

Generator Power Order Form

Outdoor Exhibits Only

Deadline: November 30, 2011

If you are signing up with Freeman to get outdoor area electrical service, you must also order generator power by sending this form to Show Management. Indoor exhibitors are not required to have generators.

Those of you that will be ordering electrical power for your OUTDOOR EXHIBIT AREA should be aware of the minimum requirements for ordering services from Freeman.

Under Electrical Outlets on the Freeman order form, you must order at least the 1501-2000 watts (20 Amps) service, no matter how small your needs. This is due to the cables that are laid throughout the exhibit area.

In addition to the cost of the wiring service paid to Freeman, there will also be a charge for the use of the outside generators which will be brought in to provide the power to the outdoor exhibits.

We are renting these at a flat rate and have divided the this by an estimated number of exhibitors that we expect to use electrical power, based on previous years. The charge will be \$175 per outlet. We will adjust this up or down by the number of exhibitors requiring power. Power will be supplied Wednesday through Saturday, 1/2 hour before opening and until the scheduled closing hour.

First/Last Name:	Title:	
Company:		
Address:	City:	State:
Zip Code:	Country:	
Phone:	Fax:	
Email:	Website:
