ABSTRACT GUIDELINES

Thank you for your interest in contributing to Transform MedEd 2022.

All abstracts must be submitted online using the portal on the Transform MedEd 2022 website. Abstracts sent by post or email will not be accepted. To begin your submission, please use the below details to access the portal, create your profile and log in.

Submission online portal

To submit an abstract, you need to create a profile on the Online Abstract Submission Portal:

[Abstract Submission Portal](#)

You can log in multiple times to complete your submission. Please remember to take a note of your password. If you forget your password you can request a new one from the portal.

Submission Deadline

The deadline to submit an abstract for Transform MedEd 2022 is:

Thursday 31 March 2022 at 13:00 (BST).

Transform MedEd 2022 Abstract Themes

- Evidence-based education
- Humanities and social sciences in medical education
- Partnerships in medical education
- Technology-enhanced education
- Bright ideas in medical education

Transform MedEd 2022 Abstract Types

- Poster presentation
- Short communications
- Workshop
- 5-minute research presentations (Bright ideas in medical education only)
- Research salons (Bright ideas in medical education only)

ABSTRACT TYPES

Please note that the following types may be submitted to:

- Evidence-based education
- Technology-enhanced education
- Humanities and social sciences in medical education
- Partnerships in medical education

Poster presentation

2-minute presentation followed by 3-minutes for questions and discussion. Your poster will have both a physical presence in the venue and can be accessed through the virtual platform. Your poster should focus on a single message and should be prepared as a source of information provided clearly and succinctly. Dimensions and formats for accepted presentations are to be confirmed. We also invite you to submit a recording of your presentation to be available through the virtual platform and app.

Short communication

10-minute presentation followed by 5-minutes for questions and discussion. Up to 6 presentations in a themed session of 90-minutes.

Workshop

90-minute interactive workshop where the participants should enjoy and active learning experience. You will also be asked to provide your preferred minimum and maximum participants, equipment required* and specific room set up.

** Equipment requests will be fulfilled where possible, if additional charges apply we will be in contact. Handouts and any session materials are the responsibility of the presenter.*

ABSTRACT TYPES

Please note that the following types may be submitted to:

- Bright Ideas in medical education

Bright Ideas 5-minute research presentations

We invite you to join us for 5-minute research presentations followed by 5 minutes focused questions and feedback from the audience presented in a lively and relaxed carousel format. We particularly welcome submissions of unfinished projects or work which participants can't see how to bring to publication, and which might benefit from a fresh perspective from fellow delegates and experts. These projects are likely not ready for formal presentation as short communications or posters, but we may select submissions from both these categories for inclusion if they fit these criteria. The best Bright Ideas will be bold, innovative, and rewarded with an 'Emerging Researcher Award' for the presenting author.

Research Salons

Expressions of interest are invited from experienced medical educators who are keen to host a 90-minute workshop aimed at early career researchers and teachers (60 minutes education activity & 30 minutes networking).

What do you think are the most important, revolutionary, and perhaps misunderstood ideas in contemporary research and teaching?

What do you wish you had known when starting out on your career?

We welcome suggestions for theory themed sessions built around a particular strand of scholarship (e.g. using national databases in medical education research, phenomenological research, using interview data, Queering Med Ed) as well as events aimed at supporting particular groups within the Med Ed community to succeed in their careers.

Education workshops can follow any format but should aim to be highly interactive. Presenting authors will be expected to host a 30-minute themed networking session alongside their educational activity.

ABSTRACT SUBMISSION

The word limit for each abstract is 300 words plus up to two references. No tables or figures are allowed in an abstract.

All abstracts should include the following headings:

- Background/Introduction
- Methods
- Results/Findings
- Discussion and Conclusions
- Brief Take-home Messages

KEY DATES

Submission Deadline

The deadline to submit an abstract for Transform MedEd 2022 is:

Thursday 31 March 2022 at 13:00 (BST).

You need to ensure you have completed the submission process before this date. Any submissions still in draft status will not be considered for review.

Notification to Authors

Submitting authors will be notified about the outcome of their submission on Tuesday 31 May 2022 by email.

Payment

There is no fee associated for making a submission.

If your submission is accepted for presentation, then you will be required to attend the conference in-person and pay the conference registration fees.

Further information will be sent when authors are notified of the outcome of their submission on Tuesday 31 May 2022.

Should you require any assistance with your abstract submission please contact our events team at transformmeded@worldspan.co.uk
