

*All you need & more*

**ATA**

■ DISTRIBUTORS ■

VIC, NSW, ACT AND TAS

**PRODUCT GUIDE** JULY 2022

## About us

ATA Distributors has been a family run and owned business since its inception in 1973. Its purpose was to provide industry with a secure supply chain for its day to day consumable needs.

## What makes us different

- Over 30,000 product lines
- 4 sales locations (Melbourne, Shepparton, Wodonga & Chipping Norton)
- Servicing metro and rural Victoria, NSW, Tasmania & ACT
- 49 years' of experience
- Experienced sales professionals
- Industry Specialists covering tapes, adhesives and packaging systems
- Brands that you can trust
- A strong local and global supply chain
- A network of supply partners throughout Australia (National Distributor Alliance – NDA)
- On site product demonstrations and support
- In-house tape slitting and concerting facility
- Quality assurance certification
- Quality management system ISO 9001:2015
- OH&S management system AS/NZS 4801:2001

## Contents

### Tapes

Packaging	7
Specialty	8 - 9
Double Sided	11

### Packaging

Stretchwrap	12
Polythene	13 - 14
Protective	15 - 20
Strapping	21
General	22 - 23

### Adhesives & Sealants

24 - 28

### Abrasives

29 - 34

### Equipment

35- 41

### Occupational Health & Safety

42 - 43

### Matting

44

### Janitorial

44 - 46

The products shown within this guide are only an indication of our full range.

# The ATA Distributors Benefit

---

## 100% Australian Owned

A family owned company for over 49 years, ATA continues to be a trusted Australian Owned and Operated business.

---

## Australia Wide Coverage

Through our distribution and business partners ATA can offer national business coverage and supply.

---

## Quality Assured

ATA meets the exacting requirements of ISO 9001 quality standards. Delivering a customer centric and personalised service.

---

## Trusted Brands

ATA brings together marquee brands and products under the one roof. Names like 3M, Tesa, Tork, Signode, Bostik, Sealed Air, Ranpak and Robopac are synonymous with quality and are long term supply partners.

---

## Solution Based

ATA is not about shifting boxes we aim to offer the best possible solution for our customers. Our highly trained and experienced sales staff provide professional assistance and deliver tailored solutions for our customers' needs. Our product knowledge is second to none.

# The ATA Distributors Benefit

---

## All You Need and More

ATA offers abrasives, tapes, adhesives, sealants, packaging, equipment, janitorial supplies, matting and safety products. ATA can reduce the amount of vendors and drive savings through hidden administration costs whilst also delivering highly competitive pricing. ATA have a huge range with over 30,000 product lines. We are truly a one stop shop.

---

## Slitting Facilities

ATA carry a huge range of specialty tapes. We can cut tape to any size to meet our customers' needs. We offer quick turnaround times on all our stock lines. Delivering greater flexibility in a competitive market place.

---

## Quality Products

ATA stand by the quality of its products. And for that fact we will offer either credit or replacement for products that do not meet our customers' requirements. Whether faulty or wrongly specified ATA have got your back.

---

## Global Sourcing

ATA scours the globe to get the very best pricing from around the world. We also seek out new technologies to bring to the Australian market to remain competitive in the global economy.

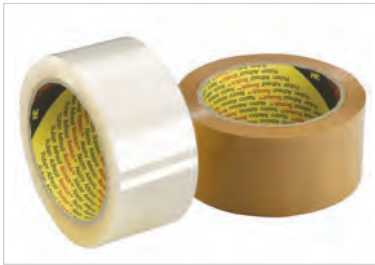

---

## Partnership

ATA is your business partner. We work collaboratively with our clients and deliver on our 5 pillars of honesty, integrity, empathy, innovation and professionalism. We understand that if our customers are successful then we will in turn be successful.

# Tapes - Packaging

## Carton Sealing/Packaging Tape

- Machine & Hand Rolls
- Polypropylene, PVC and polyester backings
- Acrylic, hotmelt and rubber based adhesives
- A range of colours (clear, tan, white, blue, red and more)
- 25micron to 60micron thicknesses
- Widths from 24mm and up

## Printed tapes and labels

- Up to 5 colour printing available
- PVC, polypropylene and paper backings
- Custom print jobs
- Dangerous goods labels
- Tamper evident
- Shipping and handling labels

## PVC Tapes

- Linemarking, coding, fineline masking, electrical and ducting applications
- Full range of colours
- Can be slit to 3mm and up
- Flexible and conformable
- Ducting products available lead free

## Filament and Bundling Tapes

- Fibre reinforced tapes
- Single weave and crossweave
- Can be slit to size
- High tensile polypropylene for less demanding and palletising applications
- Clear and black
- Stretchable tape used for palletisation

# Tapes - Specialty

## Protection Tapes

- Products developed to stop/limit surface abrasions
  - A wide range of backings to suit all applications
  - In an array of colours for product identification
  - Varying tack levels for smooth and textured finishes
  - Products for both indoor and external (UV) use
  - Can be slit to size
- 

## Foam Tapes

- Non-adhesive, single & double sided adhesive foam tapes
  - In a large range of colours
  - In a wide variety of materials PE, PVC, EPDM, nitrile and more
  - For sealing, joining, absorbing, gasketing, etc
  - Permanent and temporary products
  - Can be slit or diecut to size
- 

## Cloth Tapes

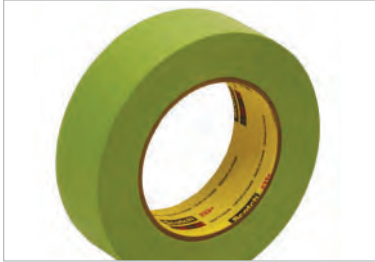

- Single and double sided products
  - Bookbinding, lagging, rendering and general purpose tapes available
  - In a wide variety of colours
  - Specialist double sided cloths for sign mounting and carpet tiles
  - Exhibition approved (clean remove)
  - Can be slit to size
- 

## Foil Tapes

- Single and double sided foil tapes
- Aluminium, copper, tin & reinforced
- Various gauges
- Insulation, electrical and masking applications
- Decorative foils (gold, silver, black)
- Can be slit or diecut to size

# Tapes - Specialty

## Masking & Paper Tapes

- Clean remove products
- Short term to long life masking
- Fineline/non-bleed tapes
- Automotive/high temperature tapes
- Specialty single & double sided products
- Can be slit to size

## Teflon / UHMW / Silicone Tapes

- Teflon & UHMW products have a low coefficient of friction (slick surface)
- UHMW tape is perfect for slides and guides to cut down on abrasion
- Teflon tapes (fabric and filmic) best suited to where heat is involved
- Silicone tapes have a high grip which suits roller covers and aids tracking
- All have low surface adhesion (inks, adhesives, etc)

## Hook & Loop Fasteners

- VELCRO® Brand products and 3M™ Scotchmate™ and Dual Lock™ products available
- Self-adhesive, sew-on and solvent activated products
- Hook & loop fasteners in a wide variety of colors
- Rolls, dots, straps and specialty products
- Dual Lock™ is suited to high strength applications
- Dual Lock™ product available with 3M™ VHB™ adhesive

## 3M™ Bumpons™

- Self adhesive PUR and rubber feet
- Huge range of shapes and sizes, available in clear, white, black, grey and brown
- Also available in strips and rolls (resilient rollstock)
- High coefficient of friction means low slip
- Does not scuff or damage surfaces
- Acts as a buffer (gives clearance) between surfaces
- Can be diecut

With it's classical curves, attention to detail and longevity, you know they have used genuine VELCRO® Brand fasteners !

# Tapes - Double Sided

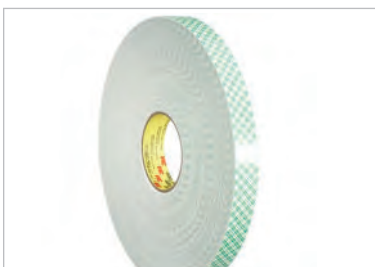

## High Bond Tapes

- 3M VHB, Orafol UHB and tesa ACX plus
- Replaces fasteners and glues
- Full product warranties for aluminium panelling
- Tech support service available
- 2nd Tier product range
- Can be slit or diecut to size

## Thin Double Sided Tapes

- Products ranging from 0.05mm to 0.3mm thick
- Best suited to smoother substrates
- Rubber, acrylic and silicone adhesives
- Various carriers (tissue, paper, filmic, foil & transfer)
- Can be used for splicing, laminating, bonding or pre-assembly
- UV, solvent, heat and plasticiser resistant products

## Thick Double Sided Tapes

- Products over 0.3mm thick
- For uneven surfaces or high movement allowance
- Generally have a foam substrate
- Allows for compression and movement during work cycle
- Gap filling properties
- Dust, moisture and sound exclusion

## Flexographic Platemounting Tapes

- Full range of product densities (soft to firm)
- Large range of product thicknesses
- Differential adhesives to aid mounting on steel, photopolymer plates and more
- Specialty liners to improve mounting process
- Full supplier technical back-up

# Packaging - Stretchwrap

## Stretch Film

- Unitises, protects and stabilises goods in transit
  - Hand and machine rolls
  - Cast and Blown products
  - A variety of widths and thicknesses
  - Clear, black and white standard
  - Products for horizontal wrapping applications
- 

## Processed Film

- A pre-stretched film for specialty applications
  - Available in hand and machine
  - The hand film is light and easier to use over extended periods
  - The film is stretched prior to prevent load movement in transit
  - Works well on pallets with light products as less force is used to wrap
  - Less wastage and lessened chance of product damage
- 

## Air Wrap

- Serves the same purpose as stretch wrap but allows airflow
  - Suitable for hot manufactured products
  - Available in hand and machine
  - Reduces time needed in refrigeration over standard film wraps
  - Prevents sweating of products such as fruit, vegetables and turf
- 

## Bundling Film

- Narrow width stretch film
- Suited to hand applications
- Ideal for bundling and unitising goods
- Alternative to strapping, tape or twine
- Custom sizing to suit application

# Packaging - Polythene

## Pallet Caps

- Polythene cover sheets for pallets
- Low and high density polyethylene
- Range of colours (black and transparent standard)
- Standard and specialty sizes
- Protects goods from dust, moisture and vermin in transit or storage

## Pallet Bags

- Heat shrink and standard pallet bags
- Pallet bags can be used as a dust cover or heat shrunk to stabilise load
- Available in a variety of sizes and gauges (35um to 200um)
- Colours and printing on request
- Protects goods from dust, moisture and vermin in transit or storage

## Bin and Carton Liners

- Acts as a protective layer between container and product
- Prevents moisture from damaging outer packaging
- Various sizes, thicknesses and colours
- Low and high density polyethylene
- Suitable for direct food contact

## Shrink Film

- Heat shrinkable films for product unitisation, stabilisation and labelling
- Variety of sizes, colours and thicknesses available
- Product can be printed up to 8 colours
- An alternative to cartons

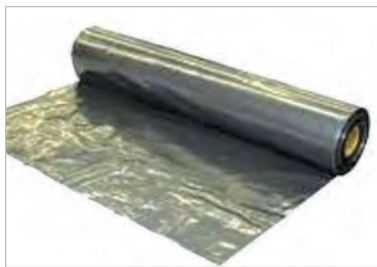

# Packaging - Polythene

## Layflat Tubing

- Protective sleeving
  - In a variety of thicknesses and widths
  - Can be printed up to 8 colours
  - Ideal for long items of varying lengths
  - Can be used in conjunction with an impulse sealer to form bags
- 

## Builders Film & Centrefold Sheet

- Product is generally centre-folded and used as a protective film
  - For wrapping timber, fabric and as a drop sheet
  - Can be used as a liner between sand and concrete
  - A variety of colours, thicknesses and widths
  - Single wound sheet and U-Film also available
- 

## Bags

- Standard poly bags, garbage bags or carry bags
  - Large range of standard products
  - Custom sizes and colours on application
  - Low and high density polyethylene
  - Can be custom printed up to 8 colours
- 

## Press Seal Bags

- Ideal for small part and product packaging
- Extensive standard sizes and thicknesses
- Custom sizing and printing (minimums apply)

# Environmentally Friendly Paper Packaging - Ranpak

## Bubblewrap

- Double and triple layered products
- Specialty laminated products
- A variety of bubble sizes and thicknesses
- Product can be slit and perforated to suit
- Printing available
- Tube product available

## Protective foam products

- Specialty grade polyethylene foam
- For non-scratch surface protection
- From 0.5mm up to 10mm thick
- Can be slit, perforated or sleeved to suit
- Polystyrene sheets and shapes
- Laminated products available

## Environmentally Friendly Paper Packaging - Ranpak®

- Paper based voidfill and cushioning system
- Fillpak® product fills voids for light to medium weight products
- Padpak® cushions and braces medium to heavy items
- Economical systems
- Environmentally friendly. Fully recyclable.
- Geami - Wrappak.
- Surface protection and presentation

## Air Pillows

- Air bag cushioning systems
- Fills voids in cartons
- Multiple bag sizes and formats
- Systems to suit every size operation
- Small storage and large output

# GEAMI

The superior alternative  
to bubble wrap

## GEAMI

Geami WrapPak is a superior alternative to bubble wrap. It is a combination of a patented die cut kraft paper with a tissue interleaf paper.

The Geami WrapPak machine expands the die cut paper to a 3D honeycomb structure providing a superior, packaging alternative to bubble wrap.

### **Protection**

Offers optimal protection for fragile goods, outperforming other packaging materials in its protective ability.

### **Speed**

Reduces packing time as it provides a fast, on demand product that doesn't require taping due to its interlocking paper structure.

### **Presentation**

Perfect in-the-box presentation which enhances the customer unboxing experience.

### **Cost**

Reduces material handling and takes up less storage space.

### **Environment**

Paper is climate neutral, recyclable and also is a renewable source. Ranpak works with FSC certified suppliers.

# Packaging - Protective

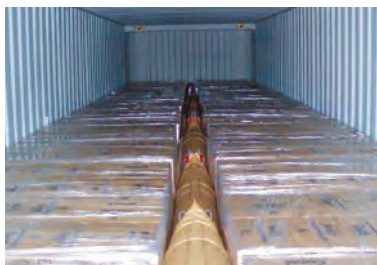

## Instapak® foam

- Expanding foam in bag cushioning solutions
  - Moulds to take product shape
  - Immobilises product inside carton
  - Reduces shock & vibration in transit
  - Various systems to suit your application
- 

## Loose Fill

- Polystyrene and degradable voidfill systems
  - 400L bags
  - Dispensing systems
  - Bulk delivery systems
- 

## Dunnage Bags

- Multilayer air bags for container transit
  - Stops load movement in shipping
  - Available in multiple sizes and grades
- 

## Bubble & Mailing Bags

- Protects your product in transit
- Available in bubble, padded, courier and rigid bags
- Large variety of sizes and formats to suit
- CD and DVD mailers available
- Waterproof and easy open features

## Packaging - Protective

### Cardboard Rolls

- Used for wrapping and product protection
  - 50m rolls in various sizes
  - Product can be scored to allow easy folding
- 

### Pallet Layer Pads

- Cardboard or plastic base for pallet protection
  - Stops nails or splinters damaging product
  - Can also be used for interleave sheeting (slip sheets)
  - Available in fluted and compressed board
  - Standard and custom sizes available
- 

### Edge Protectors

- Used for protecting pallet corners
  - Stops stretch film and strapping crushing cartons
  - Available in a variety of lengths and sizes
  - Custom printing available (minimums apply)
  - Metal, Foam and plastic options
- 

### Cartons

- Cartons available for packaging of your product
- Standard sizes in stock
- Available in all flute sizes
- Customs sizes upon request
- Printing available

# Packaging - Protective

## Fruit Trays

- Moulded pulp paper trays
  - Standard sizes for packing and display of fruit
- 

## Plastic Trays

- Moulded plastic trays
  - For packing and display of food stuffs
  - For enclosure of general products
  - Large range of standard sizes
  - Custom sizes and shapes (minimums apply)
- 

## Tissue Paper

- For the light wrapping and surface protection of products
  - In an assortment of colours and sizes
  - Food grade product available
  - Acid free and specialty grades
- 

## Kraft Paper

- For the wrapping and protection of products in transit
- Various widths and gauges
- Waxed and corrosion inhibiting products available
- Automasking products in stock

# Packaging - Strapping

## Plastic Strapping

- Cheap and efficient product restraint
- Polypropylene, polyester and nylon products
- Can be used in conjunction with hand tools and automated machines
- Available in hand and machine lengths
- Economy grade through to heavy duty
- Printing available (polypropylene)

## Metal Strapping

- For heavy duty restraint applications
- In mild steel, galvanised, HSA and high tensile products
- Widths range from 12mm to 32mm
- Ribbon and rope wound

## Woven & bonded strapping

- Polywoven strapping
- In a wide variety of widths and tensile strengths
- Colours and printing available
- Reinforced bonded strap
- Provides a safer option to steel strapping
- Does not damage products at contact points

## Seals and Buckles

- Plastic and metal seals and buckles
- Hand tensioning to machine crimping
- 12mm to 32mm
- Phosphated buckles for woven & bonded strapping

# Packaging - General

## Document Enclosed Envelopes

- Invoice and document enclosed self-adhesive envelopes
  - For attaching documentation to parcels
  - 115mm x 150mm up to A4
  - Custom printing available
- 

## Labels

- Paper, plastic & laminated labels
  - Plain and printed
  - Thermal and direct thermal
  - Any size, shape, colour and quantity
  - Permanent & removable ribbons to suit
- 

## Marking pens and textas

- Wide range of marking pens for all applications
  - All colours
  - Fine line markers to paint markers
  - Difficult surface and long life markers
- 

## Rubber bands

- For bundling of products
- A wide range of colours and sizes
- 500gm bags

# Packaging - General

## Knives & Scissors

- A large range of cutting implements
- Safety and retractable knives
- Blades to suit all applications
- Scraper tools and blades

## Ropes & Twines

- A wide variety of ropes and twines
- For load restraining or bale tying
- Natural and synthetic fibres

## Bag & Cable Ties

- For sealing bags to fastening cables
- Metal and plastic ties
- Wide assortment of colours, lengths and thicknesses

## Desiccants

- Silica gel and clay desiccants
- Absorbs moisture and prevents damage to products
- Products for containers
- Indicating satchels for replacement identification
- Large range of sizes and formats

## Temperature Controlled Solutions

- Contents are maintained at proper temperatures
- Products ranging from Gel packs, Icepacks, Insulated liner, panels and paper-based solutions
- Protect sensitive materials, goods, and substances from harmful temperature fluctuations
- Extends shelf-life and delivery Radius

# Adhesives & Sealants

## Hotmelt

- For the rapid bonding of many different substrates
  - Packaging, electronic and foam applications
  - Stick, slug and bulk formats
  - Pressure sensitive products available (labelling, difficult surfaces & onserting)
- 

## PVA

- Polyvinyl acetate (PVA) products for a wide assortment of bonding applications
  - In a range of viscosities
  - Low solid products through to cross-linking
  - Available from 5L up to 1000L
- 

## Contact Adhesive

- A wide selection of products to select from
  - Products to suit various substrates and temperature ratings
  - Spray, scraper and brush grade products
  - 4L, 20L and 200L sizes
- 

## Cylinder Spray

- Portable self-contained adhesive spraying system
- Products to suit most applications
- Does not require air
- Low VOC products to meet emission ratings
- Minimal cleaning required and fully disposable

# Adhesives & Sealants

## Aerosol Adhesives

- A full range of products for most applications
- Suits the small to medium user
- Variable spray patterns for changing requirements
- Will bond paper through to laminates

## Superglues & Threadlockers

- Fast and efficient way of bonding small parts
- Used to stop the movement of nuts and bolts post manufacture
- Wide range of viscosities and strengths
- Primers and activators available

## Palletising Adhesives

- Specially formulated products to stop cartons and sacks moving in transit
- Enables products to be stacked higher
- Limits the need of excessive stretchwrapping
- Hotmelt and water based products

## Structural Adhesives

- 2 component epoxy adhesives for tough bonds
- Has gap filling properties
- Speed of bond is enhanced due to chemical reaction
- Products to suit most applications

# Adhesives & Sealants

## Silicone

- Sealants and adhesives available
  - General use to highly specified glazing applications
  - Neutral and acetic cure products
  - Full range of colours
  - Cartridge and sausage
  - Paintable silicone
- 

## Acrylic

- Sealants and adhesives available
  - Acrylic is generally used due to its paintability
  - Good gap filling properties
  - Fire rated ducting products
- 

## Butyl

- Extremely tacky product which bonds to most surfaces
  - Has good gap filling properties
  - Maintains seals in moving joints
  - Available in cartridge and roll form
  - Primers available
- 

## Polyurethane

- Available in a wide range of products
- All products cure when in contact with moisture
- Liquid product great for rapid bonding of timber and other porous substrates
- Hotmelt product bonds even quicker
- Cartridge/sausage based form used extensively in curtain walling market
- All products are readily paintable

# Adhesives & Sealants

## SMP Products

- Silal Modified Polymers (SMP) are next generation in adhesives and sealants
- They handle like a silicone but have the strength of a polyurethane
- They are isocyanate free
- Cure with moisture
- Are readily paintable
- Primers are available

## Construction Adhesives

- For fast permanent fixing of a wide range of materials
- A number of products to suit each application
- Available in 320gm and 920gm cartridges

## Edgebanding Hotmelt

- For the bonding of edge veneers
- A wide range of products to suit most applications and machines
- Primer available

## UF Resin

- A trusted product in the timber furniture industry
- High water resistant bonds
- Very high bond strength
- Non-flammable
- Used in conjunction with a hardener (winter/summer)

# Adhesives & Sealants

## Melamine & Laminating Adhesives

- Used for bonding non-porous to porous or semi-porous substrates
  - Great for bonding melamine and vinyls to particle board
  - Specialty laminating adhesives available
  - PVA, EVA, Dextrin, etc
  - Blending available
  - Available in 5L, 20L, 200L & 1000L
- 

## Latex Adhesives

- Removable and semi-removable adhesives
  - Used to temporarily attach goods to substrates
  - Latex based products ensure clean remove
  - Padding Adhesives
- 

## Solvents & Cleaners

- A full range of solvents and cleaners available for most products
  - Sensitive surface product
- 

## Mould Release & Specialty Lubricants

- Range of mould release products
- Silicone, Teflon and special formulation
- Paintable and non-paintable
- Extensive lubricants range
- Food grade to high temp applications
- Specialty products for engineering shops

# Abrasives

## Sheets & Rolls

- Used for hand and orbital sanding
- Products for timbers, metals and plastics
- Paper, cloth and film backed
- 40 grit to 2000 grit

## Sanding Blocks

- To suit abrasive sheets
- Available in various sizes

## Sanding Sponges

- Foam backed abrasive sheets
- Great for detail sanding profiles
- Kinder on the hands
- Available in different formats
- Ranging from coarse through to micro fine

## Hook and Loop Discs and Sheets

- Fast and efficient when changing grits
- Products for all substrates
- Various hole patterns
- Full range of grits and sizes

# Abrasives

## PSA Discs and Sheets

- Fast and efficient when changing grits
  - Provides a very flat finish
  - Well suited to sanding plastics
  - Various hole patterns
  - Full range of grits and sizes
- 

## 3M™ Scotch-Brite®

- Pads, rolls, discs and wheels
  - Used to condition surfaces where minimal stock removal is required
  - Helps to reach final finishes
  - Extra Coarse through to ultrafine
  - Includes the 3M™ Clean 'N Strip™ product range
- 

## 3M™ Roloc™

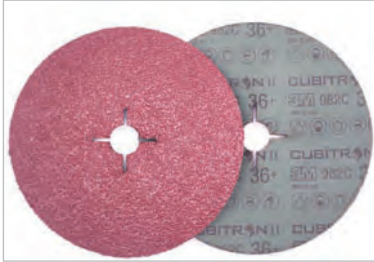

- Quick change discs used for sanding small areas
  - Available in conventional abrasives and 3M™ Scotch-Brite® materials
  - 25mm to 75mm
  - Full range of grits
  - Fast and efficient 3M™ Cubitron™ II products
- 

## Microabrasives and Superabrasives

- Micro graded abrasive mineral on a thin plastic backing
- Superabrasives use diamonds for the most difficult of jobs
- These products are used when final finish is of critical concern

# Abrasives

## Fibre Discs

- Used for weld grinding, bevelling and general stock removal
- 16 grit through to 120 grit
- 100mm, 115mm, 125mm and 180mm
- Products to suit all substrates
- 3M™ Cubitron™ II discs

## Flap Discs

- Used for aggressive weld grinding, bevelling and general stock removal
- More product is exposed as wheel wears
- 36 grit through to 120 grit
- 100mm, 115mm, 125mm and 180mm
- Products to suit all substrates

## Grinding Wheels

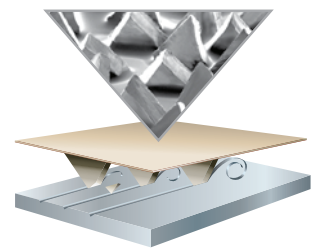

- Rigid wheels for aggressive grinding
- Also used for fillet welds
- 100mm, 115mm, 125mm, 180mm and 230mm
- Products to suit all substrates

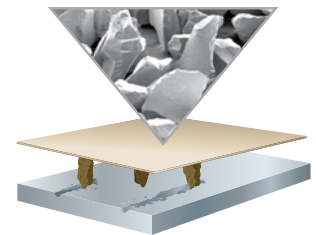

## Cutting Wheels

- Used as a cutting tool on various substrates
- Ultra thin product available for quick, reduced heat cutting
- Products to suit all substrates
- Diamond wheels available for stone and concrete cutting
- 70mm through to 400mm

# Meet the complete Precision Shaped Grain Team.

3M precision-shaped grain uses 3M microreplication technology to form sharp peaks that easily “slice” through metal— cutting cooler, faster and lasting longer than conventional abrasive grain.

Conventional ceramic abrasive grain tends to “plough” through the metal, causing heat to build up in the workpiece and the abrasive — resulting in a slower cut and shorter disc life.

## Precision Shaped Grain Abrasives Cut Faster, Last Longer and Leave a Better Finish.

For speed, long life and ease of use, nothing comes close to the power of Cubitron II abrasives.

For grinding, weld blending, deburring and other tough metal finishing jobs, 3M™ Cubitron™ II Abrasives outperform other discs in their class – thanks to a breakthrough 3M technology that rewrites the rules for speed, consistency and abrasive life.

The secret lies in the revolutionary precision-shaped ceramic grain technology pioneered by 3M. As the triangular shaped grain wears, it continuously fractures to form sharp points and edges that slice through metal, and provide a fast cut, long life and smooth-running feel.

**Have you taken the Cubitron™ II Challenge?**

**Nothing will - ✓ Cut faster, ✓ Last longer or Run cooler!**

*To find out more please call your local 3M representative on 136 136.*

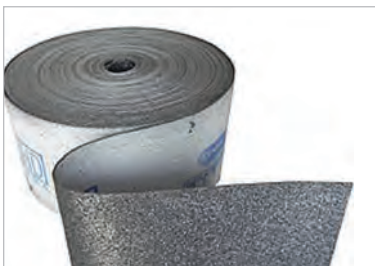

# Abrasives

## Belts

- For portable and stationery machinery
- Available in mineral and Scotch-Brite<sup>®</sup> materials
- Full range of widths and lengths
- Paper, cloth and film backings
- Full range of grits
- Products to suit all substrates

## Slip Cloth

- Graphite lining
- Used to prolong life of belt by reducing friction
- Keeps contact area smooth and reduces heat

## Restorer Sticks

- Used to removed build-ups on belt
- Helps clean and unclog surface
- Improves efficiency
- Prolongs life

## Profile Sanding

- Used for the machine sanding of profiles
- A variety of standard profiles
- Customisation available
- Pleated and star products for profiles

# Abrasives

## Abrasive and Combi Flap Brushes

- For surface finishing on most substrates
  - In shaft, keyed shaft and large formats
  - Full range of grits and finishes
  - Varied sizes and shapes
- 

## Bufs and Mops

- For final finishing of metal and polished surfaces
  - Calico and stitch mops
  - Woollen buffing and waffle pads
  - Variety of sizes and shapes
- 

## Compounds and Glazes

- Finishing compounds and liquids
  - Used for removing medium to fine scratches
  - Used to achieve up to a mirror finish
- 

## Back-up pads

- Pads to suit all abrasives
- Varying sizes and attachments
- Different densities for specific finishes

# Equipment

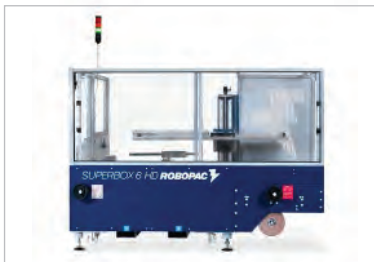

## Tape dispensers

- For application of all hand tapes
- In pistol, teardrop and specialised forms
- Replacement parts available on some models
- Manual and automated bench dispensers

## Carton Sealers

- Powered conveyor carton sealing equipment
- Semi-auto and fully auto units available
- Products suited to all carton sizes and volumes
- Tape and hotmelt sealing units
- Powder coated and stainless units available
- Consistent, reliable and precise

## Carton Erectors

- Self-erecting carton equipment
- Increased productivity
- Increased productivity
- Most box sizes catered for
- Tape or hotmelt sealing units

## Bag Inserters

- Inserts bags into formed cartons
- Automates process
- Increases productivity

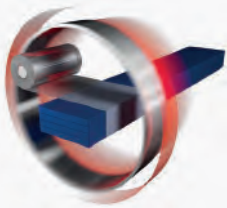

## Robot S7

Robopac presents a new range of self-propelled packaging machines, Robot S7. The use of advanced technologies and of the utmost attention to safety systems represents the essence of the developing capacity of Robopac. The machine is provided with a high level of packaging autonomy and great work flexibility and built to wrap and stabilize palletised loads of any shape, size and weight, using stretch film.

Thanks to the innovative system for facilitated film insertion (ILS) through the opening of the carriage and to the Power Drive technology with brushless motorization, it is possible to control the film with extreme precision, guaranteeing perfect pre-stretching and the lowest consumption of film and energy in view of environmental sustainability.

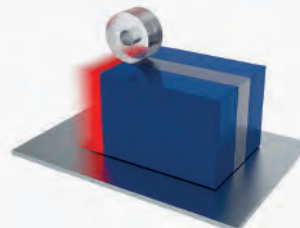

### OTHER PRODUCT CATEGORIES AVAILABLE

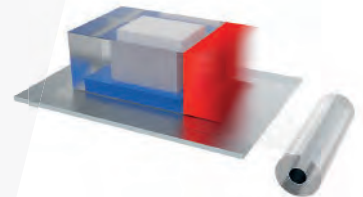

HORIZONTAL  
WRAPPING MACHINES

ROTATING  
ARM MACHINES

TAPING MACHINES

SHRINK MACHINES

## Rotoplat LP

Rotoplat LP is a turntable wrapping machine for wrapping products with stretch film in vertical. The operator can access from every side and load the machine with hand pallet truck via the suitable ramp or using a forklift truck.

Rotoplat LP includes a thin basement, only 30 mm thick, which allows to avoid frequent accidental bumps with the fork of the forklift truck and an easy loading. It is also suitable to save space thanks to the reduced dimensions of the new ramps and the quality of the new patented disc rolling system gives the machine a great reliability.

# Excellence in technology

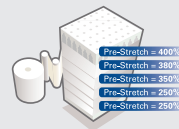

## MLC MULTILEVEL CONTROL

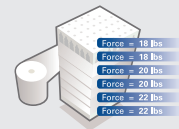

MLC is the technology that allows the best load stabilization with the minimum quantity of film. MLC deliver the right amount of film at the exactly the right containment force.

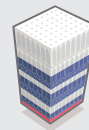

- ▶ REDUCES FILM COST BY 35% TO 55%
- ▶ IMPROVES LOAD CONTAINMENT
- ▶ REDUCES PRODUCT DAMAGE BY 40%

Multi-level variable

# Equipment

## Hand Wrapping Equipment

- Manual wrapping tools for hand stretch
  - Makes task of wrapping pallets easier and more efficient
  - Handles and inserts available
- 

## Robopac

- Automated pallet wrapping equipment
  - Manual mast through to fully automated units
  - Mechanical brake, electromagnetic brake and power pre-stretch
  - Low profile wrappers for hand trucks
  - Ramps, photo eyes, self-apply, banding, are options
- 

## Stretch Tapers

- Applies a band of stretched tape to secure load
  - Allows product to breathe
  - Reduces waste materials
  - Reduces waste materials
  - Great for hot packed product
- 

## Horizontal Wrappers

- Used for bundling items
- Great for long products
- Can be combined with bubble or foam for increased protection
- Varying ring sizes for different sized products
- 125mm and 250mm film sizes

# Equipment

## Hotmelt Machines and Guns

- For dispensing of hot melt adhesive
- Manual hand guns to pneumatic dispenser units
- Can be automated inline
- Adjustable temperatures for different products
- Local supply, service and support

## Strapping Equipment

- Tools for use on all hand strapping
- Crimpers and tensioners
- Battery operated and pneumatic tools
- Bench and arch models
- Fully automated strapping systems

## Labelling Equipment

- Attaching of labels to fruit and assorted products
- Automated labelling equipment
- Ticket guns

## Inkjet Systems

- Applies dates, barcodes and product information to packaging
- Single to multiple line units
- Attaches to conveyor or carton sealer
- Integrated software for design of your own messages
- High resolution

# SIGNODE®

## BXT3

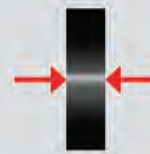

TOUCH THE  
FUTURE

THE WORLD'S MOST INNOVATIVE  
BATTERY OPERATED STRAPPING TOOL  
FOR PLASTIC STRAPPING.

**Signode's BXT3 friction weld combination tool is capable of tensioning, sealing and cutting 12mm-19mm Polypropylene and Polyester strapping.**

The BXT3 is an ergonomic, lightweight strapping tool that saves time and improves efficiency with its one button operation.

### SPECIAL FEATURES

#### Strap alignment indication

Ensures strap is inserted correctly for higher process security

#### Favourite strapping function

For quick one touch of tool settings for varying packages

#### Variable tension speed

Controlled by finger pressure for sensitive packages

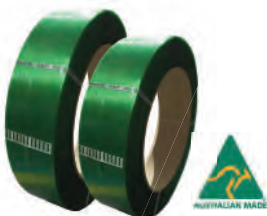

#### Full touch user interface

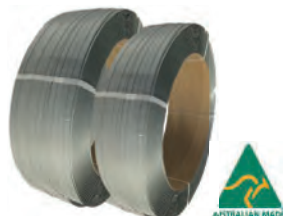

For easiest adjustment of parameters & tool status for operator

### TOOL TYPES / STRAP DIMENSIONS:

- BXT3-16 for universal application s / 12-16mm (250kg Tension)
- BXT3-19 for heavy duty application s / 16-19mm (450kg Tension)

Standard Green PET Strap  
Available in 12mm-19mm

Platinum PET Strap  
Available in 12mm-19mm

H84 Universal Dispenser  
Built in brake to prevent strap overrun

# Equipment

## Air Tools

- Quality 3M™ and Dynabrade™ air tools
- Sanding, grinding, polishing and finishing
- Huge array of quality tools
- Triple insulated
- A tool for every application

## Materials Handling

- A large range of products to choose from
- Conveyors and packing stations
- Pallet handling equipment
- Trolleys and trucks

## Temperature Loggers

- Measure temperature of products in transit
- Helps to determine if product suffers any heat shock
- Essential for quality assurance purposes
- Simple, cost effective and reusable system
- Software free with unit

## Drill and Driver Bits

- Drill and driver bits to suit all requirements
- Auger, spade, holesaws, etc
- Nut setters and burrs
- Jigsaw and hacksaw blades

# OH&S

## Headwear

- Protective headwear for all applications
  - Hard hats, sun hats and cotton caps
  - Welding beanies and faceguards
- 

## Glasses

- Protects eyes from damage
  - Large range of eyewear
  - Goggles and visors
  - All have high UV protection
  - Tinted, fog-free and polarized options
- 

## Hearing Protection

- Prevents damage to eardrums through prolonged exposure
  - Full range of corded, uncorded and banded earplugs
  - Large range of earmuffs
  - Communication headsets
  - Replacement parts and dispenser systems
- 

## Respirators

- Stops particles and fumes from entering airways
- Large range of disposable respirators
- Half and full face mask options
- Airline and powered air systems
- 3M™ advisory service and site audits

# OH&S

## Gloves

- Huge range of hand protection
- Disposable products for high use and high dexterity
- Cut and chemical resistant gloves
- Smooth and textured
- In a large range of sizes

## Clothing and Vests

- Protective clothing for all work conditions
- Coveralls, rainwear and aprons
- High visibility vests for safe work environment
- Welding jackets, sleeves and spats
- Knee guards and back braces

## Sorbents and Spill Kits

- Clean-up options for most spills
- Booms and soaker pads for spill containment
- Extensive kits for multiple scenarios
- Oil and chemical options
- Particulate floor sweeps

## Safety and Demarcations Systems

- Items to ensure onsite safety
- Traffic cones, bollards, flags and bunting
- Barricade tapes, chain and mesh
- Safety tags
- Lane marking tapes and paints

# Matting

## Matting

### Entrance Matting

- Prevents dirt and water from being tracked in
  - Reduces damage to carpets and cleaning bills
  - Can be printed with company logo
  - Attractive styles for most colour schemes
  - Products for low to high volume foot traffic
- 

### Wet Area Matting

- Products for damp and wet areas
  - Enhanced traction to prevent slips
  - Open products allowing liquids to drain
  - Modular and tiled products
- 

### Safety & Anti-Fatigue Matting

- Enhanced traction and reduced standing fatigue
  - Large range of products
  - Modular and tiled products
  - High visibility products to limit trip hazards
  - Promotes safe and comfortable work areas
- 

### Safety Tapes

- Traction enhancing tapes and treads
- Gritted products for stairs and slippery surfaces
- Resilient product for bare foot traffic
- Aluminium backed products for conformability
- Large range of sizes, colours and patterns

# Janitorial

## Toilet Paper

- 1, 2 and 3ply products
- Virgin and recycled paper
- Standard and jumbo rolls
- Economy through to premium products
- Interleaved systems
- Full range of ABS and stainless dispensers

## Paper Towel

- 1 and 2ply products
- Virgin and recycled paper
- Systems to suit all requirements
- Economy through to premium products
- Interleaved, roll and centre feed
- Full range of ABS and stainless dispensers

## Soap & Hand Cleansers

- Mild through to aggressive hand cleansers
- Bulk, foam and metered options
- Barrier creams, hand sanitisers and sun screens
- HACCP approved products
- Large range of manual and automated dispenser systems

## Air Fresheners

- For fresh smelling toilet areas
- Automated dispensing systems prevents overuse and theft
- Can be programmed to suit your working days
- A range of fragrances

# Janitorial

## Wipers and Rags

- Large range of industrial wipers
  - Specialty wipers and cloths
  - Bag of rags
  - Colour coded wipes to prevent cross contamination
  - Boxed, interleaved, centre feed and roll varieties
  - A full range of dispensers to suit
- 

## Garbage Bags

- Bin liners for all applications
  - Most standard sizes stocked
  - Custom sizes on request
- 

## Mops, Brooms and Buckets

- Full range of cleaning equipment
  - Specialty products for the food industry
  - Trigger sprays
  - Commercial scours
  - Floor pads
- 

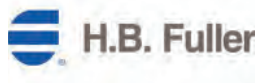

## Cleaning Chemicals

- Full range of cleaning chemicals and deodorisers
- Specialty surface products
- Sanitising products
