CamelLife pain management creams are designed to keep you active. If you're sore after a gym session, run or a day in the garden, use Muscle MAGIC. The cream blends camel milk with magnesium chloride, a range of special plant terpenes extracted from the cannabis sativa (hemp) plant and bush mint oil.

The Happy Camel Balm is fabulous on joint pain; sore fingers, ankles etc. Yes, it's made from the milk of happy camels, but there's a clue about the main ingredient in the name!

CameLife's **Restorative range** of cosmetics is specifically formulated to manage the skin changes experiences approaching and through menopause.

The range includes four products; a **Serum**, packed with Vitamin C, Hyaluronic Acid and a Pro-Retinoid Beta Carotene, a light, highly moisturising **Day Cream**, for humid summer days which contains argan oil to strengthen micro-blood vessels and stave of late onset rosacea, an **Eye Cream** which uses the camel milk to stimulate blood flow and eliminate black circles and bags and finally, a **Night Cream** in which we slow down the absorption of camel milk and add an oestrogen mimic, hydrolysed soy to plump up ageing skin.

Our soaps and cleansers use the naturally occurring lactic acid in camel milk as a gentle chemical exfoliant which leaves the skin feeling squeaky clean and hydrated. The facial cleansing bar uses coconut glycerine to lather beautifully.

The PSO soap really does contain extracts of camel urine; we're after the uric acid to strip away dead skin cells, plus the anti-bacterial and fungal properties of the urine. It's fantastic for psoriasis sufferers but makes a great daily soap.

And then we have our facial polish. using crushed jojoba seeds for a gentle mechanical exfoliation.

Skin needing tender loving care? CameLife's Nourishing Body Mousse is the answer; a highly cream that combines camel milk with fermented cabbage and hemp extracts. Fantastic on dry, cracked and damaged skin.

The original Camel Balm is where it started; use it on cuts, stings burns, acne spots, psoriasis and eczema. Camel Milk Magic in a tube!

Or try our Sunspot Cream; a highly targeted treatment for melanin clumping.
