

BEAUTY AQUA USP's – A comprehensive formula for CELLULAR SUPPORT the Q in the logo represents this.

All Beauty Aqua Variants contain the same comprehensive base formula. Each variant has different Hero ingredients for different lifestyle occasions.

They all have Hyaluronic Acid and Glycine amino acid.

Hyaluronic Acid

– absorbs up to 1000x its weight in water attaches to & feeds cells. - Which facilitates rapid absorption of all the vitamins & nutrients.

-Great for soothing acid reflux in the tummy and soothing acid burns in the oesophagus

-Most HA found in eyes – rapid soothing & relief for dry tired burning eyeballs

HA is essential for wound healing and consumption and application speed up wound healing time.

BEAUTY AQUA is so clean it can be poured on a cut or sprayed on the face as a healing toner.

-HA is a naturally occurring substance in our bodies, it's the goo/ moisture / lubrication molecule, . it's the dew/ shine in our eyes, silkiness in saliva and slipperiness in lovemaking.

-HA is in the synovial fluid in btw our joints, relieving and supporting joint pain/health

-For pregnant women HA makes up a large component of the amniotic fluid that baby lives in, keeping this topped up can support the baby's environment & support the body not having to leech it from the skin.

GLYCINE – Vegan derived from plant stem cells not from abattoir scraps)

-Amino acid that is the structural component of collagen making up 33% of collagen cells (combined with proline amino acid makes up to 77% of Collagen cells)

-Glycine repairs the nervous system – providing relief for adrenal fatigue – so if your frazzled and exhausted Beauty Aqua is a nurturing hug from the inside

-Glycine is very supportive for restoration of the liver. Glycine produces L Glutamine in our liver (our bodies most powerful naturally occurring antioxidant) therefore great if you've been partying, before during or after the party/alcohol.

All ingredients in Beauty Aqua are Anti-inflammatory & Antioxidant which results in Anti-inflammatory – Antiaging, Toxin & Pollutant Resilience & UV Resilience which Australians need more UV support than anywhere in the world.

Pure cold pressed plant extracts packed with polyphenols - antioxidants and anti-inflammatory effects & are great for radiance support

Apple Polyphenols feed good gut biome and have mood enhancing effects.

ENERGY VARIANT USP

SantEnergyNu (Energy variant) is a non-caffeinated energy supplement - a sacred herb that studies have proven to have the same stimulating and metabolism boosting effects as caffeine – without negative side effects of caffeine. Other caffeinated energy drinks on market deplete the nervous system, deplete vitamins and inhibit vitamin absorption Beauty Aqua energy nourishes the nervous system and boosts nutrient absorption. (SantEnergyNu is sourced from a prestigious Biotech company in Switzerland) Mirabelle <https://mibellebiochemistry.com/santenergytm-nu>

Supports weight loss – is used as a weight loss supplement

-Beetroot & Ginseng extract for energy/ libido and endurance & immune system support

HYDRATE VARIANT USP

White Lotus Flower Extract (pure cold pressed) – has tranquillity and calming relaxing effects combined with Pure cold pressed Waratah Flower extract a native Australian plant that thrives in hot desert conditions - for amplified UV Resilience support.

Additional Hyaluronic Acid in the Hydrate variant

L- Proline to support Collagen Formation

AFTER PARTY VARIANT USP

Pure cold pressed Elderflower Extract – excellent for detoxification and relieving swollen sinus

Resveratrol – one of the highest quality antiaging antioxidant supplements on the market – derived from Japanese knot weed

Cold Pressed Quandong Extract – Australian deserts fruit for glowing skin health support

ESSENTIALS USP

Tremella (snow mushroom) pure cold pressed extract renowned since ancient Chinese Song dynasty – was reserved only for royalty – skin purifying, radiance, and flawless skin support. Absorbs 2000 x more moisture than Hyaluronic acid – so when combined with HA – a powerhouse of moisture retention and replenishment support.
