The Innovation Expo only accepts a limited number of participants, with a designated time slot, premium location, and exclusive access to the influencers that comprise Nexus attendees.

NEXUS 2020

THE INNOVATION EXPO
IS POSITIONED AT THE
CENTER OF THE ACTION.

Nexus 2020

Users and experts in workplace and facilities management will gather at Nexus 2020, in Chicago, to share insights on what can be achieved when talented, driven, and creative individuals apply technology to their built environment.

- World class speakers at the top of their professions
- Presentations from experts in healthcare, education, government, and business
- Growth opportunities like networking, training, and learning activities

Innovation Expo

The Innovation Expo is positioned at the center of the action, exposing Nexus attendees to relevant experts and technologies that can take their projects to the next level.

What are Innovation Expo attendees looking for?

Attendees are seeking technology that can enhance and transform their implementations. Partners are eager to differentiate themselves from competitors by incorporating new technologies. Many partner-led projects have become standardized elements of Archibus + Serraview implementations.

Forge Long-Term Partnerships with Key Decision Makers

Archibus + Serraview Business Partners

Archibus + Serraview software is used by over 10,000 organizations around the world. That software is provided by Business Partners who implement Archibus software and products to clients.

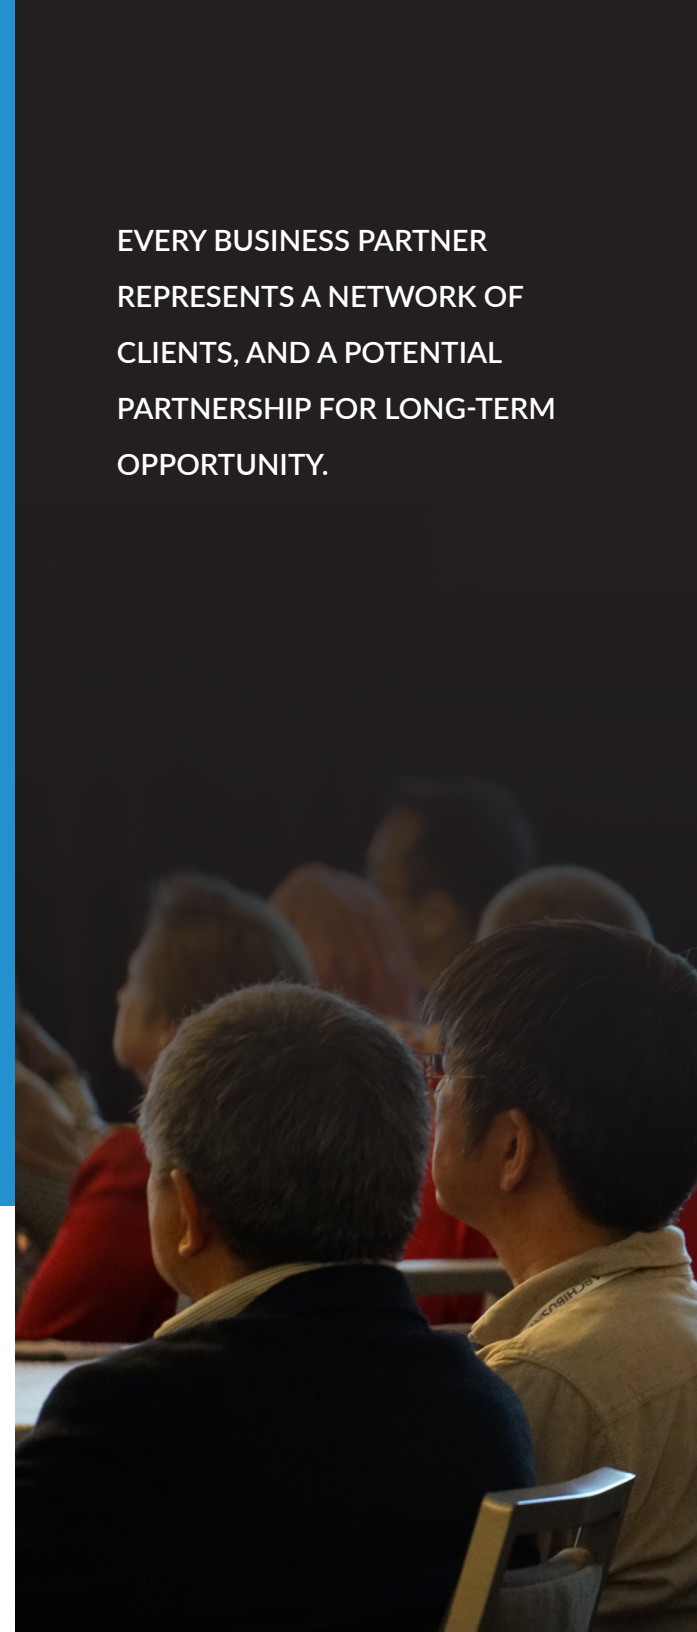

Every Business Partner represents a network of clients, and a potential partnership for long-term opportunity.

Archibus + Serraview Clients

Archibus + Serraview clients represent elite organizations from government, education, healthcare and the commercial sector, from cities implementing smart technology to campuses looking to stay on the cutting edge of technology. Nexus attendees are looking for inspirations, strategies, practices, and new ideas to bring back to their organizations.
