

## Dell Enterprise Forum 2015

June 9-10, 2015

### Why attend the Dell Enterprise Forum 2015 ?

Dell Enterprise Forum fosters a tradition of connecting technical enthusiasts – customers, channel partners, technology leaders and industry influencers and engaging them in lively discussions on today's most important IT topics.

Through a series of technical keynotes, briefings, breakout sessions and networking events, all in an open access format, Dell Enterprise Forum focuses on the intersection of business and technology in a manner unmatched by any other conference to build a thriving worldwide Dell Enterprise community.

Here are some of the opportunities you will have during the Dell Enterprise Forum:

1. **Find your path** to a future-ready enterprise!
2. **Immerse** yourself in this unique, interactive **learning experience** optimized with premium leading edge technical content from Dell and Intel®.
3. **Participate** in detailed **expert/engineer-led sessions** on the complete Dell Enterprise portfolio.
4. **Discover** the **key topics** including Software Defined Solutions, Converged Infrastructure, Storage Solutions, HPC, Big Data, Cloud, VDI and Networking.
5. **Interact directly** with **our experts** at the solutions expo and gain access to all our latest enterprise products & solutions.
6. **Enjoy networking opportunities** including a **themed evening** with your peers, your Dell|Intel team, and key industry alliance partners.
7. **Get certified** by participating in specific breakout sessions - **Dell Channel Partners** will receive **training credits** that will contribute to their technical certification requirements.

For more information about the event and agenda visit the [Dell Enterprise Forum 2015 website](#).

*"People who work together will win, whether it be against complex football defenses, or the problems of modern society." Vince Lombardi*
