

2022 IT Symposium Speaker BIOS

Debora Monteiro, CISSP, CRISC, PMP, CIPP-C, GRCP

Debora Monteiro is a Senior Manager at MNP and leads the Cyber Security Incident Management services group in British Columbia. She advises various government and corporate IT organizations across several industries, from ethical hacking to developing cyber security protection strategies. She empowers business managers to prepare, detect and respond to cyber threats and make the right decisions on how to best protect their digital assets. Debora has led numerous complex engagements covering a broad range of Cyber Security, Infrastructure, and risk management areas, including IT governance, information security management, security operations, vulnerability management, policies and procedures, privacy legislation, penetration testing (network, web, and mobile applications). At MNP she has been focusing in Incident Management, developing Incident Response Plans, Playbooks, performing Tabletop exercises and leading Incident Readiness engagements, besides leading Incident Response of active incidents.

Judy Sin, CISSP, CISA, CompTIA Security+

Judy Sin is Senior Consultant part of the MNP Digital Cyber Security team in Vancouver. She is a graduate of UBC in Business Technology Management and an accomplished innovation and transformation professional who works with organizations in assisting in both preparatory and post-incident activities, such as plan and playbook developments, tabletop exercises, and hands-on compromise responses.

She's also worked with a variety of organizations across multiple industries in assessing its protective and detective capabilities, not only at MNP but at her previous organization (Deloitte), to assess the

maturity of cyber security capabilities using NIST, CIS, ISO, PCI DSS and Cyber Strategy Frameworks (CSF) and recommend areas of improvement to enhance the client's cyber security posture.

Shruti Goswami, TPECS, CISA, CSM

Shruti Goswami is currently working as Information Systems Audit Senior Manager with Central 1 Credit Union and leading the effective planning, execution, and reporting of (IT/Security) internal audit and advisory projects. She has IT/Security Audit and advisory experience built over 15+ years of widespread experience of working across various industry verticals including IT and Financial sectors etc. She has led various Information Technology, Information and Cyber Security, Digital Transformation and Project Assurance audits/advisory engagements.

She has worked with Grant Thornton in Audit, Assurance and Advisory for 4 years, Mazars for over 3 years and as an independent consultant supporting various clients with IT Governance, IT/Security reviews, provided expert guidance etc. She holds a CISA designation & ISO 27001 Internal Auditor certification.

Doug Steele, CPA, CA, CISA, CRMA

Since 2014, Doug Steele has been the Cofounder and Chief Operating Officer of Decision Point Advisors, a boutique firm that helps organizations build trust over their processes, technology and data. Prior to that he was at Grant Thornton for 23 years the last 9 years as a partner leading the advisory practice in British Columbia. During his career, Doug has served both as a fully outsourced Chief Audit Executive as well as co sourcing partner for many different organizations based in Vancouver and across Canada. Doug has lead numerous cyber security audits and consulting assignments often finding himself in the role of "translator/arbitrator" between the C-Suite and the IT Department. He has worked across many different industries but his focus has been on the financial services, mining and public sectors.

Ritchie Po, JD, CIPP-C, CIPP-E

Ritchie Po is the Privacy Lead at Kobalt.io, a Vancouver-based IT security services company that specializes in providing cybersecurity services to SMB clients. The holder of Canadian (CIPP/C) and European / GDPR (CIPP/E) privacy professional designations, he is also a cybersecurity lawyer who has acted as legal counsel to a major Telecom, a multinational corporate trust agency, two Fortune 500 companies, and the worker's compensation board.

A nationally-recognized legal expert and legislative consultant in data privacy law, Ritchie has held numerous positions in the profession. He is the former Chair of the Canadian Bar Association (CBA) BC's FOI & Privacy Law Subsection, a member of the Conference Board for VIPSS 2021 and 2022, and currently serves on the IAPP's Canadian Advisory Board.

A published legal editor, Ritchie is also a Contributing Editor to the commercial retail trade publication Retail Insider, having assisted its founder at its inception by serving as the media company's original Copy Editor. He enjoys being gifted haute couture and swag.
