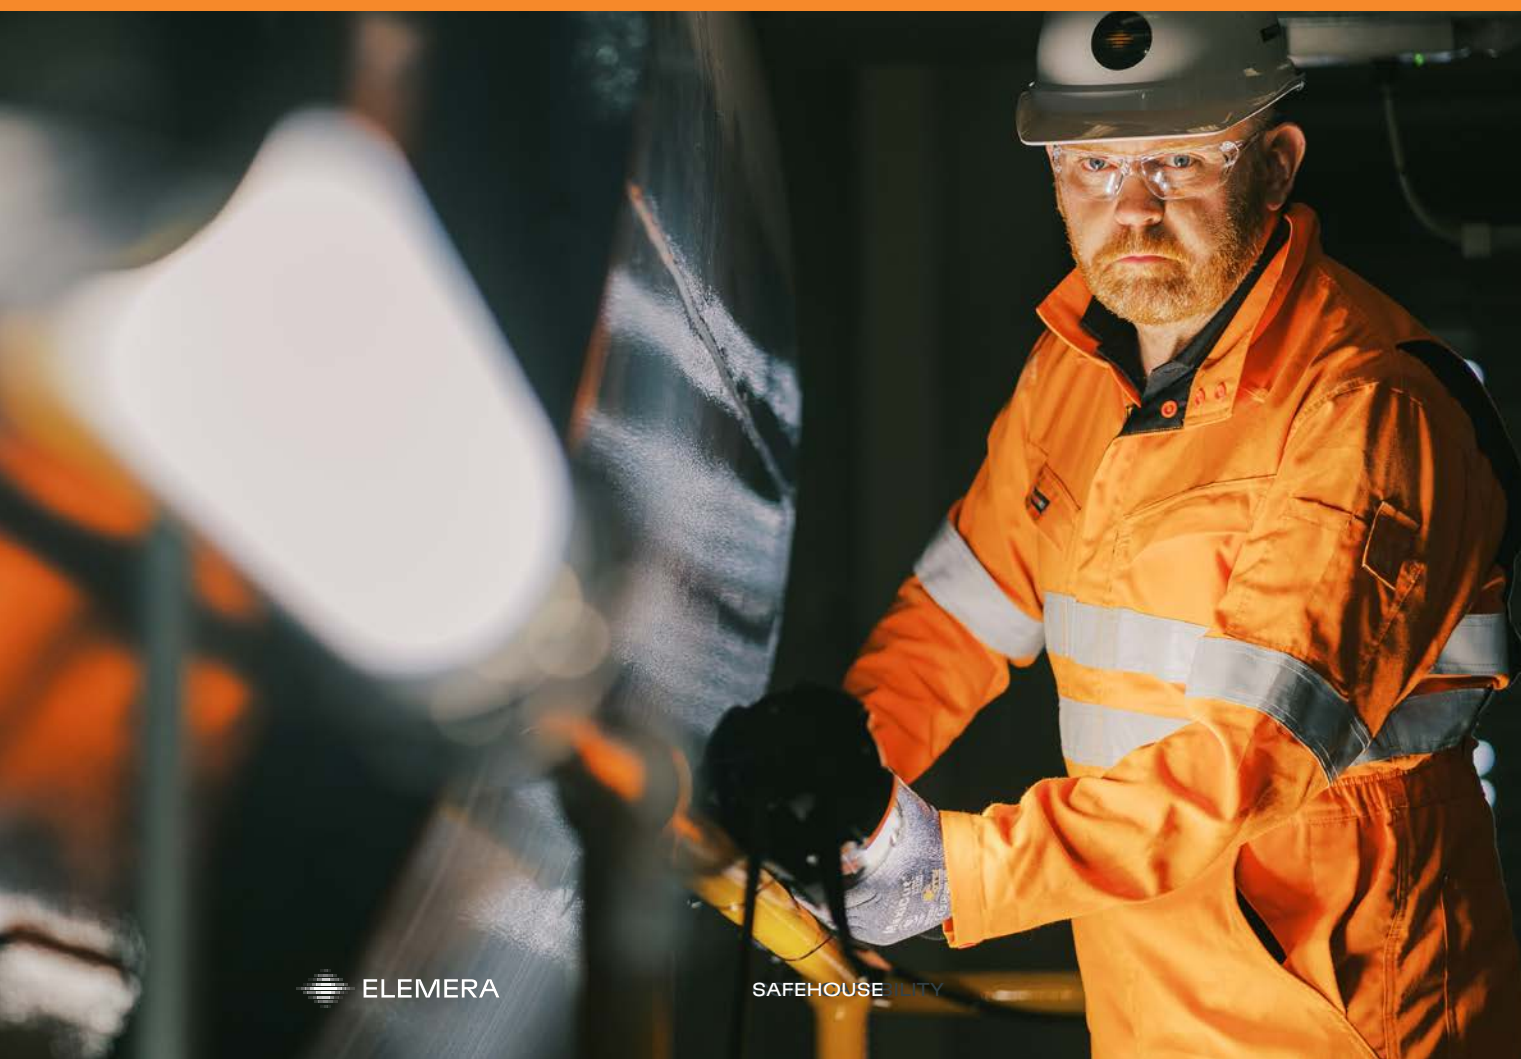

- └ Hot work management
- └ Equipment rentals
- └ Atmospheric management
- └ Confined space entry
- └ Non-Ex equipment encapsulation
- └ Bespoke solutions

RENTAL PRODUCTS

We offer a large range of specialist portable electrical equipment for hazardous areas (EEHA), specially designed to operate safely in potentially explosive atmospheres.

Our experienced team can assist with finding the right EEHA rental solution for your project.

- └ Pressurised habitat systems
- └ Ex certified lighting
- └ Ex certified ventilation
- └ Ex certified power distribution
- └ Ex certified air conditioning

Specialist electrical services for explosive atmospheres

Committed to managing risk, maintaining compliance, and creating safety for our clients, we work across a range of industries containing hazardous areas, where we provide QA/QC & inspection, installation and maintenance, engineering, and custom solutions.

Operating Australia's first IECEx Certified Service Facility for the inspection and maintenance of electrical equipment in hazardous areas (EEHA), we provide our customers independently accredited service and peace of mind.

Our priority is providing reliable, innovative and cost-effective solutions on time and on budget. Dedicated to 'zero harm', we put safety first on every project.

SECTORS & SERVICES

OIL & GAS

Managing risk, maintaining compliance and creating safety in potentially explosive atmospheres is what we do. With over 50 years of combined experience working with electrical equipment for hazardous areas (EEHA) we have the knowledge and experience to support your projects, onshore or offshore.

DEFENCE

As a pioneer in defence sector electrical equipment for hazardous areas (EEHA) in Australia, we understand MIEE and eDEOP 101 requirements. We provide end-to-end services to ensure compliance, create safety and manage risk.

MINERAL PROCESSING

Mining and mineral processing power the Australian economy. Downtime due to maintenance is costly – loss of production due to major incidents even more so. Our services are designed to ensure you remain compliant and continue to operate safely.

HYDROGEN

The world is turning to hydrogen as a clean energy solution; with our decades of experience maintaining the compliance and safety of hazardous area electrical equipment in the LNG industry, we're positioned to be your trusted ignition risk management partner – and help you build a brighter future.

PETROCHEMICAL

Potentially explosive atmospheres are common in petrochemical facilities. We've made it our mission to manage risk, maintain compliance and create safety in hazardous areas. Our range of electrical services are specially designed to protect people, preserve assets and improve productivity.

SERVICES

We're the leading provider of specialist IECEx certified electrical services designed to manage risk, ensure compliance, and create safety in explosive atmospheres.

Utilising the latest digital technology and expert personnel, we have the experience and know-how to manage your assets and protect your people.

- └ QA/QC & IECEx Certified Inspection
- └ Installation & IECEx Certified Maintenance
- └ Engineering
- └ Custom solutions

OUR FUTURE FOCUS AND COMMITMENT
TO CLIMATE ACTION

Community is at our core –
we aim to create positive social,
environmental, and economic
outcomes in the areas in which
we operate

OUR CULTURE

A strong company culture is at the heart of everything that we do. We pride ourselves on being a sustainable and socially responsible business and a fun place to work. We care for our people, enjoy a diverse workplace, and support community organisations.

Our people make our business, so we invest in building skills, developing relationships, and rewarding hard work.

CLIMATE CHANGE

We value the world we live in and believe we can make a difference. We are committed to being part of the climate change solution. We have achieved carbon neutrality and are a certified Climate Active Network Member.

OUR COMMUNITIES

We're local. We employ local people, train apprentices, use local supply chains, and support community organisations. We seek meaningful long-term relationships with Australia's First Peoples.

COMMITTED TO RECONCILIATION

Elemera acknowledges Aboriginal and Torres Strait Islander people as Australia's First People and Traditional Custodians. We pay our respect to Elders past, present and emerging and recognise the continuing connection to land, water, and community.

We've actively helped to grow Indigenous businesses and are proud of our efforts. We seek to engage with Indigenous businesses throughout our supply chain, improve our cultural knowledge and provide opportunities for Aboriginal and Torres Strait Islander people to succeed.

We're proud to have partnered with the Clontarf foundation in their work to improve the education, discipline, life skills, self-esteem and employment prospects of young Aboriginal and Torres Strait Islander men.
