## ABOUT **MITTY**

Mitty's journey began almost a decade ago, during a pivotal moment in my life recovering from a life-changing kidney transplant. Confined to my hospital bed, I stumbled upon the captivating world of nail art on Instagram. And it was love at first sight. There was only one problem, most nail products at the time weren't up to scratch. I decided to take matters into my own hands and create my own nail art brand.

Today, Mitty touches every aspect of the nail community, with an expansive range of nail art products and bustling salons in the heart of Brunswick and Fitzroy. We work with nail technicians, clients, and chemical engineers to remain ahead of emerging trends in the industry, offering distinctive nail polish formulas, specialised nail art tools, and even eco-friendly, non-toxic alternatives.

In fact, Mitty is the first Australian-owned brand to offer 100% vegan and cruelty-free products across an entire range of nail art products.

AUSTRALIAN MADE

- Mitty nail polish is made in Australia with a focus on ethical production and natural ingredients. Mitty nail polish is certified vegan and cruelty free.
- Mitty nail polish is also breathable, allowing air and moisture to pass through the polish and reach the nail bed. The breathable formulation promotes healthier nails and prevents damage from prolonged wear.

- Made with 83% all natural ingredients derived from sugarcane, manioc, potato, and corn. The use of these ingredients provides a cleaner and more sustainable option compared to traditional nail polish formulas.
- Designed to provide high-performance and long-lasting wear, Mitty nail polish is suitable for both home users and professional salon manicures.
