# Freeze Dried Fruit Ball

**We can customize various small packaging products according to your specifications.**

### **here's how it works.**

We take the world's highest quality produce and flash freeze it. Next, we evaporate the ice so that the fruit's cell structures, taste, and nutrients remain completely intact. What comes out is a nutritious, high quality freeze-dried product that's always a healthy, yummy option. It sounds a little complicated, but it's really simply delicious!
