# ABOUT US

## A little more about us

The Petite Skin Co. journey began in 2018 with a simple yet powerful question: **"Why are we teaching our children to wash their bodies and brush their teeth, but not to take care of the skin on their faces?"**

This question resonated among a group of mums, myself included, as we started to notice early skin changes in our 5 and 7-year olds.

Inspiration struck when a friend shared that she had resorted to using her own expensive, chemical-laden adult skincare products on her children. This revelation ignited a passion to create a solution – one that prioritised gentle, affordable, fun yet effective and most importantly, safe, skincare specifically tailored for the pre-teen age group.

From this desire to offer something better for our children, Petite Skin Co. was born. Our commitment is in delivering a range of skincare products that are not only safe and effective but are also enjoyable for young users. Every product is a result of thoughtful formulation, ensuring that the delicate skin of pre-teens receives the care it truly deserves.

# REVIEWS

What our customers have to say

## Beautiful products

My 10 year old daughter was just starting to get a few bumps, blackheads and small pimples in a few areas on her face. We've only had them a week but she loves using the Petite Skin Co face Cleansing foam with the heart shaped buffer followed by the divine smelling moisturiser. It has cleared up her bumps and pimples and the blackheads are diminishing plus her skin is beautifully soft. I'm extremely happy that I made the choice to purchase the Starter Kit

## Great product, made a big difference

Bought the face cleanser, skin buffer and moisturiser for my almost 11 year old daughter. Has made her skin visibly clearer within days, and the white heads that had been starting to form over last few months were gone within a week. She is enjoying using it too.

## Run, Don't walk to buy!

My 12 year old daughter has the worst forehead acne and I could not get her into a routine to watch her face morning and night. The products itself really do show a change quickly! And the bright colours and timer that the pack we got have made her routine just fall into place.
