"PHP Windows developers are second-class citizens" - Rasmus Lerdorf

5:33 PM Mar 10th via Echofon

adlerparnas
Adler Parnas

@adlerparnas That used to be the case, but as of PHP 5.3 PHP on Windows is back to being a first-class citizen.

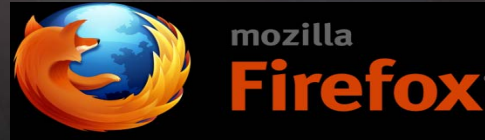

6:55 AM Mar 11th via Brizzly in reply to adlerparnas

WordPress and Windows Azure

19 Nov 09

MATT MULLENWEG

we announced that self-hosted WordPress can be run in an Azure environment on an open source stack of Apache, MySQL, and PHP. Showing MySQL in particular at a Microsoft conference was unusual.

Hell Freezes Over And Microsoft, Novell Team On Linux

By Eric Knorr

Created 2010-03-16 03:51AM

.... yet open source is proliferating to a degree no one would have believed a few years ago -- especially when you take into account the major open source offerings of IBM, Oracle, **and yes, even Microsoft.**

<http://www.infoworld.com/t/open-source-initiatives/open-source-less-profit-more-fun-749>

Old open source foe becomes platinum Apache sponsor

July 20, 2009 11:41 AM ET

<http://www.networkworld.com/news/2009/072009-microsoft-linux-source-code.html>

For every **\$1** Microsoft earns, companies
in the local ecosystem will make
\$6.82

350,000

Open source applications
running on Windows

Open Source Software: Increasingly Friendly to Windows

RECOVERY.GOV

TRACK THE MONEY

Finally finished my
work for the Open
Government Directive.
Way ahead of
schedule, too...

Um... This is a
map and brochure
for the Library
of Congress.

Exactly! All the
data's there!
Somewhere!
Can't get much
more transparent
than that.

And this is "participatory
and collaborative"... how?

I plan to tweet
about it next week.
