

ABHUG 2025

Australasian Boiler & HRSG Users Group Conference and Workshops

Tuesday 25 - Thursday 27 November 2025, Brisbane
Brisbane Convention & Exhibition Centre

The Australasian Boiler and HRSG Users Group (ABHUG) will conduct its annual meeting in Brisbane, Australia on Tuesday 25 - Thursday 27 November 2025.

Since 2019 AHUG has been known as ABHUG (Australasian Boiler and HRSGs Users Group), to include all aspects of HRSGs, as well as additional technical areas common in fossil and HRSG plants - such as tube failures, steam turbine failures, high energy piping, valves and regulatory issues and cycle chemistry control aspects.

The 2025 conference will include a workshop on an important topic of interest. All attendees will be encouraged to raise specific technical problems with their Boilers, HRSGs, Steam Turbines and Valves, and then participate while other attendees join in to share their experiences and debate solutions. There will also be a number of exhibits and sponsors associated with all aspects of Boilers and HRSGs.

Save the date 
ABHUG: 25 - 27 November 2025, QLD, Australia

Who should attend?

*Managers, engineers, operators,
maintenance personnel, equipment suppliers,
consultants, and plant service providers. In
fact, anyone with an interest in the design,
operation, layup, maintenance, or
chemistry of boilers and HRSGs.*

Call for ABHUG Conference Papers

The Conference Committee is accepting suggestions for presentations at the 2025 Conference.

There will be room on the agenda for presentations of 30 minute duration and brief case studies of 5-10 minutes duration. Owners/ Operators are encouraged to present case studies of actual plant issues/events, or plant features that others would find interesting.

Upon acceptance, presenters will be expected to register and pay to attend the conference, along with other delegates.

Submissions for presentations should be sent to **Barry Dooley AND Robert Anderson**:
bdooley@structint.com and
anderson@competitivepower.us
by 30 June 2025.

Conference Committee

ABHUG 2025 is chaired by **Barry Dooley**, Structural Integrity Associates, and **Bob Anderson**, Competitive Power Resources, with the assistance of a Steering Committee consisting of:

David Addison, Thermal Chemistry, New Zealand
Russell Coade, HRL, Australia
Stuart Mann, AGL, Australia
Duncan McAllister, Loy Yang B, Australia
Ian Rawlings, CS Energy, Australia
Anita Zunker, PEI, New Zealand
