

Trade Facilitation Indicators : to support and monitor implementation of the WCO

WCO Knowledge Academy, July 2014

OECD Trade Facilitation Indicators

- A tool to measure the impact of TF Measures on Trade Flows and Trade Costs
- and provide an overview of country performance
- A basis for prioritising trade facilitation actions by governments
- A support for mobilising technical assistance by donors in a targeted way
- Following the structure of the WTO Trade Facilitation Agreement and covering 133 countries

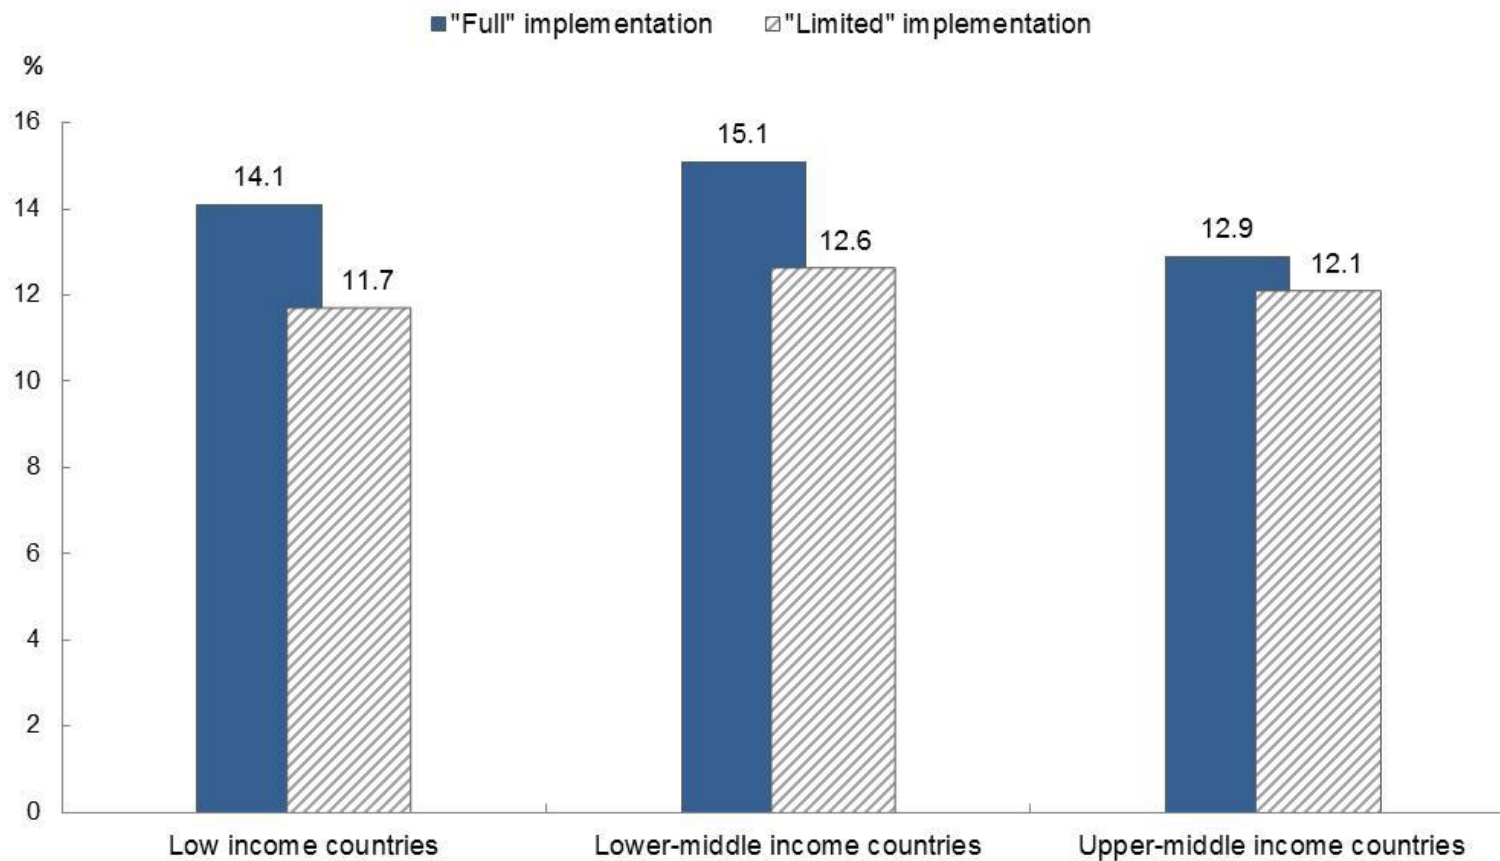

TFIs structure

Import/export TFIs
a. Information availability
b. Involvement of the trade community
