The products are used for everyday use, special events, photography and on channel 7 Gold Coast & Brisbane. The products are available for retail from stockists in Australia, Switzerland and Germany.

**How it all started** Kylie's long-time skin problems triggered by undiagnosed Celiac disease led her on a driven quest for non-irritating and safe, skincare and beauty products. Being so passionate about non-harmful, products drew Kylie towards minerals and other natural ingredients with all their wonderful properties. This in turn led her to some of Australia's finest cosmetic chemists and manufacturers. Thanks to their talents and help, combining with Kylie's extensive real-world makeup experience, the Kylie's Professional Make-up range was born.

**Starting** very humbly with a limited but popular range of foundation colours and carefully curated, every-day and fashion eye shadow shades, the range soon grew. The joy of sharing these creations with thankful friends and clients encouraged Kylie to spread the knowledge and availability of the superior, safer alternatives. Due to continued, enthusiastic support Kylie's exclusive products are constantly evolving and expanding. Her proprietary formulas and colours still being made 98% in Australia with Pencils in Germany and gel/liquid liner in USA.

**Kylie's ethos** was and is simple: to never compromise on integrity, quality or service and to use safe, non-irritating ingredients, with compassion for people and the planet. To use sustainable and recycled /recyclable materials where possible as well as offer refillable packaging where we can.

Kylie Eustace  
Makeup Artist & Hairdresser  
www.kylies.com.au

Kylie's Professional is a natural and professional makeup brand that was founded in 2006 by Kylie Eustace, an Australian makeup artist, and hairdresser, dedicated to non-toxic, ethical ingredients and practices. Kylie is a busy, working makeup artist and also a multiple finalist for the Australian Makeup Artist of Year awards with over 26 years' experience.

Kylie's range of natural products have won over 40 Awards, including her brand winning - The Makeup Artist Guild Awards - Asia Pacific Australian Makeup brand of the Year 2020!

Kylie started creating her range of products in 2004. Her client's myriad of skin issues and Kylie's own super-sensitive skin, prompted her to find safer alternatives. She is always vigilant when it comes to product ingredients. Kylie needed professional makeup products that she could rely on for her work, that were also as safe as possible. It was essential that the products contained natural and certified organic ingredients that would help the skin, without triggering Kylie's and her client's sensitivities.

# Makeup that will keep you feeling Naked for summer

Keeping your skin and makeup fresh for summer is easy with these handy tips!

**I**n the warmer months, to achieve flawless makeup application it is important you look after your diet and your skin. You are what you eat, so a healthy diet containing lots of Fresh fruit and Veggies is essential as they are not only hydrating, they are packed full of essential nutrients to help keep your skin radiant. With all the summer fruit about that part is easy! Also keep your skin well hydrated by drinking plenty of water, exfoliate regularly and use a light moisturiser. Sun protection is also important when spending time outdoors!

- Starting with your makeup application, use a Foundation Primer containing Aloe as it is so hydrating and soothing. Foundation primer will also help your makeup stay put all day. I am bias and my favourite is Kylie's Professional Mineral Goddess as it is also boxed and can also be used in place of your daytime moisturiser!
- A good quality, Mineral Pressed or Loose Powder Foundation is perfectly suited for our Australian summer, allowing your skin to breathe without clogging your pores. Most Mineral Foundations will also give you natural sun protection and will stay on in humid conditions, are water resistant and are also healing.
- Be sure to use the correct foundation shade in summer as the shade you used in winter or even spring may not suit your complexion. Your foundation shade should perfectly match your body. You will have more skin exposed in summer so it is important the Foundation shade you use is correct. Test foundation on your jaw, collar bones or your shoulders. Check the shade suits you in natural daylight as indoor lighting can reflect artificial colour tones and will not guarantee the perfect match. If the foundation colour matches your body in daylight it is perfect for summer.
- Bronzers are also wonderful for creating a healthy summer glow. Blend Bronzer from your cheek bones to your temples for a sun kissed

look. Bronzers may also be applied as the perfect everyday eyeshadow! Highlighting your cheekbones will also give you a dazzling fresh summer glow.

- Try a peachy pink blush on your Cheeks and apply a peachy pink lip shade for a natural look.
- Summer eyes are beautiful with a soft shading of bronze, Gold's and Rosegolds as they will look great with any summer outfit or occasion. When going for a softer eye makeup look keep your brows well groomed and fill them in with a natural shadow shade to help frame your face. Apply a fine layer of mascara and you are
- If you get overheated in summer put your face with a tissue and refresh yourself by spraying a hydration spray over your décolletage and face for instant relief!
