Implant Site Development by Orthodontic Extrusion *A Systematic Review*

Mohammed Korayema; Carlos Flores-Mirb; Usama Nassarc; Kamrin Offertd
Angle Orthodontist, Vol 78, No 4, 2008

“Based on the available literature, orthodontic extrusion of nonrestorable teeth prior to implant placement appears to be a viable alternative to conventional surgical augmentative procedures in implant site development. No direct comparison to any other method was found, and therefore no conclusion could be made about its relative efficacy.”
