Cascadia Center-Proposed Raising Sequence

Proposed Joinery Detail:
Post @ Exterior Wall
(Fasteners not Shown)

CBECS Climate Zone 3 Averages

Plug loads are ~ 17% on an EUI of 92 kBtu/ft²-yr (15.6)

Plug Loads Consume Approx. 29%* of Seattle Energy Code Office Building Site Energy and 38% of Site Electricity (SEC, 2009)

Plug Load Energy in NW Buildings

Office Building: Seattle Energy Code 2009 (SEC, 2009)

EUI ~42 kBtu/ft²-yr

Plug loads alone = ~12.8 kBtu/ft²-yr

*This is based on modeling done in 2009 – I presume the wattage is dropping somewhat due to adoption of more laptop computers.

Plug Loads Consume Approx. 29%* of Seattle
Energy Code Office Building Site Energy and
38% of Site Electricity (SEC, 2009)

Plug Load Energy in NW Buildings

Office Building: Seattle Energy Code 2009 (SEC, 2009)

EUI ~42 kBtu/ft²-yr

Plug loads alone = ~12.8 kBtu/ft²-yr

Bullitt Center

EUI ~16 kBtu/ft²-yr (Now operating ~10 kBtu/ft²-yr)

Plugs alone = ~7.6 (3.1) kBtu/ft²-yr- with controls

If plug load reduction performance is not *persistent* over time the
project will not meet net-zero operation.

Suite 100
Seattle, WA 98122

RE: 2016 Q1 Energy Consumption

Dear Board of Regents:

One of the benefits of leasing with the Bullitt Center is the building's electric bills are not included in tenant's operating expenses as long as they do not exceed their annual kWh allowance. We will be providing you reports of your allocation and usage quarterly so that you can make informed decisions about how you operate in the building. Please find your Q1 information below.

Please let us know if you have any questions or if we can assist in finding solutions to further reduce energy consumption in your space.

Tenant Report	Pro rata Share	Q1 kWh Allocation	Q1 2016 Usage	Difference	% Used	Q1 2015 Usage	Q1 2015 vs Q1 2016 Difference	% Difference
UW 1st floor	10.40%	3297.03	387.575	2909.46	11.76%	436.115	-48.54	-12.52%
UW 2nd floor	6.80%	2155.73	935.805	1219.92	43.41%	930.21	5.59	0.60%

Sincerely,

Nai Chao
Property Manager

Green Lease at Bullitt Center

- Many provisions...
- Includes tenant energy budget apportioned by square footage of leased area.

UW Leased Area: 7950 ft²

Annual Energy budget: 5452 kWh

Plug Load Energy Allocation Density: 0.69 kWh/ft²

Plug Load "Density" @ 2000 hrs: 0.345 W/ft² (whole building)

@ 200 ft²/person: **~70 W/workstation**
