SEPT. 6 FOSTERING PUBLIC-PRIVATE INNOVATIONS IN THE U.S. WATER MARKET

Regardless of urban or rural settings, citizen or business expectations, our nation requires safe drinking water and an infrastructure that can provide this resource for future generations. Hear from public and private leaders working across the U.S. to address our challenges, and how innovation in the water industry has brought new approaches and opportunities to Wisconsin's economy. [More information / RSVP HERE](#) by Sept 5. Contact Meghan Jensen at mjensen@thewatercouncil.com with questions.
