

Breastfeeding Essentials for Medical Practitioners Workshop

Before the workshop participants should have:

- Completed the pre-workshop activity including reading five articles and reflected on the information they have read. How does it fit with their current practice, and if they have identified any additional learning outcomes?
- Watched the pre-recorded sessions
 - Why breastfeed? The problem with not breastfeeding – Hon A/Prof Wendy Brodribb
 - Anatomy and Physiology – Dr Anita Bearzatto
 - Maternal medications and breastfeeding – Hon A/Prof Wendy Brodribb
 - Maternal issues and breastfeeding – Dr Sarah Bombell
- Completed the pre-test.
- Submitted questions about the pre-recorded sessions on email.

(Further information about the pre-workshop activities will be provided to the participants two weeks before the workshop)

13th February 2021

(All times are Australian Eastern Daylight Saving time eg. Melbourne/Sydney)
