Dr. Paolo Manzoni, MD

Secretary, Scientific Committee,
the “Fondazione Crescere Insieme al Sant’Anna-Onlus”
Scientific and Research Neonatology Foundation

WELCOME FROM THE CHAIRMAN

Dear Colleagues and Friends,

the Division of Neonatology and NICU of Sant’Anna Hospital in affiliation with the “Crescere Insieme al Sant’Anna” Scientific and Research Neonatology Foundation is proud to announce the 4th edition of the “International Conference on Clinical Neonatology”, to be held in Torino, Italy on June 13-14-15, 2013.

In line with the spirit of the successful previous editions, that were held in November 2009, March 2010 and May 2012 this conference’s goal is to present the latest scientific evidence on the care, treatment and follow-up of preterm neonates. Once more, the congress will be a multidisciplinary program of neonatal and perinatal research and practice, giving the opportunity to interact and share clinical and research experiences with colleagues in the Neonatology community.

Prominent international speakers from all the fields of Neonatology and Pediatrics will provide comprehensive, up-to-date, research-based answers to the most frequent questions that arise at patient’s bedside in everyday practice.

Torino is a splendid venue for this meeting and will give all the delegates the opportunity to enjoy the unique charme of its beautiful baroque buildings, old churches and renowned monuments, as well as with the unforgettable taste of the local cuisine specialties like chocolates, truffles, and ravioli not to mention the famous wines and spirits.

Please let me invite you and join us in attending this exciting event ! As the Chair of the organizing committee, I look forward to welcoming you in Torino”.

Sincerely yours,

Paolo Manzoni, MD Chairman International Conference on Clinical Neonatology

THE FOUNDATION

The Foundation: “Crescere insieme al Sant’Anna-ONLUS” and its Scientific Committee Since its institution in 2005, the Foundation “Crescere insieme al Sant’Anna-ONLUS” has set its objectives as being “the promotion of development and well-being of newborn babies and their families, through all suitable ways, including research and dissemination of knowledge in the field of neonatology...”. To this purpose, together with its long standing associate “Juventus Football Club” and through the Communication and Marketing Agency “Eurelab”, the Foundation has developed a series of information, promotion and fund raising events that have always pursued the objective of bridging together society and the preterm newborns and their families. The setting up of a scientific committee which supports both research and education in neonatology focuses on the aim of involving a large part of society in the effort of improving knowledge in the neonatal field and care for the smallest premature babies.

WELCOME FROM THE PRESIDENT OF THE "FONDAZIONE CRESCERE INSIEME AL SANT'ANNA - ONLUS"

Dear Colleagues and Friends,

As the head of the Neonatology and NICU Department at Sant’Anna Hospital and founder of “Crescere insieme al Sant’Anna-ONLUS”, I am very happy to support again my colleague Paolo in the organisation of the fourth edition of this Conference that falls within the Foundation’s objectives and that also allows us to consolidate research into neonatology through the sharing of knowledge between all those who are part of this branch of medicine. I am proud to welcome you once more in

Turin, which is well known for its Baroque architecture, imposing monuments and sites, picturesque squares and porticos as well as its local culinary delights.

Daniele Farina, MD
