

501F Users Group 2025 Vendorama Schedule

Room - Host/Hostess	10:20 - 10:50	10:55 - 11:25	11:30 - 12:00	12:00 - 12:55	1:00 - 1:30	1:35 - 2:05	2:05 - 2:25	2:30 - 3:00	3:05 - 3:35
A	Subject: Significant Startup Improvement through Electrical Steam Turbine & HRSG Warming Solutions	501f single layer insulation	Demystifying Varnish	Lunch	Case Study: Extending Catalyst Life Through Proper SCR System Evaluation	Enhancing Siemens SGT6-5000F Transition Duct Liner: A 3D-Scanned Approach	Break	MeeFog for Cooling and Wet Compression Technology and Fleet Experience	Comprehensive Approach to Turbine Blade Ring Repair and Assembly
	Vendor: Arnold Group	Arnold Group	C.C.JENSEN, Oil Maintenance		Environex, Inc.	HRST, Inc		Mee Industries	TRS Services
B	Subject: Oil, your hidden asset!	Steam Turbine Major Contingency Planning	Generator Topic	Lunch	Turbine Vane Downstream Deflection – Identification, Mitigation, and Correction	TBD	Break	The 4-Way Joint Leak Solution	Flange Leak Detection System
	Vendor: C.C.JENSEN, Oil Maintenance	Advance Turbine Support	AGT Services, Inc.		Doosan Turbomachinery	Industrial Air Flow Dynamics, Inc.		Nord-Lock Group	HP Leak Detection
C	Subject: Online Non-destructive Partial Discharge Testing of MV/HV Cables	Online Non-destructive Partial Discharge Testing of MV/HV Cables	Compressor cleaning chemical update / wash skids	Lunch	Improvements in Freeze Protection Technology	GENERATOR SERVICE/NEW INOVATIONS	Break	PSM's Output and Heat Rate Upgrade Abilities: Review of GTOP (Gas Turbine Optimization Package) Past, Present, and Future	
	Vendor: Doble Engineering Company	Doble Engineering Company	Rochem Fyrewash Inc.		CIAC Systems LLC	National Electric Coil		PSM	
D	Subject: Allied Power Group	Better filtration pays for itself	Frenzelit Exhaust Expansion Joint Upgrades For New and Legacy 501F Units	Lunch	Filter Topic	Understanding the impact of balance of plant equipment on liquid fuel system reliability'	Break	501F & G Torque Converter Updates	Plant Turbine Upgrade Assessment
	Vendor: Allied Power Group	EMW filtertechnik GmbH	Frenzelit, Inc.		Hilco Filtration	JASC		Voith US	Tetra Engineering Group, Inc.
F	Subject: Proper Monitoring of Turbine Oil Degradation to Prevent Varnish Formation.	Engineering an exhaust silencer system for todays gas turbines including material selection and proper welding process and filler materials.	Gulf Turbine Specialists - Benefits of hiring an owner engineer	Lunch	TBD	The Effects of Distribution on SCR System Performance	Break		KinetiClean - HRSG Tube Cleaning Technology
	Vendor: Shell Oil Products	SVI BREMCO	Gulf Turbine Services		Shermco Industries	Vector Systems, Inc			Groome Industrial Service Group
