MONDAY

MATTHEW LUHN | Acclaimed Pixar Animation Studio Storyteller and Speaker

Big Data and Story Telling

Big data is changing everything from content development to culture itself. Hear how big data is being used to create great stories and characters in films like Toy Story 3, Inside Out and beyond. Matthew's experience and insight will empower and inspire publishers, advertisers, and innovators on how to forge stronger, more meaningful connections with consumers.

TUESDAY

MARY "MISSY" CUMMINGS | Professor, Duke University and Director, Human and Autonomy Laboratory

The Future of Artificial Intelligence and Logistics

Professor Mary "Missy" Cummings will outline how to conceptualize and leverage the strengths and limitations of both humans and artificial intelligence such that humans harness the raw computational power of computers, while applying inductive reasoning for potentially creative, out-of-the-box thinking for the increasingly complex logistics challenges of the future.

WEDNESDAY

MAJOR MJ HEGAR | Former Air National Guard Pilot and Author

Be the Change

Combining harrowing war stories and practical advice on leadership, diversity, teamwork, and motivation, learn how to be a catalyst for change on a large scale, be it in your career, at home, or on a national or global level. When someone tells you that something cannot be done, she says, the only way to prove them wrong is to do what they believe be impossible.
