COVID-19 Laboratory-Confirmed Hospitalizations
Preliminary data as of Jun 06, 2020

Covid-19-associated Hospitalizations By Age

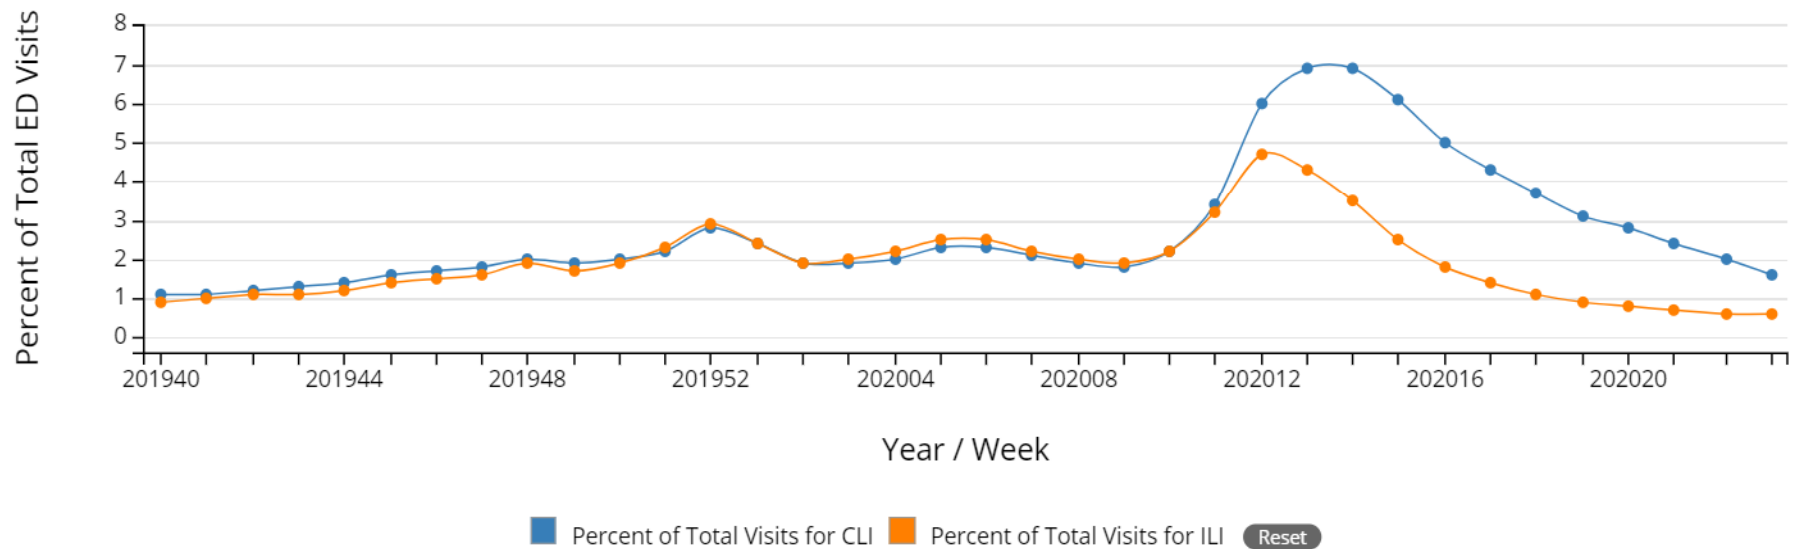

0-4 yr 5-17 yr 18-49 yr 50-64 yr 65+ yr

Age	0-4 yr	5-17 yr	18-49 yr	50-64 yr	65+ yr	Total
2020	110	161	7538	8431	12747	28987

The Coronavirus Disease 2019 (COVID-19)-Associated Hospitalization Surveillance Network (COVID-NET) hospitalization data are preliminary and subject to change as more data become available. In particular, case counts and rates for recent hospital admissions are subject to lag. As data are received each week, prior case counts and rates are updated accordingly.

Daily New Cases

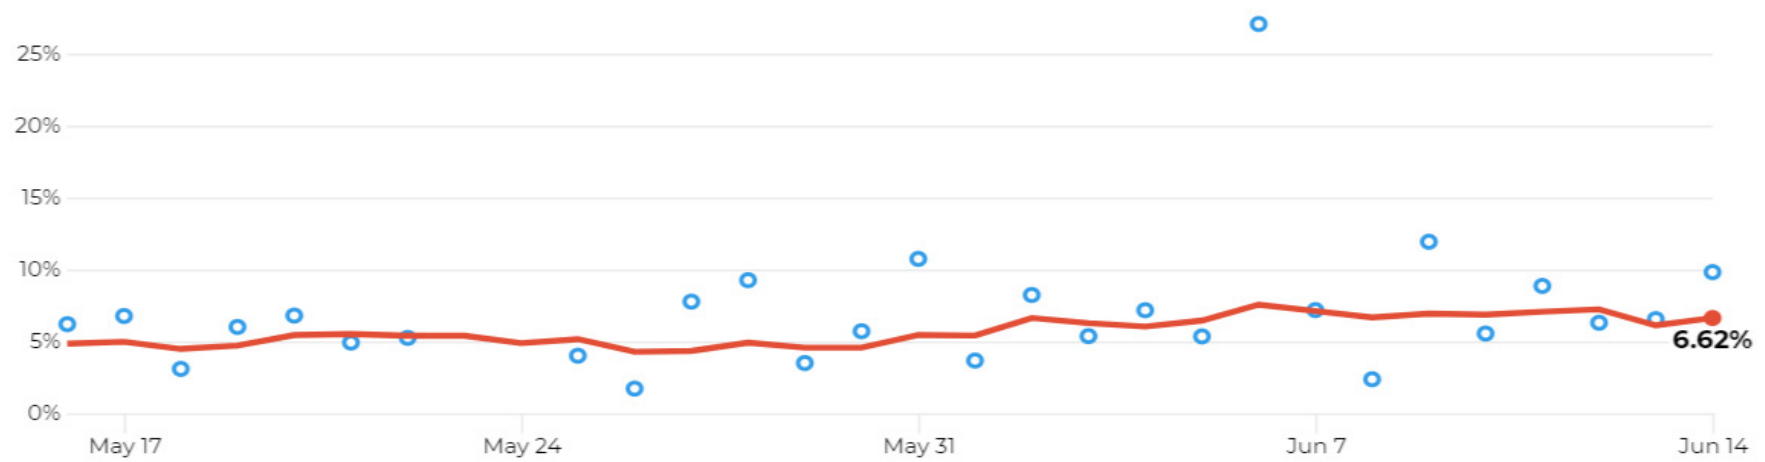

Cases per Day
Data as of 0:00 GMT+0

Rate of positive tests in Texas

Seven-day positive testing rate over the last 30 days for Texas. As testing increases, positive rates should decrease.

— Avg. % positive tests ○ Daily % positive tests

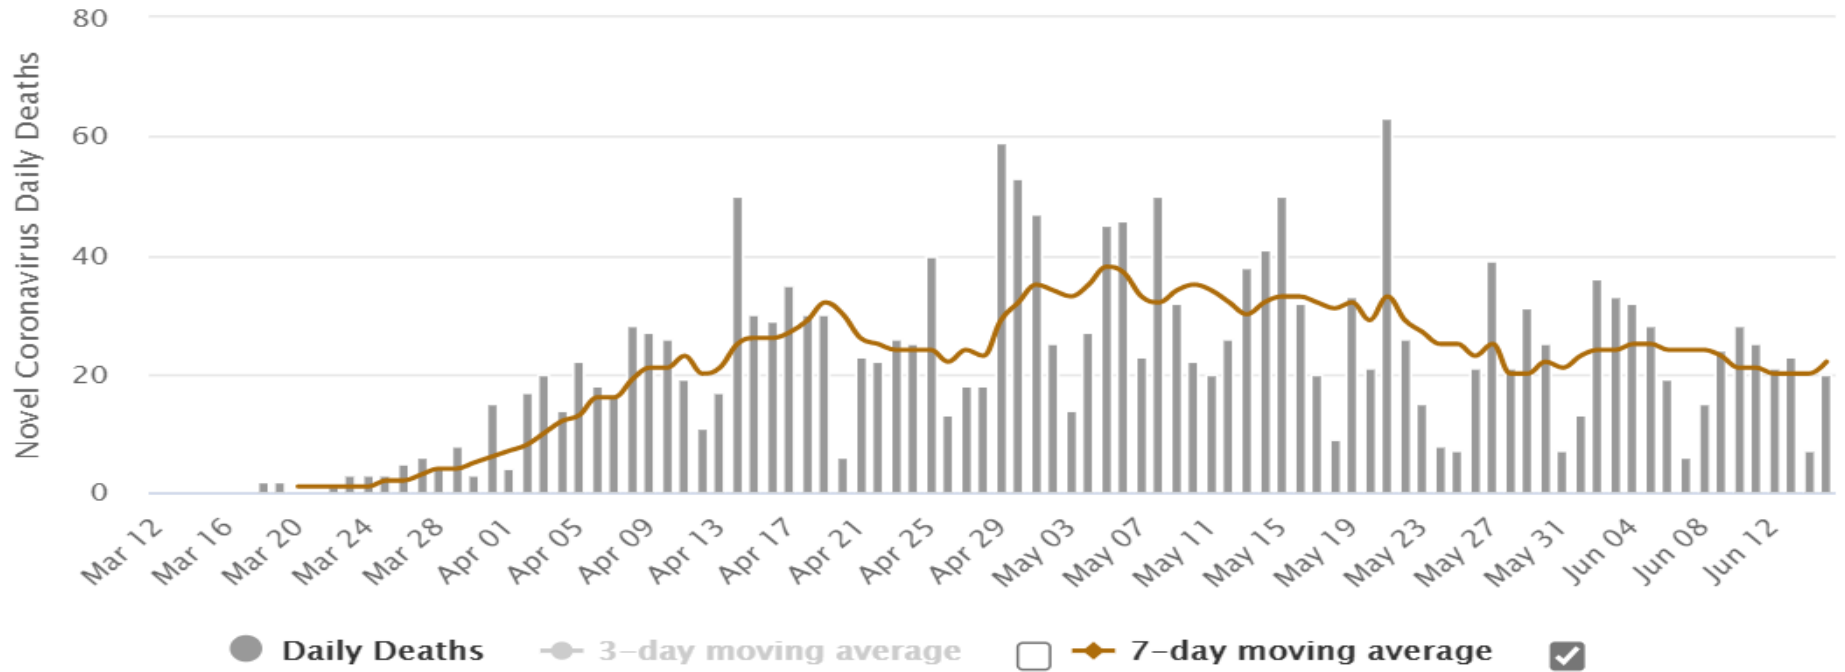

Notes about the data: Viral testing data for May 23 and May 24, provided by Texas Department of State Health Services is incomplete. Beginning May 19, 2020, seven-day positive testing rate reflects results from only viral tests. Beginning May 13, 2020, daily positive test rates and average testing changes reflect only viral tests. Previous data included both viral and antibody tests.

*Average testing change reflects percentage change in the average number of tests over the last seven days to the average number of tests over the seven days prior.

Daily totals for Texas and North Texas counties

Daily totals for new cases, tests and deaths across Texas and select North Texas counties:

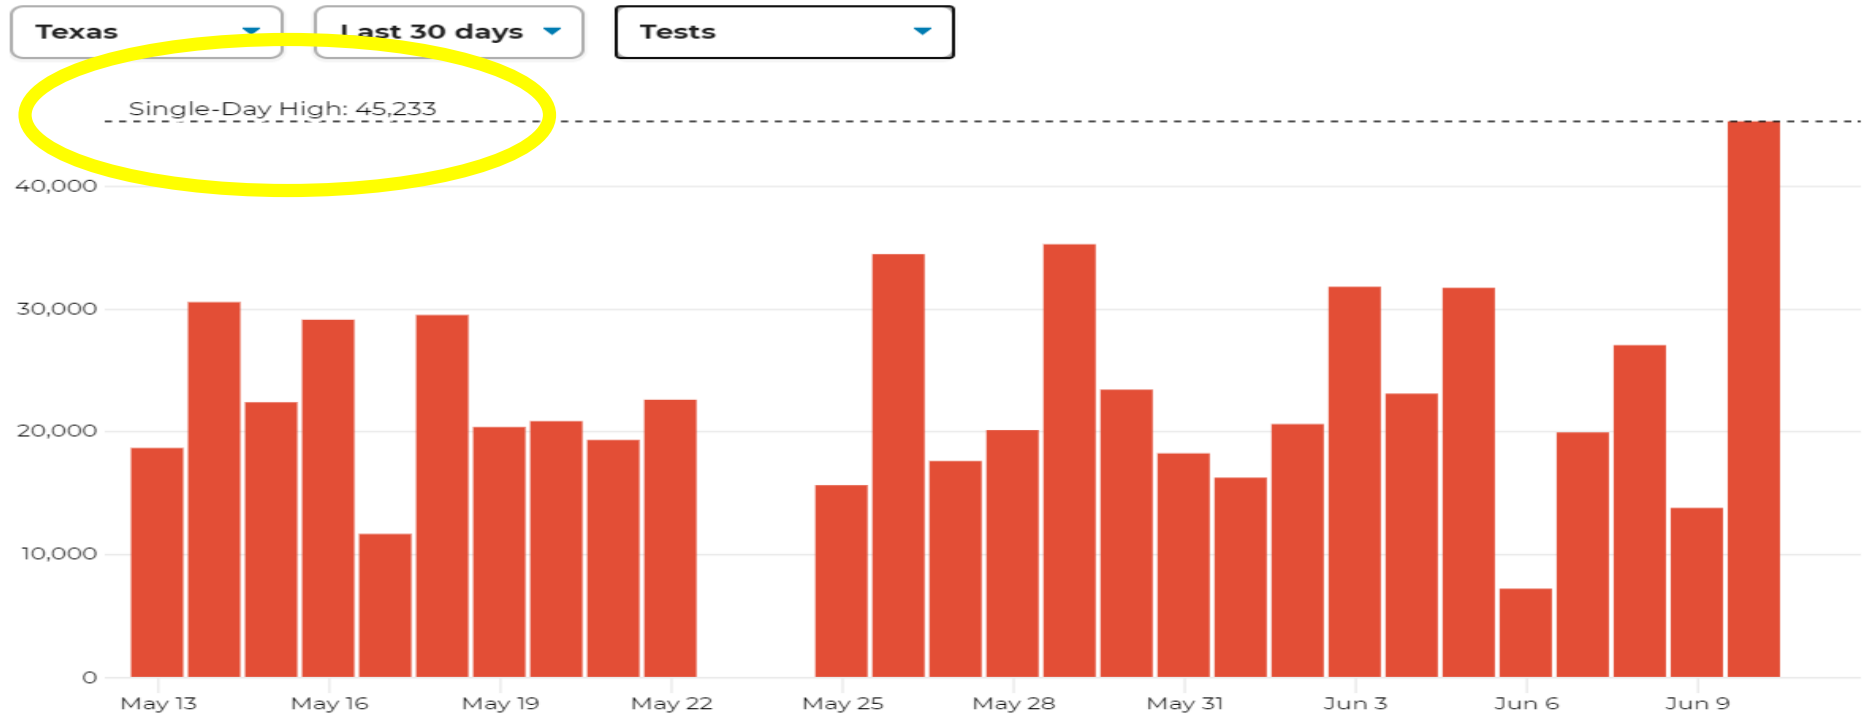

Texas Last 30 days Confirmed Cases

Notes about the data: Testing data for May 23 and 24 provided by Texas DSHS is incomplete. Daily test data includes only positive tests prior to March 17. Tarrant County's daily new case data does not include provisional positive cases prior to March 31. Low state testing totals for May 22 reflect the removal of antibody testing figures from overall testing totals.

Daily totals for Texas and North Texas counties

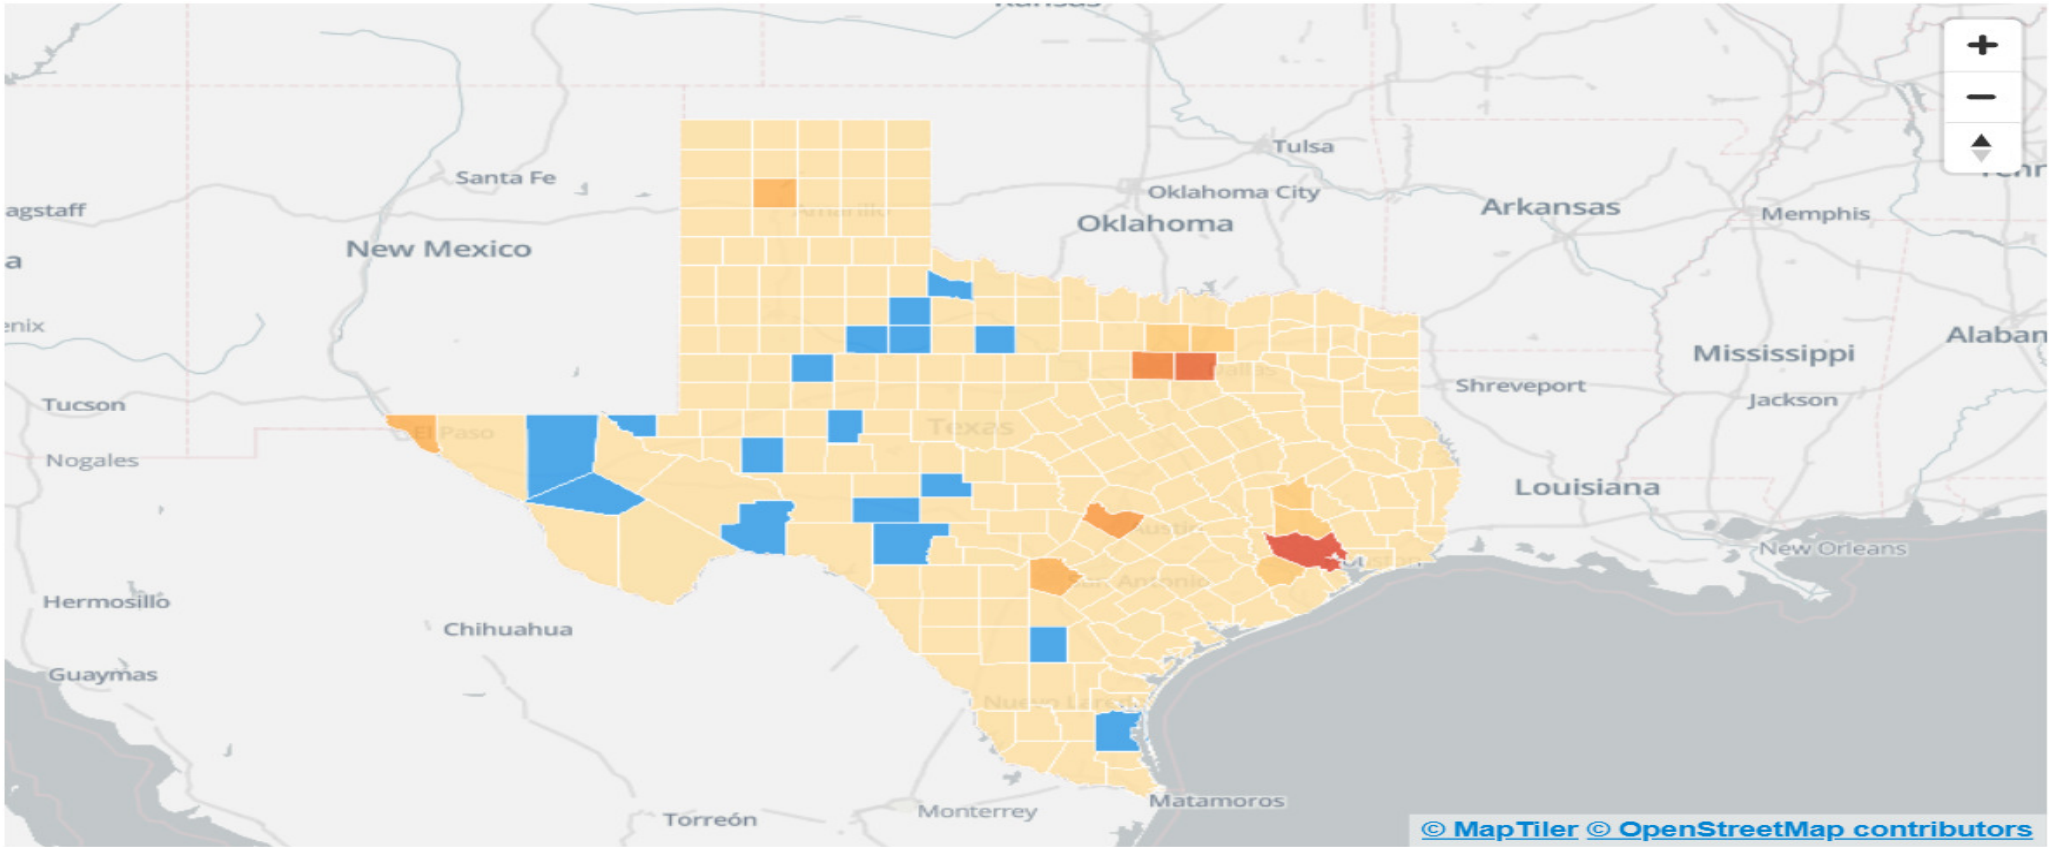

Daily totals for new cases, tests and deaths across Texas and select North Texas counties:

Notes about the data: Testing data for May 23 and 24 provided by Texas DSHS is incomplete. Daily test data includes only positive tests prior to March 17. Tarrant County's daily new case data does not include provisional positive cases prior to March 31. Low state testing totals for May 22 reflect the removal of antibody testing figures from overall testing totals.

Texas counties (total cases) ▼

Cases

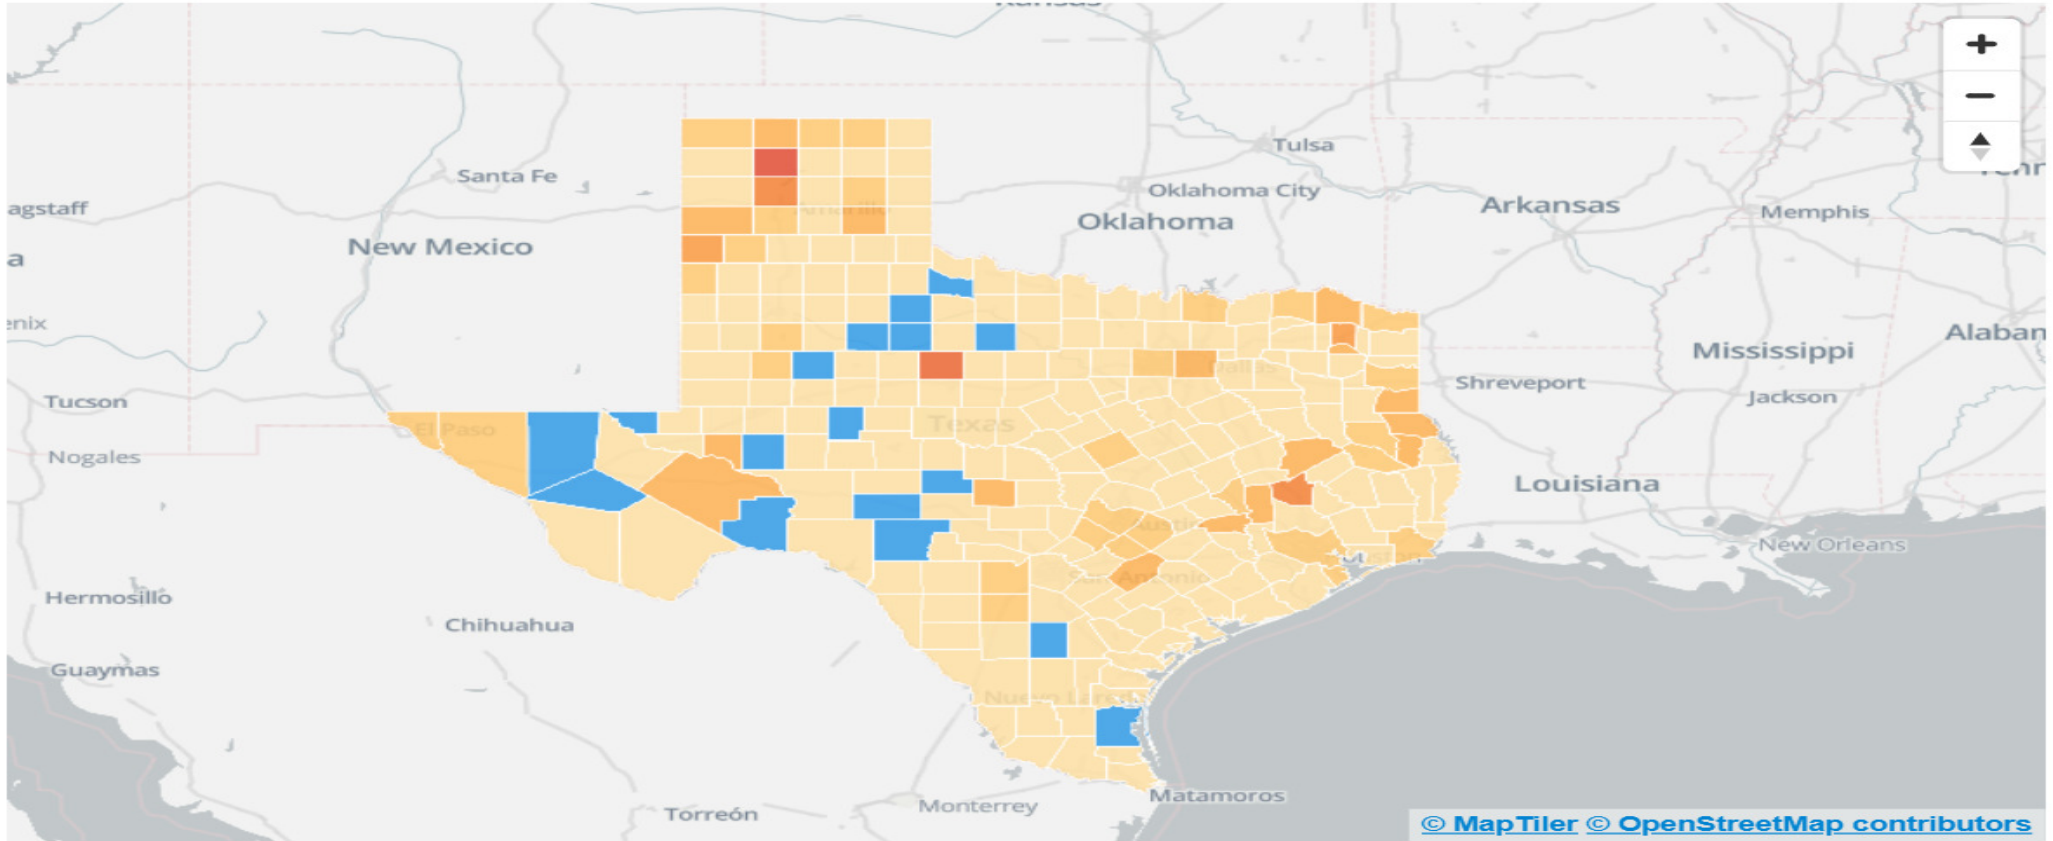

Notes about the data: County totals do not include repatriation cases. Patients may be undergoing treatment in facilities in other counties. Counties are determined to be trending downward if their past 14 days of seven-day daily case averages has a downward trajectory and they do not have any period of four consecutive days of increased daily cases within the past 14 days.

City figures include cities in Dallas, Tarrant, Denton, Ellis and Rockwall counties, though not every county updates city totals daily. Collin County city totals through June 1.
