City Vintage Tram Tour and Chocolate Experience

You will depart by coach from the Basel Congress Centre to the main train station, where you will board the vintage tram. The tram has long been an important element of Basel life. The journey will give the impression of what it was like to travel around the city a hundred years ago, and all the authentic sounds of yesteryear can be heard, as you rumble along in the old tram. You will then continue to the Chocolate Company, where an introduction to the world of chocolate will unfold. The origins, processes and production of various types of chocolate will be seen and, of course, you will have an opportunity to sample some of the decadent chocolate! Once the tour is complete, a coach will be waiting to return you to the Congress Centre.
