# Make Your Enterprise Future-Ready

Global Vice President, Enterprise Solutions Group Marketing

### Change: The only constant

### The CIO paradigm

#### **Business priorities**

- Deliver business results
  to shareholders
- ✓ Improve customer satisfaction & innovate
- ✓ Cut/maintain costs
- ✓ Keep us competitive
- Improve employee
  productivity

#### **Technology priorities**

#### "Keeping the lights on"

- ✓ Manage current
  - workloads
- ✓ Application rationalization
- ✓ HW updates & migrations
- ✓ Reduce costs
- ✓ Protect our data

#### Accelerating the business"

- $\checkmark$  Optimize workloads
- ✓ Software-defined X
- ✓ Utilize new IT benchmarks
- ✓ Deliver ubiquitous mobility
- ✓ Implement cloud computing

### Forces accelerating enterprise market change

**Diverse forces** are acting on the IT market, leading to a **rapidly shifting landscape** that requires **more discipline and agility** to be successful

### You're at the intersection of traditional & new IT

# Our goal is to **synthesize traditional and new IT** in the digital era with Future-Ready IT

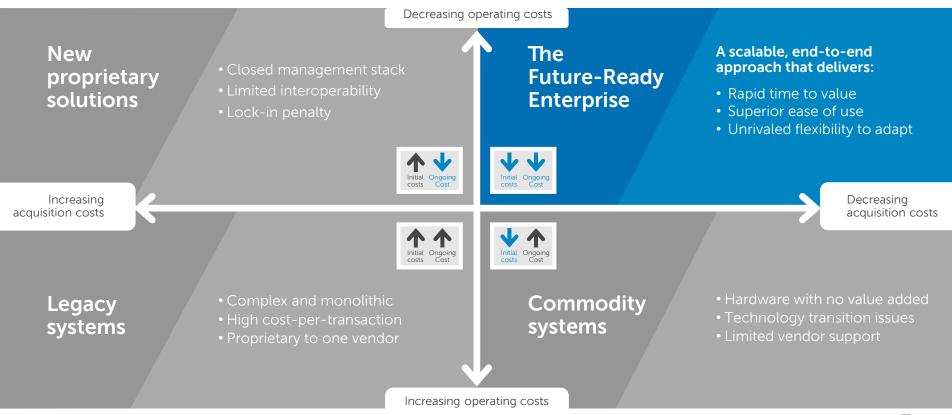

Traditional IT

Support Traditional IT applications and architectures with efficient and scalable virtualization based cloud solutions New IT

Support New IT applications and architectures with efficient, scale-out, hyperscale inspired cloud solutions

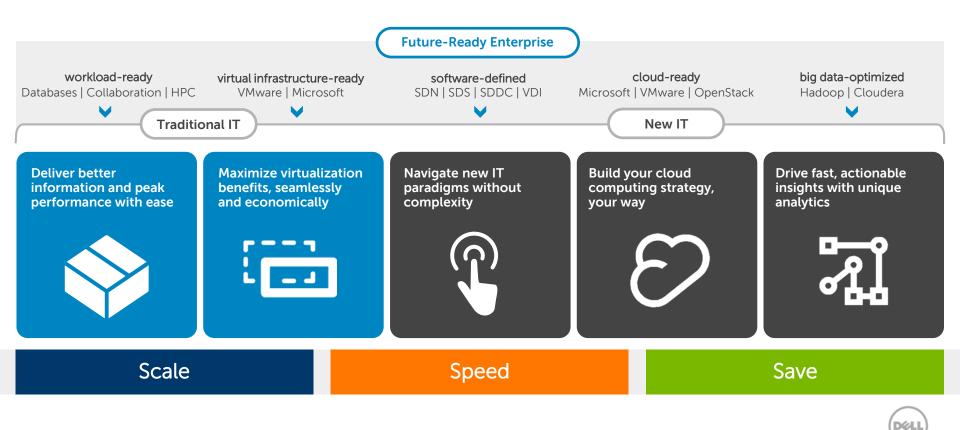

A common compute-centric, software driven platform for traditional and new

### Our approach gives you better results

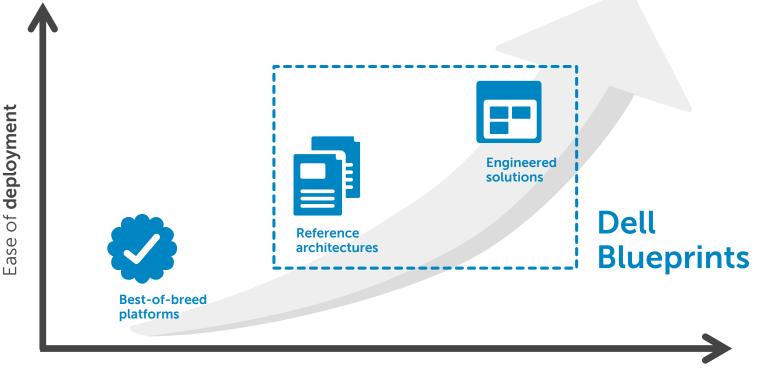

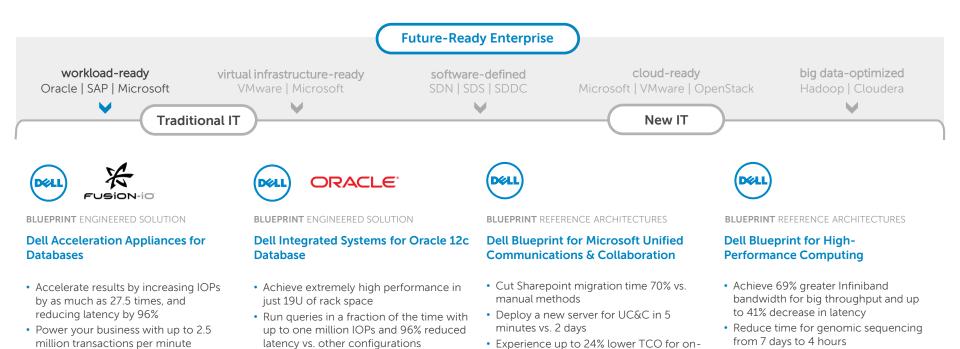

Dél

# ... by providing the **most flexible path** to integrating new capabilities

automated management

 Balance performance and cost-effectiveness

10

• Speed deployments and minimize risk with validated configurations

#### Dell Engineered for VMware EVO:RAIL

- Go from power-on to deploying VMs in just 15 minutes
- Integrate into existing environments without disruption
- Scale quickly to meet growing user and business demands

#### **Dell Blueprint for Virtualization**

- Configure infrastructure and stand up a virtualization cluster on Blueprint reference architectures 90% than a Cisco solution
- Achieve 60% more VMs per rack than an HP solution
- Diagnose issues 50% faster and get up to 15% better resource optimization with vFoglight virtualization management software

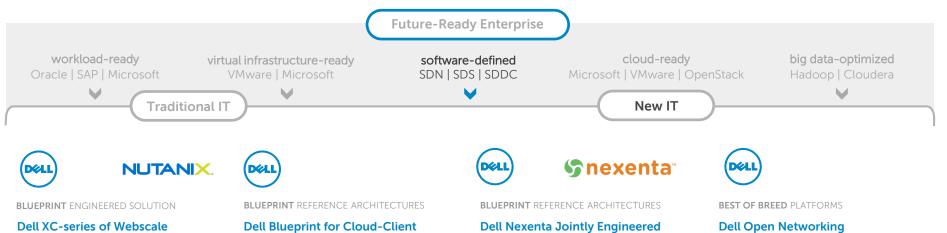

#### Dell Enterprise Portfolio + VMware

- Deploy PowerEdge servers with up to 52% less system administrator time than HP by using a plug-in for vCenter
- Manage and provision Dell Storage, and easily protect and recover VMs, from a single VMware vSphere interface
- Configure physical and virtual switches with Active Fabric Manager using templates and standard command line syntax within vSphere Distributed Switch

#### Dell Enterprise Portfolio + Microsoft

- Automate server and storage discovery, configuration, monitoring and updates with OpenManage native integration and plug-ins for Microsoft System Center
- Boost performance with tight integration enabling perpetual optimization of data
- Optimize Microsoft virtualized
  networking with NVGRE-ready switches

#### Bring webscale capabilities to your

**Converged Appliances** 

- data center in just 30 minutes
- Scale out flexibly with an efficient model, one node at a time
- Reduce operational complexity using a highly intuitive, single management console for both compute and storage resources

#### **Computing for Desktop Virtualization** (VDI)

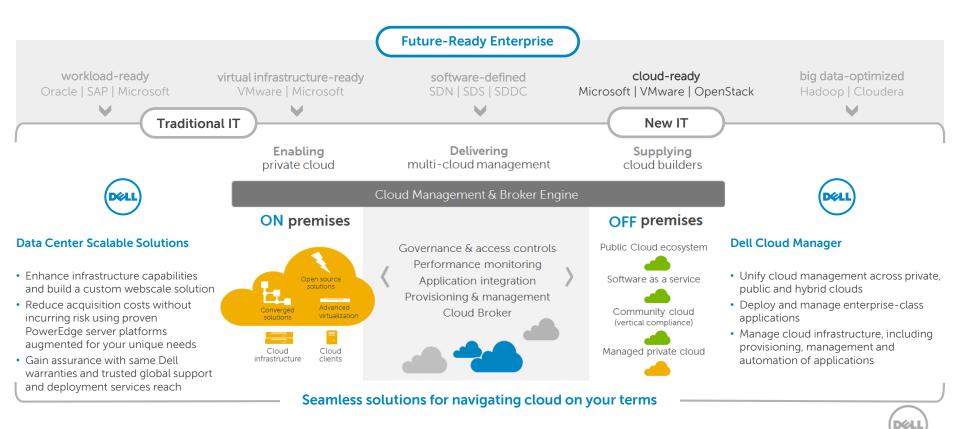

- Reduces the time it takes to plan, install. deploy, operate and manage a VDI environment by 6x
- Deploy up to 200 desktops in just 4 steps, in 1/10 the time required of traditional setups, using a Dell VDI appliance
- Simplify VDI management with 1 console for thin client, iOS and Android platforms

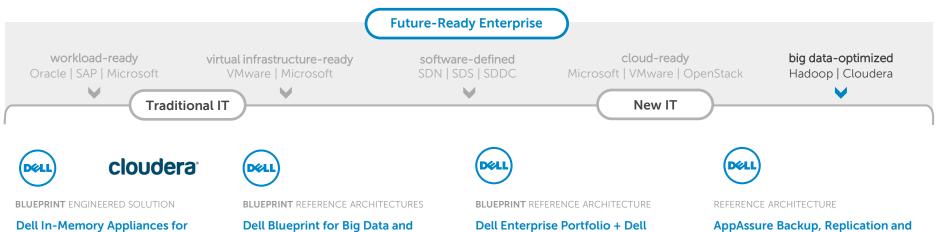

#### **Software-Defined Storage Solutions**

- Reduce storage costs and unify management for greater efficiency
- Unlock potential in your data center with unlimited file size and snapshot capabilities
- Improve VSAN I/O performance up to 10x

- Maximize choice with a complete, unbiased approach—whether adopting SDN via hypervisor overlay, OpenFlow, or programmatic interface
- Select the OS that works best for your needs using Open Networking
- Evolve at your own pace without lock-in or forklift upgrades

#### Dell In-Memory Appliances fo Cloudera Enterprise

- Run jobs 100x faster compared to MapReduce, 10x faster in-memory compared to disk
- Simplify operations and reduce costs by using a single common platform for multiple frameworks
- Scale up economically without ripand-replace

#### Dell Blueprint for Big Data and Analytics

- Utilize end-to-end architectures specifically designed for your big data goals, from operational efficiency to business transformation
- Experience results like 70x accelerated monthly analysis and 60% faster predictive analytics response times
- Improve outcomes with integration from analytics to management software to hardware and services

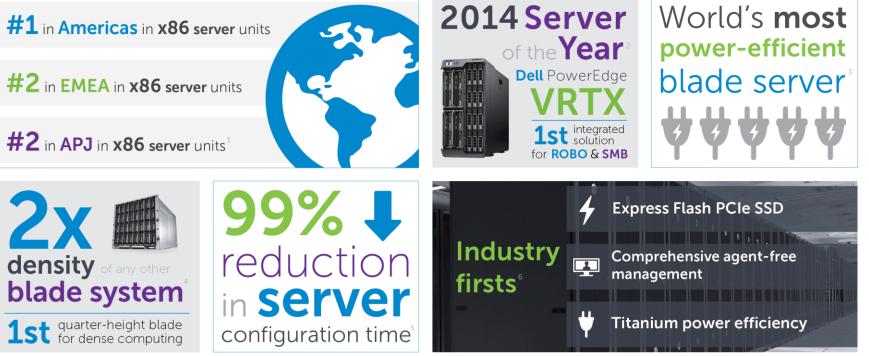

#### Dell Enterprise Portfolio + Dell Statistica, Toad Data Point, Boomi

- Rapidly and easily turn big data into a big competitive advantage with predictive analytics
- Empower both business users and sophisticated analysts to work with the existing IT investments in place
- Improve decision making, achieve compliance, automate analytic processes, reduce costs and errors and break down data silos.

#### AppAssure Backup, Replication and Recovery Software and NetVault Backup

- Unify backup, replication and recovery into one. Protect data in physical virtual & cloud environments
- Restore operations almost instantly with a recovery time objective (RTO) of minutes.
- Provide near continuous access to the data after an incident, keeping your business humming along.

Compute solutions from office scale to hyperscale

Innovation redefines storage economics

- #1 supplier of total storage (internal and external) worldwide in 2014 based on total terabytes sold per IDC Worldwide Disk Storage Systems Tracker Q4 201using terabyte share data, excluding ODM.
   #1 ISC1 storage endorm worldwide the revenue and market share for 26 out of 28 quarters (2008/01-2014/04) per the IDC Worldwide Quarteriv Disk Storage.
- #1:bcs/storage vendor wondwide by revenue and market share for 26 out of 28 quarters (2008Q1-2014Q4) per the IDC Worldwide Quarterly Disk Storage Systems Tracker, Q4 2014.
   #1 automation DAS update by update swander swander worldwide (or the past swand outstore (2012Q1-2014Q4) per the IDC Worldwide Quarterly Disk Storage
- #1 external DAS vendor by vendor revenue share worldwide for the past seven quarters (2013Q1-2014Q4) per the IDC Worldwide Quarterly Disk Storage Systems Tracker, Q4 2014.
- Based on internal tests performed by Dell in December 2014 with Storage Center v6.5.20. Actual performance will vary based on configuration, usage and manufacturing variability.
- ESG Lab September 2014 White Paper, "Dell Storage SC4020 TCO Analysis." contrasting SC4020 costs over 8 years with comparable solutions from two leading vendors.
- 7. Results based on internal Dell analysis of online surveys, FY 2009-2014.
- Based on February 2015 competitive review and Dell performance testing of the SCv2000 FC array with 24 write intensive SSDs using IOmeter with 8KB randor reads. Actual performance will vary on the workload and drive type.
