we enable wearable health

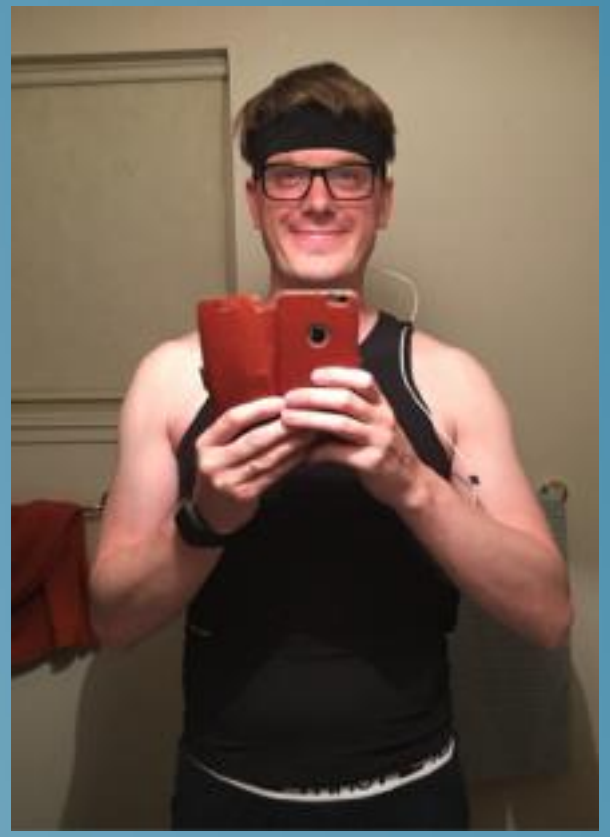
@byteflies

46% of people suffer from chronic conditions [CDC]

@byteflies

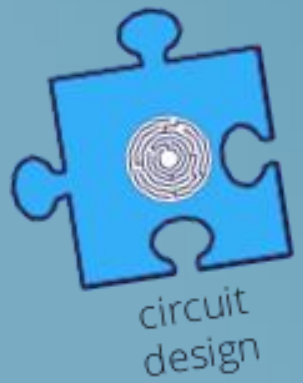
Healthcare tomorrow

Prevention. Prediction. Personalisation.



But… who will make them?

No tools available



It takes 1-2 years to build an MVP and 4-5 years to build a scalable product

Regulation

Essential but…

Not transparent: Consultants happy

Not adapted to new technology

Not flexible: technology changes fast

We need ‘lean’
Regulation approach
