

UNITED METHODIST CHURCH AND NORTH CENTRAL COLLEGE

At North Central College, we've fostered faith-filled leaders, thinkers, and world changers for generations. As United Methodist educators, we're dedicated to shaping the whole person, instilling a sense of service to the world, promoting inclusiveness and social justice. Our students go into the world with the tools, experience, and purposefulness to do well and to do good.

United Methodist students at North Central College have extraordinary opportunities built into their learning experience. They're part of a community whose core values are rooted in our Wesleyan ideals. They're nurtured intellectually, physically, emotionally, and spiritually both inside and outside the classroom. They get involved in student organizations like the Voices of Praise Gospel Choir, New Beginnings Summer Ministry, BREAKAWAY service trips, and the Focus worship community.

“

As students, we had the opportunity to discuss social issues and matters that impacted our faith and our everyday life as students.”

BISHOP TRACY S. MALONE '90

“

Our College Chaplain is the heart and soul of our community. He is our moral compass and without him we would be lost at sea.”

GRACE NELLES '22

For decades, North Central's chaplain and the Office of Faith and Action have shepherded students on their paths. Through mentoring and vocational exploration, our students recognize where their talents intersect the world's deep needs. Our alumni lead world-changing efforts in the church and in the classroom and with established non-profit institutions and new socially conscious businesses. They carry their light through our community, region, nation, and world.

As a United Methodist, your prayers and gifts are already working through our global connection. We'd love to connect with you so that you can see first-hand what fruits your support is bearing and imagine what new places, spaces, and faces can be part of our ministry together as we change the world for good.
