

Executive Leadership Summit Ireland

Driving health and care IT transformation in Ireland

in association with

24 October 2017, The Round Room, The Mansion House, Dawson Street, Dublin 2

Part of Health Innovation Week 2017

The exclusive, invite-only Executive Leadership Summit Ireland (Dublin) will unite senior health IT leaders from across Ireland's health and care system to explore the very latest in health IT.

The day's agenda focuses on identifying and implementing solutions that have the potential to transform patient care and our speakers are among the brightest minds working in health and care IT. Three carefully curated tracks will unite cutting edge supplier solutions with respected health strategists from Ireland and overseas.

Attendees will:

- **Learn** how the Health Service Executive is innovating to build a better health service in Ireland
- **Hear** from leaders from other healthcare systems about how we lift cultural barriers to allow digital change to happen
- **Be inspired** with a leadership development workshop led by internationally-renowned health IT leadership organisation CHIME.
